NOTICE.

I HEREBY request all persons employed as my agents, to keep the Public Roads in order; to go over their sections of the road, as early as practicable after this date, so as to be done, if possible, within the month of May.

I wish no bridge less than sixteen feet and prefer them twenty feet wide—five sleepers to be put under every bridge, of locust, white-oak cedar, or chesnut, of a large size—flooring of red oak, spiked down with six inch spikes.—Any small drains, or ditches, running across the road, ought to have trunks made of oak plank well spiked togeth r; bridged with five pieces of oak plank dovetailed in the upper edge of each side plank and then top boards spiked on. Where there is a rush of water after heavy rains the trunks will need a bottom plank, but in ordinary drains three planks will do, (with the bridging of top as mentioned,) wide end lower so as to allow free passage of the water. Roads must all be widened to the legal width of thirty feet, clear of ditches, where it can be done. Quaker Neck road needs mending from the lower end up for some distance, large trees to be removed; road from Swan Creek up to Eagle Town hill; new road from St Pauls' Church to Battle Shell Hill can be done out of the regular levy, by the supervisor for that portion of the road, and ought to be done speedily. The limbs of trees, stumps, and other obstructions must be removed, and persons putting fences out on the road, are to be duly notified, and if they refuse to take them in, they are to be presented to the Grand Jury at the next term of our Circuit Court. Any lumber for public roads can be had at the Poplar Neck Saw Mill and charged to the Supervisor ordering it. As they are cutting oak trees exclusively now at Poplar Neck for bark, all persons wanting oak lumber will please order it at once.

All Bills for work, lumber, &c., must be handed in to me on or before first of December next, so that I can pass my final account with the County Commissioners in January.

Supervisor 1st Election District.
