PUBLISHERS AND EDITORS.

SATURDAY, NOVEMBER 30, 1907.

WE should all give thanks for the many blessings we enjoy.

EDWIN H. BROWN, JR., ESQ., has been elected counsel to the board of County Commissioners for Queen Anne's.

THE only trust that should be countenanced in America is the "Trust in God." It seems however that Teddy would have it otherwise. The President has made a great blunder in ordering this motto from the new coins.

JUDGE CROTHERS TAKES A TRIP.

Governor-elect Austin L. Crothers left Elkton Monday morning for Atlantic City, where he will spend a week or two. Judge Crothers has fully recovered from the attack of indigestion which he had on Friday and is fast recovering his health. He was accompained by his nephew, Emerson R. Crothers, who will remain with him during his stay at the seashore.

Now look out for two big State weddings, with Governor Crothers and Hon. Isaac Lobe Straus as the central figures. And, by the way, a similar arrangement was made in this county by one of the successful candidates. A bill will probably be passed at the next legislature requiring all State Senators to be married men.—Centreville Observer.

[The editor of the Observer is a married man and Queen Anne's Senator-elect is a bachelor.]

SALUTARY RESULTS.

Hon. Thomas A. Smith, of Caroline, and G. R. Ash, Esq., of Cecil, both were in Chestertown this week and referred to the gratifying results of the anti-bribery work in their counties. Both gave large Democratic majorities. In all the other counties where anti-bribery prevailed the good results were marked by all. The Legislature should emphasise these efforts of the people *to do away with bribery altogether* throughout the State by the passage of stringent and effective laws to govern all elections including party primaries.

DENTON'S 65,000 gallon water tank, which supplied the town system, collapsed Friday afternoon, with disastrous results. The tank was full at the time. The engine house made of brick and iron was crushed like an egg-shell, and Mr. John T. Harris, who had charge, was seriously hurt, one leg being broken. The iron bands and some of the timbers were thrown a considerable distance, some of them fully 150 feet away. It is thought the accident was caused by the breaking of the iron bands which encircled the tank. The scene of the wreck was visited by hundreds of people.

THE Star-Democrat of Easton well says: "After voting down a constitutional Convention, some persons are proposing a lot of amendments to the present one. We think that considering the fate of most of the amendments proposed lately, they had better go slow. People are opposed to much patchwork, and very few, if any, will be adopted, when it comes to voting on them." The people need a corrupt practice and a primary law badly. It is also suggested that the terms of Treasurer and Sheriff be made four years as well as that of State Comptroller. We have too many elections and if they can be lessened by constitutional enactment it should by all means be done.

GREAT preparations are being made by Baltimore interests as well as by members throughout the State in the coming annual meeting of the Maryland Horticultural Society, which will be held in the Fifth Regiment Armory December 3rd and 4th.

The program of the meeting which has just been announced includes speakers of national reputation on the different phases of horticulture. They will discuss the growing and marketing of fruits, flowers and vegetables.

A special feature of the meeting will be the large exhibit of horticultural products, as well as commercial apparatus employed in this industry and made in connection with it. A large amount of fruit has already been sent to cold storage by growers in all parts of the State for exhibition. The local florists are planning to make a great display of flowers in competion for the good premiums offered.

THE Maryland Woman's Suffrage Association at its seventh annual convention, begun at the Arundell Club Hall, Baltimore, Thursday afternoon, launched the first concrete movement looking to the bestowment of the right of suffrage upon the members of the fair sex ever attempted in this State. The association unanimously decided by resolution to submit to the next legislature a bill providing that women be allowed to participate in the next national election.
