A. BARKER'S

DOUBLE ACTING

FORCE AND LIFT PUMP

IS acknowledged to be the most simple in construction, efficient in operation, less liable to get out of order, and more durable than any pump yet invented.

The World's Fair, London, gave Mr. Barker the complimentary medal and the Pennsylvania State fair, on two occasions, awarded the pump the first premium.

In cases of fire, the Barker Fire Engine Pump has proved itself invaluable On several occasions persons, by having this pump on their premises, have saved their property from the devouring flames.

The Scientific American, of August 14th. 1852, says: "In our humble judgment Barker's Double acting pump is one of the best improvements which has been made in a great many years and, in saying this, we express the opinion many who have used the pump and are now using it. The pump was patented last February and the claims were broad strong and reliable.'

References to the following gentlemen: Samue Baker, Richard S. Thomas, John McDaniel.

Positively the Last Notice.

BECAUSE so few of the debtors of Dr. T. H. Whaland have paid any attention to the frequent solicitations heretofore given, to call at the office of the subscriber and settle their accounts, either with money or notes—he is compelled to say, positively for the last time, that all accounts for Professional Services, standing for more than a year, and unsettled on the 1st day of December next, will be put in a legal train for collection. R. HYNSON, Agt.

sept 12, 1857. for Dr. T. H. Whaland
