CRUMPTON, MD., March 7, 1902.

MR. W. C. ROLPH, DEAR SIR: The Self-Feeding Huber Separator with Blower, that I bought of you last year gave me perfect satisfaction. It threshes very rapidly and does the work in perfect order. The Huber Self-feeder, I think, is superior to hand feeding at all times. I like the way the Blower Fan is driven better than any I have ever seen. Wishing you success in the business this year, I am

Yours truly,
ALDAY CLEMENTS.

MILLINGTON, MD., Jan. 20, 1902.

THE HUBER MF'G. CO., HARRISBURG, PA.:

GENTLEMEN: The Huber rig we got from you last season is a beauty. The engine the most economical in fuel, powerful, on road and belt, and the easer to operate than any other engine we have ever seen.

The thresher will thresh faster, save more grain, than any other, while the self-feeder handled the heavy straw of last season faster and better than hand feeding.

We can truthfully and cheerfully say that the Huber is the finest rig ever sold on the Eastern Shore. Yours very truly, NICKERSON & WOOD.

BETTERTON ITEMS.

At the recent session of the Wilmington Annual Conference, Betterton church was made a separate charge, being taken from Still Pond circuit. Rev. F. Howard Jones, at present a student of the Dover Conference Academy was assigued to this charge, and preached his first sermon on Sunday morning last to a large congregation. His evening sermon was an especially strong one evincing care and thought in its preparation, and dwelling upon the evils attending the churches. Rev. Mr. Jones is a member of the present graduating class of the Dover Academy, is a young man of vim, an easy and fluent speaker, and we bespeak for him success in his new field of labor.

The hours for preaching services are 10.30 A. M. and 7 30 P. M; Sunday school 9.30 A. M. Sundays; Epworth, Wednesday evening, 7.30, Prayer meeting Friday evening, 7 30.

The ladies of the Epworth League will hold a Pink Tea this (Saturday) evening at 7 30 o'clock, at the residence of Mrs. Ida Owens, on Chesapeake avenue.

Mr. Scott Crownhart launched his pretty skiff, the "Lillie May," on Monday morning. This skiff is a model of beauty and skillful workmanship. Mr. Crownhart did the whole of the work, from the keel up, himself. It is about 23 feet long. He expects sometime in the fall to make a trip to New York in his skiff.

Shad are as yet not very plentiful, very small catches so far being reported, although for a week past the weather has been very unfavorable for fishing.

Mr. George Mann and wife, of Baltimore, have been guests of Mr. and Mrs. Jno. S. Owens, Chesapeake House.

Misses Nellie and Grace Dashiells, of Baltimore, have been visiting their sister, Mrs. Frank Young.

Miss Mabel Turner, of Texas, and Miss Chandlee, of Baltimore, have been on a visit to their uncle, Mr. Richard T. Turner.

We look upon the action of the county commissioners in refusing to pay over to the school board the remaining half of what *had been promised* them of two thousand dollars, as a grave mistake on their part. The dragging of the public schools into politics should be one of the last things on earth to take place. Our school system is second to none in the State, and now to close the schools one month earlier than usual simply because the school commissioners are refused an appropriation from the county which had been promised them, is an imposition upon the tax payers of the county. Have the innocent children to suffer because of the whims of a few politicians? Have the teacher's salaries to be lessened, (from a now below living point,) to meet the demands of the expenses of the county along channels which show far less results in the end? No, the schools should be allowed to run the usual time. And the salaries of the teachers are already too meager for the work required of them to be curtailed now forty or fifty dollars for the last month or six weeks. We trust that the county commissioners will carefully reconsider their action of last week and remit the sum asked by Examiner Peterson and thus allow the schools to remain open until June 20th, and by so doing they will receive the commendation of the entire county. OCCASIONAL.

"NULITE" Gas Lamps

THE ACME OF

Modern Illumination.

They cost just the same to operate as a tallow candle—four hours for one cent, but give 100 times the light.

Strange that some people in this 20th century still use the tallow dip.

Might as well take an ox-cart instead of a trolley car.

Yet there are some people (in Borneo) who still prefer the ox-cart.

If you don't live in Boneo we will send you a catalogue of Nulite Gas Lamps for the asking.

Send for one today.
