VOTE FOR THESE.

A voter is entitled to take the following slip into the booth with him so as to be sure he votes for the right men. Compare your ballot with these names and mark your ballot opposite them :

AUSTIN L. CROTHERS	X
JOSHUA W. HERING,	X
ISAAC LOBE STRAUS,	X
CALEB C. MAGRUDER,	X
WILLIAM H. ADKINS,	X

JAMES S. HARRIS,	X
HARRY C. WILLIS.	X

Don't make any other marks or write any other names.

IF the voters want a continuance of the excellent school system vote for the Democratic candidates, Slay, Harris and Willis.

THE white voter who casts a ballot for any candidate on the Prohibition ticket helps to place the colored man in control. This is no time for trifling nor for quibbling. The issue is upon us and the white man must decide it. There is no middle ground.

THE fishermen and oystermen can trust Messrs. Slay, Harris and Willis to look after their interests at Annapolis. They are pledged to do this and as each man has a clean record, is upright and honorable they can be depended upon. They are worthy the votes of every waterman.

IT is now fully understood that Wm. H. Jackson expects to be the Republican Senator if that party succeeds in securing the Legislature. He is to represent the Eastern Shore and Hon. Sydney Mudd the Western Shore. Nobody claims for Jackson any fitness for such a position. But he's got money. Money is his only recommendation. Money is expected to win the election for him. His leader in Kent is said to be well supplied with money to purchase votes and he is expected to flood every polling place with Jackson's cash! Just think of it! Jackson sending money to Kent to buy white people to send him to the Senate!

A SOLEMN WARNING.

All Marylanders well know that our sister Southern States have largely disfranchised the ignorant negroes in their respective States and, no doubt, many of these ignorant negroes have their eyes set on the coming election, and should Maryland elect the Republican officers Tuesday thousands of these ignorant negroes will flock to Maryland, and may we not look forward actually and anticipate a general colonization by the then Republican leader of this class of undesirable voters into our State.

O, ye, white voters of all parties, think seriously before you cast your vote. Are we not now burdened plenty heavy with this class of people? Look up our Court and Police Magistrate record and there you will find about 90 per cent. of criminal cases chargeable to the worthless young generation of the negroes. Think well before you vote and vote the white man's ticket.

If you believe in white supremacy, vote the Democratic ticket.

IF there is any money sent to Kent by liquor interests it will be to help the Republican cause, sure. But we don't think there will be any money from this source as Delaware will need every cent, and the charge by the Republican organ is simply a canard.

COLORED ROAD SUPERVISORS.

The election of the Republican county commissioners means that negro road supervisors will take the place of some of the white men who now serve the county in managing the public roads. Does any one doubt this? Will not the fifteen hundred negro voters who march to the polls in a solid body and vote the Republican ticket give them a strong claim for such recognition? Will they step aside in favor of the whites? Did they do so when the Republicans were in control in Kent? Let's see. Here are some items from the official record :

Richard O. Barroll, colored, received for road work from June 17, 1902, to October 20, 1903, a little over one year.....$616 15

This was one of the valuable second district workers, no doubt!

How about the third district?

George W. Cotton, colored, in third district, received from June 3, 1902, to June 16, 1903, one year... .....$519 93

These are only two—but that's enough—to show that the negro must be recognized when the Republicans have control. How many more were provided for in smaller amounts we are not prepared to say. But we are sure that if a Republican board should unfortunately get control again the negro road supervisors will be largely increased. We believe the white people are awake to this danger.

WHO FOR SENATOR ?

An important privilege will face every Democrat next Tuesday, that is to express his choice for U. S. Senator after he has performed his duty to the regularly nominated ticket—in a separate polling place.

We feel as deeply as any one can a desire for the success of our favorite as between the three candidates before the party, yet we have not felt at liberty to make our paper a partisan exponent of the claims of either. We recognize the fact that at least two of them have many friends in Kent and all of them are earnestly seeking as the first object the success of the party ticket and as ours is a party paper we believe both as entitled to like treatment in our columns.

Gov. Warfield's speeches throughout the State have breathed the highest loyalty to the ticket, while at the same time he advocates his own claims. He has greatly strengthened himself in so doing.

Ex-Governor John Walter Smith has also made some of the ablest speeches of this campaign, in all of which he manifested his supreme desire to win success for the party nominees. His strong hold upon the affections of the Democratic masses is naturally strengthened by this sort of campaigning.

A MODEL TICKET.

No party in this county or State ever put forward a better ticket than that now presented by the Democrats. Begin at the top and go from CROTHERS down to the very bottom and each individual candidate is eminently worthy of the suffrage of the people. Certainly no Democrat has any just reason for cutting a single one of them.

Our people know Judge Crothers, and they will stand by him and give him a rousing majority in Kent next Tuesday. He is in every respect the peer of Mr. Gaither and will make a better Governor.

There is no better man for office in Maryland than Dr. Joshua W. Hering. No one would dare question his integrity or perfect fidelity to every duty, and besides he has superior qualifications for the office of Comptroller.

The other State candidates are men of character and ability. But our readers are more interested in our local candidates and especially in the judicial ticket. Judges Adkins and Hopper will serve the people faithfully and the best interests of the community will be much better served by their success than by the Republican candidates. WE WILL HAVE NO NEGRO JURORS IF THE PRESENT COURT IS CONTINUED. But Warburton and Towers would be sure to introduce that element. Why? Because they will owe their election to them if they are successful. KEEP THE COURTS PURE. *No white voter can possibly desire negro jurors.*

How does the Democratic county ticket compare with the Republican? We have not one word to say against the personal character of any of the Republican nominees. But can any one say that Mr. John Davis is as well qualified for the duty of *making laws* as William M. Slay? Would not the latter be better able to cope with his rivals in the Senate than could Mr. Davis? Then for the House the county has never had two men better qualified for Legislative duties than James S. Harris and Harry C. Willis. And can any one question the integrity of either of these gentlemen? Is there any danger of graft with them? No one will for a moment doubt them. Then they have a direct interest and are in close sympathetic touch with the people and can be relied upon to act for the benefit of the masses on all the questions likely to be up for legislative action.

Messrs. Dudley, Harry Davis and A. C. Loud are certainly as well fitted for the commissioners' court as the Republican nominees, and they have proven their ability to look after the tax-payers' interest much better than can a Republican court.

THE ladies of Kennedyville W. C. T. U. will serve dinner and supper on Election Day at Kennedyville.

HALLOWEEN night in Chestertown was thoroughly enjoyed by the young people.

THE Baltimore American of Wednesday has the following pertinent reference to the Poe Amendment and the campaign of two years ago :

"In the first place, the Poe disfranchising amendment was the burning issue in that campaign. The Republicans recognized the patent fact that if the amendment were approved *they would shut up shop and quit business in Maryland.* They, therefore, subordinated everything, they sacrificed their ticket in order to defeat it."
