GALENA ITEMS.

Mrs. Mae Stradley and little son, Allen, removed to Chestertown on Friday, where they will reside with her sister, Mrs. Jas. Vansant. Mr. and Mrs. Baker and three children, of Philadelphia, have moved on the farm vacated by Mrs. Stradley.

Mr. Edward Morgan has accepted a position as clerk for Owens & Co., Betterton.

Rev. and Mrs. J. M. Mitchell, of Mt. Vernon, Md., who have been visiting friends in town returned home on Wednesday.

Mr. Price Roe and Miss Carrie Roe, of Massey, have been visiting their sister, Mrs. Andrew Woodall, returned home on Monday.

Mrs. Bottomly, of Millington, formerly Mrs. Verma Nickerson, is having her home in town improved and beautified. The workmen have had quite an experience selecting a suitable place for the new well and pump. The first two places selected being already the site of old wells.

Mr. and Mrs. Harry Redding, of Betterton, spent Saturday in town.

Dr. E. A Scott and daughter, Mrs. Jas. Davis, spent part of last week in Baltimore.

Miss Mary Caldwell, daughter of Mr. Samuel Caldwell, has been quite sick, but is better at this writing.

Miss Mary Scott, of Chester, Pa., is visiting her sister, Mrs. Jas. Davis.

The Base Ball Team, of Shrewsbury Academy, is planning to give an entertainment in the near future.

Galena Base Ball Team crossed bats with Cecilton on Saturday last. Who won? Galena did.

TO CONNECT EASTERN SHORE WITH BALTIMORE

Trolley Roads and Ferry—A Bill To Charter a $10,000,000 Corporation —Mayor Preston, of Baltimore, Is One of The Incorporators.

President Price, of the Senate, has a bill which he regards as one of very great importance in building up the Eastern Shore and in promoting the prosperity of Baltimore. The bill incorporates the Baltimore and Eastern Shore Railway and Ferry Company, with a capital of $10,000,000. One of the incorporators is Mayor Preston, who has been an advocate of the plan for some months.

The bill is designed to authorize a railroad from the intersection of Charles street and North avenue, in the city of Baltimore, to the shore of the bay, a ferry across the bay to Kent county and then a railroad from the landing to Chestertown and thence connecting the county seats of the various counties so as to bring all the principal places on the Eastern Shore in close communication with Baltimore. Any kind of power is authorized, but the purpose is to build an electric road. Ferryboats, powerboats, and barges and all kinds of vessels are authorized to connect the railroad with the Western Shore.

The width of the bay from the Baltimore county shore to the Kent county shore is not over eight miles, and Senator Price does not believe that such a short water haul could cut Baltimore city off from the trade of the Eastern Shore counties.

Here Are The Incorporators.

The incorporators of the company are James H. Preston, Joseph T. Nossel and John R. Bland, of Baltimore; Curtis E. Crane, of Kent; Harvey B. Cooper, of Caroline; Charles E. Harper, of Wicomico, and Edward W. McMaster, of Worcester. The company is authorized to build an electric road, with the consent of the Mayor and Council of Baltimore and of the County Commissioners, of Baltimore, Harford and Anne Arundel counties, from the intersection of North avenue and Charles street, or to make terms for the use of existing tracks along public highways of the counties named to the bay shore, and then by ferry to Kent county. Thence by a railroad to Chestertown, and thence to the various county seats. The ferryboats are to be large enough to transport the loaded cars. With the consent of the County Commissioners of the various counties, the public roads will be available for the right of way for the electric road.

The capital stock is to be $1,000,000, with authority to increase to $10,000,000, and with the consent of the Public Service Commission to borrow money on mortgage.

No Trolley Line On The Shore.

There is not an electric road on the Eastern Shore of Maryland, and yet the conditions for building are most favorable. Little grading would be required, and timber for crossties and bridges is abundant.

The promise of freight is liberal. The lower counties are largely engaged in the production of small fruit, and the demand for rapid and certain transportation is growing all the time. The fruit and trucking and melon business is extending to the northern counties, and unless Baltimore is to lose the trade utterly some better freighting and express facilities must be provided.

Where Baltimore Loses.

An example may be given to show the disadvantage under which Baltimore is laboring. In the spring about 700 barrels of fish are shipped daily from Ocean City. They are loaded on the train at 2.20 o'clock in the afternoon, and they are in the early morning market in Philadelphia the next morning. None of this trade goes to Baltimore, but much of it goes to Norfolk for distribution.

CASTORIA
For Infants and Children.
The Kind You Have Always Bought
Bears the Signature of Chas. H. Fletcher.

Last as long as the building, and never need repairs—never need any attention, except an occasional coat of paint. Just the thing for all kinds of country buildings. *Fire-proof—Handsome—Inexpensive.* Can be laid right over wood shingles without dirt or bother. (4)

Overland

$900 Buys You All You Need in an Automobile

THIS Overland (Model 59) at $900 is absolutely all any one would want in a car. Compare it with any $1250 car on the market, and you'll find but little difference. You know that most of the $1250 cars are of the 30-horsepower type. This $900 car has a 30-horsepower motor. Seats five people comfortably. It is big and roomy. Has a staunch pressed steel frame, selective transmission with F & S annular bearings—the best made. Has strength, power and speed—more than you will ever care to use. The body design and finish is simple, graceful and beautiful. Upholstery is of good leather, hand stuffed with fine hair. In every respect it is a thoroughly high grade machine.

¶ And it is a fact that no other maker in the business can build this car and sell it at this price without losing money. This is due to the enormous manufacturing facilities of the Overland Company—*the largest in the world.* The manufacturer who turns out but 5,000 cars *must* have greater production costs, for each car, than the Overland Company, who make over 20,000 cars.

¶ They have published a very interesting and simply written book which explains why the largest automobile factory in the world can give more for less money than the small factory. Stop in and get a copy. It will show you how to save money when you buy your car. This also explains in detail the remarkable value of this $900 touring car and illustrates with handsomely colored plates the complete 1912 line. Better come in at once.
