AID TO A HAPPY MARRIAGE

Maryland canners are a June bride's best friend, thinks this pretty newlywed as she stands amidst a typical group of the 788 cans of food and non-food products which American Can Company estimates the average Maryland family uses a year. Free State housewives open six times as many cans as brides of 50 years ago, the canmaking firm reports. As a result Maryland homemakers today have cut their time in the kitchen to about two hours daily, whereas Grandmother spent a major part of her married life there. Maryland canners also do their part in helping housewives prepare an almost endless variety of meals. The state's canners annually pack approximately 175 different kinds of food in about 290 styles.
