EDITORS AND PUBLISHERS.

POLITICAL POINTERS.

The unanimous and hearty indorsement of ex-President Grover Cleveland's tariff-reform policy by recent Democratic State conventions in Illinois, Maine, Vermont and Alabama may be regarded as indicating the drift of political preference. In each state the mention of the name of Mr. Cleveland elicited enthusiastic applause, and the resolutions recognized him as the leader of the national Democracy. In Illinois the delegates to the State convention were polled as to the choice of candidates for President and vice-President for the Democratic party in 1892, and expressions of choice were obtained from about 650 of the 800 delegates. For President, Mr. Cleveland was the choice of 572; Palmer, 67; Hill, 2; Abbett, 2; Whitney, 2. For vice-President, ex-Gov. Gray, of Indiana, 381; Palmer, 112; Morrison, 76, and Gen. Black, 30. It is safe to say that the preference for Mr. Cleveland was quite as decided in Maine, Vermont and Alabama. The *Brooklyn Eagle*, which is a Democratic paper, with occasional anti-Cleveland tendencies, declares that "unmistakable significance attaches to the action of these widely separated State conventions. Their proceedings point unerringly to the continued leadership in the national Democracy of Grover Cleveland. His policy holds the minds and hearts of Democrats everywhere." Concluding, the *Eagle* says: "That Mr. Cleveland will be renominated does not necessarily follow. That, however, the indications favor his renewed candidacy for the presidency can no more be doubted than that he is recognized by thoughtful Republicans as their most formidable adversary. His star, as matters stand, is clearly in the ascendant. Time may bring a change. Of that change there is now no visible sign."

CONGRESSIONAL POLITICS.

The present Maryland representation in Congress consists of three Republicans and three Democrats, but the Democrats will gain two districts this fall, and this will change the representation in the next Congress to five Democrats and one Republican. The changes in the lines of the districts make the Third surely Democratic and the nominee will be ex-Congressman Raynor, who was defeated by Mr. Stockbridge. Mr. Raynor is one of the most brilliant young men ever sent to Congress from this State and his worth was quickly recognized by the party leaders in Congress. It is a well-known fact that Barnie Compton was elected over the Hon. Sid. Mudd but was counted out by the Republican majority. He is the most popular Democrat in the Fifth district and had the Republicans not colonized the district with negroes and prevented a fair election he would have had such a big majority that even the Hon. Sid. would not have had the audacity to contest. It is safe to say that the Republicans cannot carry but one district, which is now represented by Congressman McComas, and it is said there is considerable opposition to him in his district by ambitious Republicans. He is undoubtedly the strongest Republican in the district and if the Republicans get into a wrangle and he is defeated in the nominating convention, even this district may be carried by the Democrats. There are several candidates in the (First) district to succeed the Hon. Charles H. Gibson. It is understood that Mr. Gibson will be strongly supported for renomination. Col. Henry Page, of Somerset, Hon. John B. Brown, of Queen Anne's, W. Scott Roberts, of the same county, ex-Gov. Lloyd of Dorchester and Governor Jackson of Wicomico are said to be aspirants to Congressional honors. All of them cannot be satisfied, so we hope the best man will win, reminding our brethern of the press that Scott Roberts is one of our fraternity, a stiring Democrat and the equal of any man mentioned in intelligence and all that goes to make up a good candidate for Congress.—*Messenger.*

THE PENALTY ON WHEAT AND OATS.

It takes 50,000 tons of twine a year to bind the wheat and oats crop of the country. It is worth at manufacturers' price 13 cents a pound, or $260 per ton of 2000 pounds. The value of the 50,000 tons, at the manufacturers' price, therefore, is $13,000,000—and this is what the wheat and oats crop of the country pays every year for the twine used in harvesting it.

