A Sea Captain's Remedy for Cholera.

Mr. G. S. Peabody, master of the packet ship Isaac Wright, has written a letter, giving an account of the treatment of cholera cases which occurred on his vessel in January last, during a trip from Liverpool to New York. Capt. Peabody says that within forty-eight hours after sailing cholera appeared, and in ten days twenty-seven passengers had died of it, though they were treated "by the book." The Captain then applied a method of treatment that had been recommended by his predecessor in command, and did not lose another patient on that voyage or since. The remedy was this: A tablespoonful of salt and a tablespoonful of red pepper in a half pint of hot water.

The Captain says he was himself attacked by violent cholera, cramps, &c., but the medicine "carried him through." He adds: "The medicine acts quickly as an emetic, say in one or two minutes. It brings up a very offensive matter, which sticks like glue. It was given, among others, to an old woman of eighty-four years of age, who was on deck, though weak, of course, the very next day. I have known it to be successfully used on board their ships by at least a dozen shipmasters besides myself. Its use is quite general in Liverpool, where even some of the regular doctors find it to their advantage to resort to it. Provided with this simple recipe, I no longer consider the cholera an unmanageable disease."

Five Children Adrift on Lake Ontario.—*Two Drowned and one Perishes from Exposure.*—The Oswego Palladium says: The schooner Corsican, when some fifteen miles out, discovered a small scow or punt, in which were two boys and a girl. The boys were still alive, though in an extremely exhausted condition, and the girl was dead. The boys after being somewhat restored were enabled to give an account of themselves. Their names are John and James Welsh, and live with their parents, near Oakville.

On Wednesday morning five children, all of the same family—two boys aged 15 and 13 years, and three girls, aged respectively 11, 9, and 7 years—got into the scow at Oakville, and the wind took then out to sea. The further they got from the shore the rougher was the sea, and, to make matters worse, the boat leaked badly. By hard work the boys managed to keep her afloat and right side up until two or three o'clock on Wednesday afternoon, when she capsized and went clean over. The two youngest girls were drowned here. The other girl and boys clung to the boat and righted her.

The boys say the boat went over three times in the same manner during the day and they righted her each time. They saw three vessels pass near them, but had no means of making signals. When found, the girl sat in the bottom of the boat, her body reclining against a board used for a seat, and her hands clenched with the grip of death on the rowlock.

Susquehanna Bridge.—The Railroad bridge over the Susquehanna river at Havre-de-Grace is being rapidly pushed to completion. From the Harford shore two spans of the wood structure are nearly completed, while on the Cecil county side the work on three spans is in a forward condition. They are also engaged on the pivot or draw pier, which they hope soon to have completed.

This bridge, when finished, will be one of the finest structures in the country. It is being built of the very best material and by first-class workmen, and cannot fail to compare favorably with any other work of the kind in America.—*Belair Intel.*

Fremont Buys a Railroad.—The railroad running from St. Louis to Springfield was sold on the 13th instant to John C. Fremont for $1,300,000. Seventy-seven miles of this road have already been completed. Its owners claim it will be worth $12,000,000 when completed. Four or five millions will be necessary to finish it. It passes through the heart of the agricultural and mineral lands of the State of Missouri, and the celebrated Granby lead mines in Newton county are a part of its "realty." This line is intended to be a part of the route provided for in the Southern Pacific Railroad in the Senate bill reported by Senator Brown of Missouri.—Fremont obligates himself to finish it within four years from the date of purchase.

New Five-Cent Coin.—The act which has passed both Houses of Congress to authorize the coinage of five-cent pieces provides that the new five-cent piece shall be composed of copper and nickel, not exceeding twenty-five per cent of nickel.—This coin is to be a legal tender to the amount of one dollar, and redeemed when presented in sums of not less than one hundred dollars. It is proposed to make this coin exactly 5 grammes or 77 16-100 grains in weight. Three of the coins will weigh one-half of an ounce, and will be convenient in the pocket for a postage weight. The law also prohibits the issue of fractional notes less than ten cents after the passage of this act. The color and appearance of this coin will be similar to the three cent coin authorized by the act of March 3, 1865.

