LATEST WAR NEWS.

Received at 5 o'clock P. M. yesterday:

CHESTERTOWN TRANSCRIPT.—Situation remains the same. Officially admitted cruiser Mercedes destroyed and five sailors and twenty-nine marines killed. Vizcaya and Furor badly damaged. Alger will not say whether troops have sailed, but probably they will to-day.
FRANK W. HOPPER.

Another despatch was received by several gentlemen yesterday afternoon stating that Cervera had transferred guns from his boats and was preparing to destroy his fleet. Also that the Monadnock had been ordered to raise the American flag over the island of Hawaii. This is not official.

Despite fake telegrams and irresponsible reports of news of the war, it may with considerable certainty be stated that Manila is at the mercy of Admiral Dewey, who continues his successful blockade; and only the mines and torpedoes which strew the entrance to the harbor of Sandiago impede the destruction of Cervera's fleet. It is fair to presume that within the next ten days an aggressive campaign will be under way in Cuba, and land forces will be acting in conjunction with the navy.

SPAIN is now said to want peace. So does Uncle Samuel of United States, but it is a peace of Spain.

MAJOR NOBLE H. CREAGER, who has spent a portion of several summers in Kent, has been ordered to join General Fitz Lee at Jacksonville.

AGUINALDO, the rebel chief at Manila, may be unskilled in methods, but when results are considered he is an expert in trapping Spanish soldiers.

WAR PRICES struck Santiago de Cuba in earnest during May. Meat sold for $1.50 per pound, eggs at $1.50 per dozen, and milk at one dollar per quart.

ANOTHER "WAR REVENUE" speech and the Long-despised Senator Gorman will be a gold bug idol. His erstwhile detractors are already tempering the wind to the shorn lamb.

THE IMAGINATION goes a long way with Spanish officials. The blocking of the entrance to the harbor of Sandiago by Yankee daring was made a subject for congratulations to Admiral Cervera.

GOVERNOR LLOYD LOWNDES found December as pleasant as May. Some of the journalistic members of his household are pouring some hot-shot into the gubernatorial camp. The Baltimore *American* is even wasting valuable ammunition on this bird of royal plumage.

THE INSPIRING COURAGE of Lieutenant Hobson and his compatriots in sinking the collier Merrimac in the channel of the harbor of Santiago de Cuba, gave a new battle cry to the American soldier. Remember Hobson and the Merrimac should inspire even greater courage than to "Remember the Maine."

ALAS FOR HOPELESS DELAWARE! The federal grand jury on Tuesday returned indictments against United States Senator Richard R. Kenney. The indictment contains twenty-five counts charging "conspiracy" and "aiding and abetting to embezzle." The amount charged against Senator Kenney is $23,461.91. Six others are implicated.

SOME OF STATE SENATOR DODSON'S POLITICAL OPPONENTS in his own party in Talbot, have raised a point of order which may give the democrats a chance at a Talbot senatorship. Senator Dodson was elected in 1897 for four years and has now been appointed deputy collector of internal revenue. It is claimed that it is against the constitutional provision for the Talbot Senator to have so extensive a corner upon political glory and his senatorial scalp is being demanded.

TALBOT COUNTIANS are complaining bitterly at the inconvenience of the protracted jury service resulting from long terms of court consequent upon removed cases from other counties. The removed cases came up early and a large number of witnesses in local cases were kept in attendance upon court for several weeks. The Easton *Ledger* very justly says: "Of course this is an annoyance, but nothing is more important than the administration of justice with all its inconveniences and annoyances."

THE CONGRESSIONAL SITUATION will offer no complications because of a scarcity of candidates. Sheriff McNatt, though somewhat non communicative on political matters, stated that in the event of any scarcity Talbot held herself ready to supply the deficiency. It is not thought that either Col. Billey Stewart, or J. Frank Turner, Esq., would walk around the distinguished honor. Dr. Bob Price, of Queen Anne, is in the line of succession. Then there are other counties which could possibly find a stray candidate should necessity require.

WHILE AMERICANS have reason to hail with unqualified satisfaction the renewed feeling of friendliness of England, at no time during the war with Spain has the crisis reached a point to warrant even the suggestion of an alliance with England or any European power. That Spain has not been swept from the seas and remains a menace to the peace of the western hemisphere, is the simple result of America's unpreparedness for war rather than being due to any lack of national resources or far-reaching feeling of patriotism.