The protective duty on this twine is 40 per cent., and on the manilla it is made of 20 per cent.—so that it will be strictly within limits to say that one-half the cost of this binding twine is the real value of the article, and the other half is protection—or, to put the matter in a different shape, that the wheat and oats farmers of the United States are made to pay a penalty of $6,500,000 a year for the crime of raising those crops. Estimating the portion of the wheat yield that is bound with twine at 300,000,000 bushels, and the oats yield at 5,000,000 bushels, the cost per bushel is 8 mills. This looks like a thing too insignificant to be talked about, but it helps to tell on a farmer when he gets only 60 cents for his wheat and 12 cents for his oats. And the curious part of the business is that the government which extorts this tax from him has no earthly use for it, since it has more money than it knows what to do with. It wrings the tax from him and hands it over to the twine manufacturer and the hemp raiser to "protect" them in their business. If a farmer raises 1000 bushels of wheat and oats, the penalty is $7. If the farmers of a grain-growing country in Illinois or Kansas raise 1,000,000 bushels, the penalty is $7000. The wheat crop of the State of Illinois in 1888 was 34,000,000 bushels and the oats crop 137,000,000 bushels—total, 171,000,000 bushels; and the cost of the twine used in binding it was $2,394,000—one-half of which, or $1,197,000, was "protection." In other words, the government of the United States forced the Illinois farmers to pay a penalty of $1,197,000 for daring to cultivate wheat and oats, and handed the money over to the favorite persons engaged in the trustworthy business of making twine—and this is the policy which the Republican Senators and Representatives in Congress from Illinois favor and support as a means of "protecting American labor" and "developing American industries."—*St. Louis Republic.*

About forty white and colored strawberry-pickers employed on the farm of Mr. S. E. Mason, near Snow Hill, had a hand-to-hand fight last week, during which clubs and fence rails were used with effect.

The house situated on the farm of A. R. Weedon, Esq., near Hall's Cross Road's was struck by lightning during the prevalence of the storm of last Friday. The house is occupied by David N. Smith, Jr., and Mr. Weedon, together with his son John and Mr. Owen Voshell were in the sitting room at the time. It is supposed that the bolt entered the chimney, passing down and across the room and found egress through the eastern wall of the building. All were shocked considerable, Mr. Voshell sustaining the worst injuries and it was fully twenty minutes before he regained consciousness. He was badly burned about the arms and shoulders and has not yet fully recovered from the shock. The entire family of Mr. Smith, together with Mr. Weedon and his son, were all rendered unconscious and the escape from instant death was remarkable. The bolt, after passing through the side of the house, struck a chicken standing in the yard and killed it instantly. The building was pretty badly torn up, and the damages are estimated at $300.—*Centreville Observer.*

How's This?

We offer One Hundred Dollars reward for any case of catarrh that cannot be cured by taking Hall's Catarrh Cure.

F. J. CHENEY & CO., props, Toledo, O.

We, the undersigned, have known F. J. Cheney, for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by the firm.

West & Traux, Wholesale Druggists, Toledo, O.
Walding, Kinnan & Marvin, Wholesale Druggist, Toledo, O.

Hall's Catarrh Cure is taken internally, acting upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75 c., per bottle. Sold by all druggists.

Crisfield is to have a prohibition church, and $600 is already subscribed. The preacher in charge will preach in favor of the prohibition party from the pulpit, advocate the party on the stump, manage prohibition conventions and primary meetings, and admit none to church membership except those who truly repent of affiliating with the other parties in the past, and promise to henceforth and forever vote the prohibition ticket.—*Free Press.*

A Scrap of Paper Saves Her Life.

It was just an ordinary scrap of wrapping paper, but it saved her life. She was in the last stages of consumption, told by physicians that she was incurable and could live only a short time; she weighed less than seventy pounds. On a piece of wrapping paper she read of Dr. King's New Discovery, and got a sample bottle; it helped her, she bought a large bottle, it helped her more, she bought another and grew better fast, she continued its use and is now strong, healthy, rosy, plump, weighing 140 pounds. For fuller particulars send stamp to W. H. Cole, Druggist, Fort Smith. Trial bottles of this wonderful Discovery Free at Colin F. Stam's Drugstore.

COUNTY COMMISSIONERS.
T. WATERS RUSSELL Clerk. Dec. 5—tf.

OFFICE OF THE

Local Board of Health.

June 2, 1890.

The season has come when it is essential that we should give the greatest care and attention to our sanitary surroundings, our premises and persons being more likely to become the source of disease and danger than when the weather is cooler and the changes less appreciable. Stable yards, hog pens, drains and privy vaults should be as far moved from the dwelling as possible. Places of this sort should be kept well cleaned, and filled in with dry earth and disinfectants, bearing in mind that all deodorizers are not necessarily disinfectants.