Dorchester County Railroad.—At the election of officers for the Dorchester and Delaware Railroad, May 6, W. W. Byrn was elected President; T. W. Anderson, Treas'r; D. M. Henry, E. W. Lecompte, J. A. Stewart, Jas. Gore, R. F. Thompson, J. Webster, Geo. Winthrop, Directors. This is a very able and efficient organization, and under its management we are confident the road will be built as rapidly as possible. We think there is now a certain prospect of this enterprise being carried out.—*Dorch. News.*

A bill has passed the House of Representatives to amend the organic acts of the Territories, which provides that within the Territories there shall be no denial of rights on account of race or color.

The President has signed the bill to protect civil and military officers from prosecution for any acts committed during the civil war in discharge of duty in obedience to orders.

U. S. INCOME TAX, &c.

NOTICE IS HEREBY GIVEN, that I am now ready to receive Income returns for 1865. The assessment must be closed on

The 20th day of June, 1866.

After that date I shall be compelled to assess from the best information I can obtain and add 25 per cent. to the amount of tax, from which there is no appeal. All persons of lawful age are required to make a list or return of their Gross Income, and articles liable to tax, without deductions. Farmers will be required to return the amount of grain and all other farm productions sold in 1865, whether raised in that year or previously. The amount unsold and consumed not to be returned. It is expected that every Farmer will prepare his list of sales before calling upon the Assistant Assessor, which must be delivered in person. Returns of Carriages, Plate, Pianos and Gold Watches, must accompany said lists.

All persons doing any business requiring a LICENSE must make application therefor, otherwise they are liable to indictment.

Monthly Returns.

All persons engaged in any business requiring returns to be made monthly, must hand them in by the tenth of each month for the previous month, otherwise the Assistant Assessor will be compelled to make a forced assessment and add the penalty. All manufacturers are required (without previous demand) to give notice to the Assistant Assessor before commencing, or if commenced, before continuing any manufacture, stating their place of business and kind of business, &c., and must make their returns promptly every month, stating the amount of new work and the amount of repairs separately.

☞All persons interested are requested to give the above notice their immediate attention, thereby avoiding the penalties prescribed by the law, and trouble in the future.

WM. H. LAMBERT,
Assistant Assessor for Kent county.
May 12, 1866—6t.

WE beg leave to call the attention of the Agricultural community to

ANDREW COE'S

Improved Phosphate of Lime,

prepared by Wilson, Eggleston & Co., Cincinnati. This Phosphate is carefully prepared from the best fertilizing material, and from the nature of its composition must be one of the best articles offered for sale.

We would respectfully ask all who use Phosphate to call and examine this article before purchasing elsewhere.

Also, PERUVIAN & MEXICAN GUANOS, GROUND BONE, Wilson's Ammoniated Superphosphate, with all other Guano and Phosphates. Always have on hand select FIELD SEEDS, &c.

SOLUBLE PACIFIC GUANO.

200 lbs. Soluble Pacific Guano contains 70 lbs. *animal matter,* yielding 7 to 8 lbs. *ammonia.*

Also 80 to 90 lbs. *earthy bone Phosphate of Lime,* 30 lbs. of which are *soluble Phosphate.*

It combines all the advantages of the *best brands* of Super Phosphate, with those of Peruvian Guano.

By reason of its greater *concentration,* we recommend 20 per ct. less by weight to be used per acre, than of any fertilizer costing the same per ton; and no more per acre than of those selling at 20 per ct. more per ton. Hence its *economy.*

This Guano weighs 65 lbs. per bushel, hence in applying it farmers must be governed by weight and not by bulk, for it is much lighter than the Super Phosphates. *Every cargo duly inspected.*

"FLOUR OF BONE."

WE will give a *money* guarantee of the *purity* of this article. It is pure *unsteamed, unburnt bone,* reduced to the *fineness of flour,* which adds 100 per cent. to its value. It is as *quick* and *active,* as acid *dissolved bone;* hence its value is vastly greater, because it contains neither acid nor water, which necessarily add weight, and reduce the quantity of valuable elements. We recommend 200 lbs. to be used in place of 300 lbs. Super Phosphate or dissolved bone.
