FAIRFIELD'S
Milk Producer and Blood Tonic

IMPORTANT TO FARMERS

Manufacture your own stock foods as you need them. No trouble, it saves expense by mixing a small quantity of Fairfield's Blood Tonics with the animals' regular ration. A separate tonic compounded to meet the peculiar requirements of each kind of animal, put up in concentrated form gives greatest results at less cost than the old style and obsolete method of putting up cure-all stock preparations.

MR. CHARLES S. SMITH writes: "It gives me pleasure to inform you that I am now using your Egg Producer and am thoroughly satisfied with the results. I find that it is a good investment and heartily recommend it."

MR. WILBUR ELIASON tells us that his hogs would always become infected with cholera whenever it would appear in the neighborhood. Last fall cholera was on all sides of his farm and he did not have one hog taken sick while in former years he would lose all. He attributes this great fortune to the regular feeding of FAIRFIELD'S BLOOD TONIC FOR HOGS ONLY.

MR. C. C. BROWN, of Pomona, says that he tried for fourteen years to raise ducks, but they always died at the "feathering age." For the past two years he has used FAIRFIELD'S TONIC FOR POULTRY ONLY and raised every duck after he had started feeding this wonderful preparation.

MR. D B McMENAMIN, who has tested the merits of FAIRFIELD'S BLOOD TONIC FOR HORSES ONLY says beyond a doubt it is the best preparation of the kind he has ever used. There are scores of others in this county that endorse these meritorious preparations. They are compounded scientifically to meet the peculiar requirements of each animal. You do not run the slightest risk in purchasing these Tonics for if they do not do all that is claimed for them we cheerfully refund your money.

Aims Of The Granges.

For years the farmers of Kent county have felt the growing necessity for some sort of a union, in which they might fight the adversities that threaten their calling, and with this necessity has come an equally strong demand for something of this very character until the consequential result has been the organization of a chain of Granges throughout the confines of the county, and embodied in these representative gatherings, are the aims, ambitions and public spiritedness of the farmers of each district.

The Granges which have been organized in Kent county may be said to have a three fold object in view. That of Educational, Social and Commercial. The educational view treats of what the farmers may learn about agriculture and the economic modes and methods for tilling the soil and realizing the best advantages of their labors.

The social side is the gathering of the people of the county in these quarterly meetings to become acquainted and eventually to establish friendly and business relations among themselves, and the commercial benefits are accrued by virtue of the fact that in union there is always strength, and the farmers belonging to organizations of this sort are always in position to derive benefits, such as cheaper freight rates, lower priced raw materials, on account of their arriving in car load lots or more.

Thus, while these organizations may appear mere social functions to those not interested, the business benefits derived from them should not be allowed to escape any up-to-date or enterprising farmer within the county limits, and, by the patronage of it, in the end the people may hope for lasting and powerful organization such as will prove helpful to all.

$5,000 DAMAGES AWARDED.

One of the heaviest verdicts for damages ever recorded in the Circuit Court for Wicomico County was given Tuesday night about 10.30 o'clock when the jury in the case of John W. Landon vs. the Baltimore, Chesapeake & Atlantic Railway Company brought in a verdict of $5,000,00 for the plaintiff. Mr. Landon was passenger on one of the steamers of the company enroute from Baltimore to Ainney's Wharf, Va., and met his injuries by a heavy gang plank falling upon him, which he claimed, was due to negligence on the part of the Company. The injuries sustained by the plaintiff were a compound fracture one of his legs. Physicians summoned in the case testified that Mr. Landon's injuries are of pemanent character that will severely hamper him in his work throught life. It is said that the counsel for the Railway Company will ask for a new trial.

STILL THAT TARIFF.

One by one the concealed Africans are being smoked out of the tariff wood pile! It now appears that the new provision taxing stocking, is an 85 per cent, rate for the article that common folks wear, i. e. those costing 25 cents a pair; an odious increase of 20 per cent over the Dingley rate; but on stockings costing 50 cents a pair the rate imposed is only 65 per cent; while on the "real thing" in hoisery, to wit, the silken ones that clothe in lustrous sheen the shanks of the rich—why, for sooth, there is no increase at all! Times are a bit hard—so the millionaire must not have his silk hoisery bill increased—but the poor man—well let him do without socks—the government wants revenue.

Cut In Prices Of Coal.—The coal "barons" who have loaded up goodly supplies, by way of precaution against possible strikes by miners, which now seem unlikely, it is stated will cut prices 50 cents a ton on anthracite during April raising them 10 cents per month from May 1 to September 1. The April "cut" was begun several years ago to counteract the former September demand, which made it hard to fill orders.

To Give Up Preaching.—The Rev. George R. McCready, pastor of the Methodist Protestant Church, Milton, Del., has announced that he will not preach for a year on account of a throat affection. Rev. Mr. McCready is quite well and favorably known in Queen Annes county and is the owner of a farm on Kent Island.

"My three year old boy was badly constipated, had a high fever and was in an awful condition. I gave him two doses of Foley's Orino Laxative and the next morning the fever was gone and he was entirely well. Foley's Orino Laxative saved his life." A. Wolkush, Casimer, Wis. Sold by all druggists.