Cellars should be thoroughly cleaned and whitewashed, the floor sprinkled with lime; fresh air and sunlight, when possible should be admitted. The water supply (especially of the farm) should be looked after; wells and springs cleaned, and in cases where one source supplies both the family and the stock, care should be taken that no drains, surface or otherwise from the pound or closet leads toward the well.

For the purpose of disinfection such as mentioned above, may be used either of the following: For privies and human dejectas, chloride lime 4 per cent.; solution bi-chloride of mercury 1 to 500 (poison).

For deordorization and disinfections of masses of human and animal matter, powdered chloride lime. For clothing, bedding, etc., boiling for 30 minutes or immersion in solution of bi-chloride of mercury, 1 to 2000 (poison).

When clothing and bedding have been used in contagious diseases, burning is safest.

Carbolic acid diluted 1 to 30 is safe and effective. When necessary to use a deordorizing disinfectant in large quantities, chloride lime one lb. to a gallon and a half of water to which may be added a teacup of vinegar.

W. FRANK HINES, M. D.,
j5-3t. SECRETARY.

PUBLIC SALE.

BY virtue of authority from the Orphans' Court for Kent county, I will offer at public auction, on

SATURDAY, EVENING, JUNE 21, '90,

—THE—

STORE GOODS

of the late Benjamin Redmile, at Locust Grove, commencing at 7 o'clock.

TERMS OF SALE CASH.

RACHAEL REDMILE,
j12-2t. d. b. n. admin'x of Benjamin Redmile.

TREASURY DEPARTMENT.

Office of Comptroller of the Currency.

WASHINGTON, May 31st, 1890.

WHEREAS, by satisfactory evidence presented to the undersigned, it has been made to appear that "THE SECOND NATIONAL BANK OF CHESTERTOWN," in the town of Chestertown, in the county of Kent, and State of Maryland, has complied with all the provisions of the statutes of the United States, required to be complied with before an association shall be authorized to commence the business of Banking;

Now therefore I, Edward S. Lacey, Comptroller of the Currency, do hereby certify that "THE SECOND NATIONAL BANK OF CHESTERTOWN," in the town of Chestertown, in the county of Kent, and State of Maryland, is authorized to commence the business of Banking as provided in section fifty-one hundred and sixty-nine of the Revised Statutes of the United States.

In testimony whereof witness my hand and seal of office this 31st day of May, 1890.

{SEAL} **E. S. LACEY,**
Comptroller of the Currency.
June 5, 1890-9.

STANDARD KEEPER'S NOTICE.

THE undersigned, having been appointed STANDARD KEEPER for KENT COUNTY, Maryland, hereby gives notice

J. D. BACCHUS.

PRIDE OF ENGLAND,
IMPORTED
Cleveland Bay Stallion

REGISTERED NO. 161.

is of a beautiful Cleveland Bay color, stands 16 hands 1½ inches, and will weigh thirteen hundred pounds in condition. He is stylish, fine action and perfectly quiet. In the combined qualities of action, beauty and endurence, he is acknowledged to stand unequaled as a stock horse for farm and carriage purposes. Has only served a few mares, but has proved sure with them. He comes down a long line of the best producers.

The American Farmers' Stock Book, in speaking of the most desirable strains of horses which have been the result of careful and scientific breeding, in coming to the Cleveland Bays, says: "We come next to a class of horses always held in the highest esteem for their many valuable qualities. It is a horse that is now bred to a degree of perfection that leaves little to be desired in all that goes to constitute size, style and ability to perform any labor that may be required, except the heaviest drudgery. The Cleveland Bays are good carriage horses, good and stout wagon or plow horses, and they match together about as easily as Devon cattle, combining as they do, plenty of staunch thorough blood with excellent size and constitutional vigor. Unfortunately they are rare in the United States, but since their introduction into the West, they have been steadily growing into favor. They are remarkable for their pure bay color, dashed only at the fetlocks and in the forehead with white. We have good authority for our admiration of this splendid animal. Canada has of late years become celebrated for finely-bred and finely-matched carriage horses, which is due to the sagacity of some Canadian breeders, in selecting Cleveland Bay Stallions for sires."

