DEMOCRATIC CONVENTION!

WILILAM J. BRYAN THE NOMINEE

Denver has "made good" this week. Everything that man could do was done for the delegates attending the Democratic Convention. Even snow was hauled from the mountains and dumped in the Convention hall so that the delegates could play snow balling!

The name of William Jennings Bryan aroused unprecedented enthusiasm and for 87 minutes his name was cheered.

THERE are all sorts of queer "kicks" filed now and then. Only a day or two ago we heard complaints that the street sprinklers did nothing save raise a heavy dust as they passed along.

WHILE Capt. Andrew W. Woodall, of Georgetown, was playing in snow at Denver Tuesday his folks at home were sweltering under a heat of 94°! Who says the men don't have a better time than women?

THE United Box and Card Board Co., and the American Strawboard Company have both been placed in the hands of receivers. A notice to this effect has been posted on the mill at Chestertown. This mill has been closed for three months because of lack of orders. The receivers will start the mill just as soon as there is any demand for its product. In another column will be found a telegram which would indicate that this mill might start next month.

Chester Cemetery.—The managers of Chester cemetery, in reply to the criticism in NEWS last week, say they are as anxious as the most careful lot holder that the cemetery be kept in a neat and pretty condition. There are about 490 lots in the cemetery and of these only about 260 pay to have the grass and weeds cut on them. This gives the company only about $287 to pay for keeping the whole cemetery in order. If every lot holder would pay their $1.00 for lot care the company would be in a much better condition to keep the cemetery in good order. The Cemetery company are doing all in their power to please the lot holders and are anxious that every lot holder should pay their share for the care of the city of the dead.

The shame for the unsightly condition of the cemeterv is upon the many lot holders who do not pay anything and refuse or neglect to care for their lots themselves. Many lots are utterly neglected by their owners, and their wretched condition reflects upon all the neighboring lots. Who are these neglectful owners? Would it not be well for the cemetery company to publish annually the names of all derelect lot holders?

It is certainly a great wrong to the community to allow such a sacred and otherwise beautiful spot to be marred by neglect. The noble benefactor—the late Senator George Vickers—who so freely and generously gave the original grounds for a cemetery would not have believed that his benefaction could ever have been so abused. Let the matter be improved at once. If lot owners will not pay for the care of their lots or do the work themselves then the managers should revoke the owners' rights and vacate all such lots which are so disgracefully and persistently neglected.

Land $200 Per Acre.—Mr. E. A. Corey, of Mullica Hill, N. J., is in Kent. He is a former Kent countian and will remove to Kent and operate the fine Corey farm near Melitota. Mr. Corey has been living in New Jersey for seven years and says land in the neighborhood of Mullica Hill sells for as much as $200 per acre. It is a great white potato country, the farmers raising as much as 150 bushels per acre. But they use a $35 grade of fertilizer and plenty of manure.

FARMING NOTES.

Interesting Items Concerning Crops—The Drought Becoming Serious—Pastures Drying Up—Inspecting Trees.

It has been *thirty days* since Kent county was visited by rain and the need of a good soaking rain is sorely felt. Corn is about to tassel and hangs drooping under the blaze of the sun while the blades near the ground are turning yellow. Young clover is out of sight. Mr. Harry Nichols says he planted $80 worth of clover on one field and he could put all of it if cut in his hat. The pasture fields are so dry that a spark set fire to Mr. George Hendrickson's. The blaze was discovered and the men soon tramped it out. Mr. Daniel McKee says he remembers the year between 1865 and 1870 when there was no pasture because of drougth and when the cattle ate all the crop of straw before corn was cut off!

It is a singular experience that farmers are getting more wheat from corn ground than from fallow.

Wm. Bonwill got an average of 23 bushels to the acre.

R. G. Nicholson got an average of 24 bushels. He threshed 26 bushels to the acre off one field.

One of the best yields of wheat this year was obtained by Mr. W. M. Clendaniel, near Kennedyville. He threshed an average of 26½ bushels per acre from his corn and 19½ from fallow ground an average of 23 from a large acreage. On Monday afternoon's run he threshed out 900 bushels.

Mrs. J. L. Beck, near Tolchester, got 16 bushels per acre.

Mr. W. B. Plummer obtained 21½ bus. from fallow and 16½ from corn ground.

A. S. Turner, of Worton, had the first new wheat in Philadelphia market this year.

The white potato crop of the Eastern Shore of Maryland and Virginia is quite prolific this year. They are being shipped in large quantities and are bringing $2.50 to $3.25 a barrel.

Percy V. Hendrickson on W. U. Lusby's farm got 22½ bushels per acre off fallow and 16 off corn ground.

J. Thomas Blackiston on F. G. Usilton's place averaged 15 bushels per acre.

Wm. T. Nicholson on "Flatland" averaged 15 bushels per acre.

James Donahoe on the C. H. B. Massey farm got 30 bushels per acre on fallow.

The average yield about Masseys is from 19 to 21 bushels per acre.

Mr. Walter S. Trew got 620 bushels off 22 acres and he estimates that he lost one-third by scab. It took 4½ pounds of twine per acre to bind this field of wheat.

Mr. Jos. Trew got an average of 17 bushels.

Mr. Thos. Bryan, on J. D. Urie's Norris farm got 18 bushels per acre off corn ground and 24 bushels per acre off fallow.

There are over 25,000 ducks, big and little, large and small, at the present time on Oxford duck farm, which is one of the largest poultry farms in the State of Pennsylvania. From seven to ten barrels of ducks are shipped every week, it requiring the services of seven pickers, who are constantly busy to fill orders. Three tons of feed are consumed daily by the flocks.

Officers of the State Horticultural Department have sent out local inspectors appointed in the various counties to inspect orchards for San Jose scale and peach yellows. These men, 27 in all, were required to take a course at the Maryland Agricultural College last winter to better fit them for the work of indentification of the various injurious insects and plant diseases and to give up-to-date information to the growers for their control. Messrs. W. Irving Walker and C. C. Brown are inspectors for this section.

Georgia Elberta peaches have been selling in Baltimore this week at $1.25 per crate of six small baskets. Kent fruit has been bringing from 35 to 50 cents per basket. It would be a treat to Kent fruit growers to see how neatly the Georgia farmers pack their peaches.

BANK DIVIDENDS.

The annual meeting of directors of the Kent County Savings Bank was held Tuesday at which the following Board was elected: John K. Aldridge, M. A. Toulson, John D. Urie, James H. Baker, Fred. G. Usilton, J. D. Bacchus, Charles S. Smith, James A. Casey, Lewin W. Wickes, J. Edward Hurlock, G. Irvin Barwick. A semi-annual dividend of four per cent. was declared and over $2300 added to undivided profits. This bank has paid in interest to its depositors during the past 15 years nearly $90,000. Previous to its establishment the public were not paid any interest by the banks. At present all banks in this section pay 3 per cent on interest accounts.

The Chestertown Bank of Maryland declared a semi-annual dividend of 3 per cent., gave the officers a substantial increase in salaries and carried over $1800 to undivided profits.

The Board of Directors of the Second National Bank at their meeting last Wednesday declared a dividend of 3% ($1500.00) and carried $5000.00 to surplus account. This bank now has a surplus of $40,000 and Undivided profits amounting to $4900.
