KRAUSERS PORTABLE CIDER MILL

THESE superior Cider Mills can still be furnished, of improved construction and finish Their grinding apparatus is peculiar and give them an advantage over all other mills. By the action of two reciprocating pistons the apple are forced up against the teeth of a rapidly revolving cylander and retained till ground to fine pulp, which of course yields more juice when subjected to pressure than if the pomace was coarse. The screw press has been greatly improved and strengthened since last year and the whole frame is tightened by strong joint bolts. It is adapted to either hand or horse power and can be worked by hand to the extent of six to eight barrels in a day.

SLAVES WANTED.

HAVING purchased the well known house formerly occupied by J. S. Donovan, No. 12 Camden Street, we are desirous of purchasing any number of *LIKELY SERVANTS*, for which the highest cash prices will be paid. All communications promptly attended to by addressing JON. WILSON,

dec.13, 1856.tf. Baltimore, Md.

Notice.

I OFFER on easy terms, or will exchange for other property, my *WHARF, GRANARY and the Lot of Ground* adjoining, at Betterton, mouth of Sassafras river.

Also the Schooners *"BLOOMFIELD," 3* years old, & *"SARAH SOPHIA," 4* years old, *prime* vessels in the hull, and sails rigging in good condition—now in good order for carrying grain, &c. Capacity of 'Bloomfield' about 3000 bushels, under deck—'Sarah Sophia,' 1500.

The wharf built in 1855, on piles in the most substantial manner—has since been protected against ice &c. by a series of breakwaters and pens of stone, rendering it capable of sustaining a powerful pressure. Granary 30 feet square with 3 stories and attic—capable of storing some 6 to 8000 bushels of grain by increasing the garners. Lot of ground, about 2 acres

To an energetic person with some capital, who would devote his entire attention to the business, the above presents a favorable opening; as the place is an improving one and located right upon the Bay, with 1½ miles of the great thoroughfare of freight and passenger trave from Philadelphia to Baltimore, must ultimately command a large share of business denied by remote position to many other localities.

In case of sale of vessels only, the Granary and privilege of wharf will be rented and the subscriber will attend thereto, if desired, assisting by such influence and freighting as he may control or possess.

To my friends and customers who have so kindly sustained me the past year and previously, in a public enterprise, I return my heartfelt thanks and inform them that should I not succeed in selling my vessels they will be run as heretofore and my efforts given to promote the interests of all who may confide their business to my care.

Advances made on Grain to be shipped within a specified time, and consignments respectfully solicited.

A. BARKER'S

DOUBLE ACTING

FORCE AND LIFT PUMP

IS acknowledged to be the most simple in construction, efficient in operation, less liable to get out of order, and more durable than any pump yet invented.

The World's Fair, London, gave Mr. Barker the complimentary medal, and the Pennsylvania State fair, on two occasions, awarded the pump the first premium.

In cases of fire, the Barker Fire Engine Pump has proved itself invaluable On several occasions persons, by having this pump on their premises, have saved their property from the davouring flames.

The Scientific American, of August 14th. 1852, says: "In our humble judgment Barker's Double acting pump is one of the best improvements which has been made in a great many years, and, in saying this, we express the opinion of many who have used the pump and are now using it. The pump was patented last February, and the claims were broad strong and reliable."
