Means Transportation Economy

No business man will benefit by spending money unless a definite purpose is accomplished.

Transportation facilities will make or mar any business. Therefore your haulage units should be the best to effect a definite purpose—economy.

Money spent for FEDERAL transportation will effect economies.

FEDERALS will accomplish a definite purpose.

Let us show you that money invested in a FEDERAL will benefit your business.

All Towson Shares Our Success

Not only does our plant afford pleasant and healthful employment for hundreds of Towsonites, but everyone in Towson is benefited by the additional money that is brought to Towson.

This money comes from all over the United States, and from many foreign countries as well. A considerable portion of it is spent in Towson, contributing largely to the general prosperity.

This is money which is brought into Towson from outside, not merely the circulation of money that is already here.

MATERIALS OUR SECOND LARGEST EXPENSE

NEXT TO THE MONEY paid employees, the cost of materials is the most important factor of expense in operating any telephone system. This holds good everywhere, and it is quite true of our company.

PUBLIC REGULATION FIXES the price we may charge for our service, but it does not keep the price of materials down. We must pay current market prices for the materials we require to maintain our plant and equipment. Since 1914 the average price of

MATERIAL REQUIRED TO FURNISH TELEPHONE SERVICE HAS INCREASED 90 PER CENT.

BUT IN SPITE OF the burdens of rising wages and increased cost of materials, our whole effort has been to maintain our equipment at Bell System standards and to furnish good service.

WE CANNOT REASONABLY be expected to continue supplying service without adequate revenues; and therefore we are now asking the Public Service Commission for increased rates sufficient to pay our expenses and earn a fair return.
