GOOD USE FOR THE STATE'S MONEY.

Governor Warfield could not possibly put the $15,000 he says he has saved of the State contingent fund to better use than the employment of vigorous measures to detect and punish election corruptionists. We do need a drastic special law to stop the debauching of the electorate, but what we need far more is a genuine determination to enforce the law. There is law enough now to strike terror into the election briber if only it were made clear to him that the law meant business. The only way to make him understand that is by putting somebody in prison who has done what he is thinking of doing. If the Governor should now give full and fair notice that he will see that any man guilty of this crime will be hunted down with all the means at his command, and will be relentlessly punished, he need have no scruple in acting accordingly when a specific case arises. Bribery of voters has become so common in some parts of the state that immunity for it is regarded as an acknowledged institution. The Governor's statement, in an interview, that he will use the balance of his contingent fund for the prosecution of such violators of the law is a step in the right direction. Now let him follow it up with a more formal and emphatic declaration, which will serve as ample notice to those who rely on a vicious custom as their excuse and defense. And then, if anyone chooses to ignore the warning, let him suffer the consequences.

Is Your Hair Sick?

That's too bad! We had noticed it was looking pretty thin and rough of late, but naturally did not like to speak of it. By the way, Ayer's Hair Vigor is a regular hair grower, a perfect hair tonic. The hair stops coming out, grows faster, keeps soft and smooth. Ayer's Hair Vigor cures sick hair, makes it strong and healthy.