PEDIGREE:

Sire, Mark T. by Moonstone, by McQueen's Rattler, by Horn Pipe, by Fox Hunter. Dam by McQueen's Rattler, second dam by Horn Pipe, third dam by Fox Hunter, fourth dam a superior coach mare.

TERMS:

Fifteen Dollars for the season, to be settled during season. Liberal terms made with parties breeding two or more mares. He will make the Spring and Fall seasons in Kent county, commencing Monday next March 31, 1890.

JAMES A. RUSSELL,
m27-5m. MANAGER.

TOMATO GROWERS!

TRADE MARK

Read This Carefully:

We have been manufacturing for years a SPECIAL TOMATO MANURE that is particularly adapted to the growth of that crop. It has been used year after year by the most prominent growers and canners in the country, as well as by the largest and most successful truckers in New Jersey. Materials being considerably off this spring, we are prepared to sell you lower this season than ever before. Please, therefore, write or see us concerning before making your purchases.

MR. WM. R. ALLABAND, of Wyoming, Del., says:
I used your Fertilizer on Tomatoes by the side of Green Bone Phosphate and Sun Guano. The Green Bone was cracked so high I put it next to the road to show off big, and the Sun Guano next, and the last, Hubbard's, away back, as its merits were kept quiet; but when visitors came to see my patch of Tomatoes I always pointed out the ground on which all three kinds were, and Hubbard's got the credit of being far superior to the others. When picking time came it was all in all. I have used it on other crops with the same results, and believe it to be the best Phosphate in the market.

MR. HERMON PYLE, of Harford, Md., says:
He used 400 lbs. per acre of Hubbard's alongside of other standard brands on his Tomatoes, and that there was a perceptable difference, in favor of ours. The plants kept greener, bore prettier and consequently more fruit, and that is why he used it again.

MR. PHIL PARKER, Sweedsboro', N.J., says:
He used ours alongside of Mapes, that cost $44 per ton, and that ours was equal in every respect.

MR. J. B. HANWAY, of Joppa, Harford, Md.,
Used the first year 8 tons; next, 24 tons; next, 55 tons; and the next he and his brother used and sold together 98 tons, and it not only gave satisfaction last season, but wherever used.

MR. EDW. PLUMMER, near Worton, says:
He put his Young Peach Orchard in Tomatoes; used our goods; sold to Lynch's cannery in 1888, and they netted him $47 per acre.

MR. JOHN F. COPPER, near Chestertown,
Has been using it for years with satisfaction.

MR. JAS. R. MASSEY, of Darlington, Harford, Md., says:
He grew for the canners. Used our goods alongside of Dis. Animal Bone and Oriole Phos. and that his product netted him $14 more per acre.

MR. J. W. KNICHT, of Webster, Harford county, Md.,
Used our goods alongside of high grade. The result was the Sugar Corn was better and larger cared; Tomatoes fuller and smoother and the vines kept green till the frostkilled them.

OUR CORN FERTILIZER.

MR. ALLEN WALLACE, of Sweedsboro', N. J., says:
I could tell to the very row where I used your Fertilizer on my Corn, and when I came to mow my grass where the goods had been used, there was such a difference in the crop that some of my friends asked me why I mowed part of my field and let the other stand, when the truth of the matter was your Phosphate made the grass five or six inches higher. It was more marked from the fact that the Corn rows ran diagonally across the field, and I could see the difference in the second mowing. I believe it to be grand, good stuff, and that is why I continue to use it.

MESSRS. ANDREW HALL & SON, of Harford county, say:
The 15 tons used on their Corn did as well as any ever used, and whatever they use this year, will be our goods; think it will be 20 or 25 tons.

GEORGE W. BAKER'S SONS, Wm. B. and J. B., say:
That it has compared favorably with anything they used.

WE COULD GIVE THE NAMES
Of hundreds who have used our goods on their various crops, and should you want to plant Potatoes, Cabbage, Onions or anything in the Vegetable line, write for one of our circulars.

T. R. HUBBARD & SON,
MAMUFACTURERS, CHESTERTOWN, MD.
