SATURDAY, NOVEMBER 23, 1907.

A SINGLE VOYAGE of either the steamers Lusitania and Mauretania gives a profit roughly quoted at $66,000. It is estimated that the expenditures are about $89,950 and the income $156,750.

WILBUR ELIASON, ESQ., although deposed as chairman of the Republican State Central Committee, evidently has not lost his "pull" in Washington, judging from recent events in Kent.

THE recent election cost Kent county about $5,000. Montgomery paid out $5,400, Frederick $6,800, etc. This does not include the cost of campaign, either. An itemized statement of the latter would make interesting reading.

THE Ericsson steamboat company has rented the wharf at Pratt and Light streets, Baltimore, for $11,000 a year for 50 years. This is at the rate of $25 lineal foot. Is there any wonder there is no opposition to these big companies?

THE NEWS is in receipt of a number of letters for publication but the writers failed to send their names, therefore they did not appear. The NEWS insists on signatures to all communications, not for publication but as a protection and to show good faith. A writer who is ashamed to sign an article nine chances out of ten the said letter is not fit to appear in print.

THE Government officials have signed $100,000,000 in certificates drawing 3 per cent. and $50,000,000 in Panama bonds drawing 2 per cent. It is expected that this will greatly relieve the money situation by bringing the hidden funds into use. These certificates and bonds will be readily taken by banks and individuals.

A MAN in Pennsylvania drew $3,000 from the bank where he had put it, his withdrawal being actuated by the recent panic. Robbers broke into his house and nearly succeeded in getting all of it. Now it is back in the bank. Some, however, who lost their heads in the panic and acquired an instant and wholesale distrust of banks, did not get off with so cheap a lesson on their folly.

THE Inland Waterways Conference opened Tuesday at Philadelphia. The object of the Conference is to promote the securing of Government aid to construct a system of inland waterways from Boston to Beaufort, N. C. One of the links in the chain would be a deep water canal connecting the Delaware and Chesapeake Bays. The cost is estimated at $35,000,000. Seventeen States are represented at the Conference and are united in their efforts to secure the necessary legislation.

THE imposition which the trusts practise upon the public is forcibly brought to the NEWS' readers recently. Cotton has been raised to 8 cents per spool and at the same time comes the following announcement:

"A dispatch from Pawtucket, R. I., announces that the profits of the Thread Trust for the past year were $15,280,625. So the thread trust is to declare a dividend of 20 per cent. and give an additional bonus of 10 per cent. to its stockholders."

The Sun well asks, "isn't that enough to make American women rise up in their ire and stick their scissors into the Thread Trust?"

WORTHINGTON NAMED AS JUDGE.

Governor Warfield Saturday announced the appointment of Mr. Glenn H. Worthington as chief judge of the Sixth circuit comprising the counties of Frederick and Montgomery, to succeed the late Judge James McSherry. By virtue of his office as Chief Judge Mr. Worthington will have a seat in the Maryland Court of Appeals, the highest tribunal in the State.

Mr. Worthington is the author of the Worthington amendment, which was presented to the Legislature in 1903, but did not pass, but which has since been indorsed by a number of prominent Democrats as the proper kind of amendment to submit for the restriction of the ignorant vote. He has always been a Democrat and has taken an interest in party affairs in Frederick county for years.

THE November Delineator started the "Child Rescue Campaign"—the bringing into the home that needs a child the child that needs a home. There are 25,000 children in New York alone who do not know what Home means; there are 2,000,000 homes in America that do not know the joys that children bring. In the December issue are shown the second two, little, homeless children they are asking the great American womanhood to take into its heart.

THE report of a "shortage in Thanksgiving turkeys" turns out to be wholly unfounded. On the contrary, turkeys are plentiful, they are not roosting high, and quotations are normal. So every man may have his turkey—if he has the price.

APPOINTMENTS TO OFFICE.

Governor-elect Crothers' declaration that he will not consider the question of appointments until after he is inaugurated, in January, has not diminished the activity of seekers after State offices, and the woods are literally full of them. Wires are being pulled and the aspirants are busily engaged in lining up their friends, so as to make the best possible showing when the time comes.

That there will be a number of changes seems certain, but it is also believed there will be no clean sweep and that no man is to be turned out of office on account of any factional predilections. Judge Crothers is a believer in party organization, and where it is possible to do so it is believed he will recognize the organization of his party in both city and counties. Those close to him are convinced that his desire is to obtain good men, and that when these are offered him by the organization he will appoint them. When the men indorsed are not of the right kind he will not.