CHIEF JUDGE PEARCE, is reported as having looked "aghast" at the misinformation of a Talbot county witness last week. The fellow who so impressed the Chief Justice was a Tuckahoe oyster expert who swore that he knew Maryland oysters by their flavor, their freshness and having no crabs in them; knew the difference between crabs and lobsters, and was aware that some oysters had crabs in 'em and some lobsters in 'em; had eaten Patuxent oysters, but did not know whether the Patuxent river was in Maryland or Virginia; could distinguish by their taste oysters that grow on the Maryland side of the Potomac from those that grow on the Virginia side; had eaten Blue Points in Baltimore, but did not know where they were raised; he rather thought in the interior of Pennsylvania.

Mr. P. Ketcham, of Pike City, Cal. says: "During my brother's late sickness from sciatic rheumatism, Chamberlain's Pain Balm was the only remedy that gave him any relief." Many others have testified to the prompt relief from pain which this liniment affords. For sale by M. A. Toulson, druggist.

THE CHILDREN'S FRESH AIR SOCIETY of Baltimore is again appealing to the citizens of Maryland for a breath of fresh air for hundreds of suffering children. The homes of many poor children in narrow city streets are so small and unkempt, and the surroundings generally so unhealthful that thousands of little ones fade and wither like flowers beneath the breath of a blight. Could mothers and fathers fully realize what a two weeks outing amid the open, breezy surroundings of a Christian country home would mean to these little sufferers, many heretofore shut doors would be thrown open to bid them welcome. Parents, glorying in the rosy-cheeked children which make home the most sacred spot on earth, would be only too glad to send the blood coursing with renewed vigor through the veins of pent-up city sufferers. Then, too, the cost is so slight—only a few whiffs of pure country air. True, there is some trouble attached, but it would be a labor of love which would bring its own reward. Let us suppose, if we can, that the conditions were changed and that the bright, smiling faces which glorify our own homes were fading and becoming wan amid the squalor and poisoned breath of city streets, and this appeal of the Fresh Air Society will present itself in a different and truer light.

The aim of the Fresh Air Society is to get churches or religious societies connected with them, interested in securing homes for the children, and thus providing free entertainment to the little guests. Often last year the interest of whole communities was aroused in the work, and some towns and villages entertained two, three and four carloads of children. How much real joy was put in these little lives, no one can even estimate. It is the purpose of the society to continue their efforts along these lines, and it is hoped that in many more towns efforts may this year be made to provide entertainment for children in carload lots. The society pays every expense of placing the children in the hands of those willing to provide entertainment but does not pay board.

MR. URIE'S STRICTURES.

If States Attorney Urie's statement is correct, Kent has reached a condition of startling lawlessness. The States Attorney attended the annual county convention of the W. C. T. U. and when asked to explain why the speak-easy and illicit whiskey have continued to hang on with such persistency in the local option county of Kent, made the following startling answer:

"The most practical way to break up these vile places is to make a personal appeal to our judges for improved juries, for it is through the State's Attorney, constables and juries that the law is enforced. In many instances the jurymen and sheriff work together to save these violators, so that it is impossible to convict them. Witnesses are given notice and leave before the case comes to trial, etc."

These charges of necessity stand against many of the most highly respected citizens of Kent county, and against some officials against whose high moral character no breath of suspicion has ever been raised.

A PHYSICIAN'S VIEW OF IT.

The following communication from Thomas J. Boykin to the Baltimore *Sun*, so nearly voices a growing sentiment among the American people, that it is well worth the careful consideration of the entire people. So far from alleviating the horrors of suffering in Cuba, the conditions of suffering have only been accentuated and thousands of lives have been crushed out by the heavy hand of starvation an disease during our "peaceful blockade." If humanity demands that a fearful sacrifice be made at the expense of American homes, American mothers and fathers, and American patriotism as well, have a right to demand that the sacrifice be curtailed as much as possible instead of being made more blighting in its effects.

Here is the emphatic way in which Mr. Boykin puts it:

"I read with much interest this morning what Poultney Biglow says, copied from *Harper's Weekly*, about the management, or rather mismanagement, of our soldies now in the field under the first call for volunteers, in this unfortunate war. My information sustains him in all he says. I have only been surprised that other prominent journals have not taken it up before, and sincerely trust that this just criticism will be followed by many others, until the politicians and Washington managers learn what the taxpaying voters of the country think, feel and say about it. I also note with pleasure what you say, under the head of 'A Momentous Issue.' The alarming growth of 'imperialism' and a new desire to acquire expensive and remote territory, seems to me to be not only a 'new departure,' but a dangerous one.

"The great and vital question that mothers and fathers are most interested in now is what the writer in Harper's Weekly calls attention to—the treatment of our sons in the army. Inasmuch as the war was brought on in the 'interest of suffering humanity,' we never heard any other reason, then in our magnanimous effects to relieve the sufferings of the poor, down-trodden, hungry Cubans, is there any reason why we should transfer the 'suffering' to our poor soldiers? Is that a valid reason why we shall break the hearts of the intelligent and anxious mothers of these sons in the army? The policy now is, as I am informed, to crowd 600 to 1,200 men on a ship and push them off 7,000 miles to the Philippine Islands, subject to cyclones and storms incident to those waters this season of the year, and the dangerous reception they will contend with when they land on Spanish soil, in spite of the protection of our gunboats. The same will apply to Porto Rico and Cuba; while the distance will be less with Cuba, the danger of sickness and loss of precious lives will be greater, especially at this, the most dangerous season of the year. Altogether, in the opinion of all men who are not politicians, so far, besides being a war without a cause, under the present vacillating mismanagement, it is rapidly growing to be the most unpopular war that ever cursed any nation on earth, and those responsible for it will have a terrible reckoning at the next election."

CERVERA, in his prompt recognition of the exalted courage of Hobson and his men has given evidences of being possessed of a chivalrous and generous nature worthy of a better cause than that in which he fights. His act was that of a chivalrous gentleman.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure Deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

EASTERN SHORE POLITICS.

The rural newspaper editors have enjoyed a jaunt to historic St. Mary's this week, and incidentally held a meeting in Baltimore. The *Sun*, in referring to the editors' visit to the city, said:

"Some little time was spent by the newspaper men in chatting about the political outlook in their various sections. They are confident of electing their candidate for Congress in the first district next fall, and state that considerable interest in the fight is already being taken on the Eastern Shore. They also hope to be successful in the second district, although the battle there is expected to be a hard one. At present the advantage appears to be somewhat with the republicans because of the fact that 400 or 500 republican voters were added to the district by the recent rearrangement of ward lines in Baltimore city and the changing of congressional district boundaries. Apparently little hope is felt of democratic success in the fifth and sixth districts.

"Because of a belief that the democrats will win in the first district there will probably be plenty of candidates across the bay. Talks with the editors disclosed the fact that at least five counties are expected to present candidates. In Kent, Harrison W. Vickers, Wm. M. Slay and ex-Judge Joseph A. Wickes are being talked of. In Queen Anne, Dr. Robert M. Price has been announced and Philemon B. Hopper is spoken of. Ex-Comptroller J. Frank Turner will probably have the four votes of Talbot behind him. State Senator W F. Applegarth is making a fight, with Dorchester as a base, and Worcester is expected to present Lloyd Wilkinson, Ex-Gov. E. E. Jackson may be brought forward by Wicomico.

STATE SENATOR SMITH'S CHANCES.

It seems to be the belief that if State Senator John Walter Smith, of Worcester, will accept the nomination he can secure it without much opposition, as several of the other candidates, it is said, will not stand in his way. Senator Smith has, so far, declined to be considered a candidate, but is advocating the selection of Mr. Wilkinson. The opinion among the editors is that the fight will narrow to Mr. Wilkinson, the candidate to be presented by Queen Anne's. The four counties below the Choptank—Dorchester, Wicomico, Somerset and Worcester—by uniting can control the convention."

I have used many remedies without receiving much relief, and being recommended to try a bottle of Chamberlain's Cough Remedy, by a friend, who, knowing me to be a poor widow, gave it to me. I tried it, and with the most gratifying results. The first bottle relieved me very much and the second bottle has absolutely cured me. I have not had as good health for twenty years.
