LOCAL MATTERS.

Cholera Among Hogs.—A great many farmers are losing their hogs on account of the cholera. Mr. Alday Clements, of near Crumpton, lost 26 good hogs last week, and Capt. Peter Brinsfield also lost seven shoats with the same disease.

Business Purchased.—Mr. Adolphus Angel, who for some time past has been employed in the office of the *Enterprise*, has purchased the photograph business of Mr. John M. South and will conduct the business heretofore successfully managed managed by Mr. South on Queen street.

Schools to Open.—The county schools will open for the beginning of the fall session on Monday Sept. 7th. The Teachers' Institute will be held the first week in September beginning on Tuesday the first and continuing four days. Examiner Peterson has prepared a very interesting and instructive programme which will be published next week.

Sales of Personalty.—Mr. William D. Shinn expressed himself as well satisfied with prices received for stock and farming implements at his sale on Monday last. Horses sold especially well. The sale of Mr. Wm. Clough was also well attended and excellent prices were received. A fine pair of sorrel driving horses sold for $237. Two pair of mules brought $615, and cows sold from $23 to $44.

Turkeys Killed.—Dogs got into the fine flock of young turkeys belonging to Mr. —— Mason, who lives on Mr. Walter T. Morris' farm near town the other night and killed twelve or more of the best. It is not known whether the dogs came from town or county, but Mr. Mason will keep a close watch for them hereafter and will shoot the first suspicious cur caught on the premises.

Good Sport.—Quite a number of our local sportsmen went out on Monday to gun for doves, and returned with the largest bag reported in this section for years. The total number of birds bagged was 54, the largest score made by any individual gunner 16, the second 12. One young man in the company discharged two boxes of catridges and failed to bag a single bird. He'll do better next time.

Boat Built.—Captain Andrew Woodall of Gtorgetown, Kent county, has had built at Cambridge, one of the largest power boats yet brought out for service on the Chesapeake. The Cambridge Manufacturing Company built the hull which is now at Georgetown being fitted with joiner work and a Globe gas engine of 85 horse-power. The boat is intended for the grain and other trade between Georgetown and Baltimore. She will have a capacity of 6,000 bushels of grain, or about 175 tons dead weight cargo.

The Tolchester Fair.—The great Kent and Queen Anne's County Fair will begin on Tuesday next and continue four days. This promises to be one of the most successful fairs in the history of the Company. Entries for exhibits in the various departments are coming in rapidly. The races have all filled well and some good sport may be expected. Special attractions will be given every day during the races. In fact every inducement is offered to the public to attend the fair this year both as to transportation and attraction.

A LAUNCHING PARTY.

[WRITTEN FOR THE TRANSCRIPT.]

On Wednesday afternoon last the beautiful launch "Edwina" left Havre de Grace, bearing a charming party of young people, chaperoned by Mrs. William Tammen. The party was gotten up by Messrs. Stanley M. Hanway and Frank Fulford, in honor of Miss Penning's guests, Misses Violet Beck and Nina Roberts. Nature seemed hand in hand with these gentlemen in doing all in her power for a delightful trip.

The afternoon was perfect, and as the "Edwina" sped gracefully o'er the ever lovely Chesapeake, it made a lasting impression upon the appreciative passengers, who were: Mrs. William Tammen, Misses Nina and Hazel Tammen, of Baltimore; Miss Isabel West, of Indian Territory; Miss Violet Beck, of Kent county; Misses Sarah Penning, Bessie Hopkins and Juliet Knight, Messrs. Harrison Vickers, of Baltimore; Albert Draper, of Washington, D. C.; Stanley Hanway, Frank Fulford, Harry Lynch, Philip Bond, P. Leslie Hopper, Tom Hopkins, of Bel Air, and Thomas Hopkins.

After a run of ninety minutes the party was landed at Betterton, where they were met and warmly welcomed by many friends, viz: Mr. and Mrs James Beck, Mr. and Mrs. William Beck, Misses Sarah, Isabel, Florence, Elease and Mamie Beck, Jennie Hines, Cora Massey, Miss Dunning and Mrs. John N. Roberts, of Memphis, Tenn., Messrs. Gundry, Guy Groff, George Vickers, Tom Massey, Scott Beck, Wm. Hanson Hodges and Mr. Tammen, from the "Reckless."

The two parties, now forming one, took supper at Hotel Rigbie, after which they proceeded to the dancing pavilion, where they "skipped the light fantastic" until a sharp blow from the chaperon's horn reminded them that 'twas time to turn their faces homeward. With fond goodbyes the parties separated, hoping to meet again in the near future. And of that homeward voyage, "so short and yet so sweet," we need change but slightly that old song of "Wang's:"

A pretty girl—a perfect night,
A moon serenely mellow,
A sparkling stream—A little scream,
Of home—and all is well—Oh!

LITTLE LOCALS.

Concerning Fertilizers

Fifty years ago a young merchant, having been in a new business just long enough to learn some of its successes and many of its disappointments, was standing in the doorway of his store wondering what was the best thing to do; business was fearfully dully and bills coming due. While thus occupied, an old gentleman came up to him and said, "Be true to your customers, be true to yourself, do just as you agree, never misrepresent your goods, and trade will come to you from the most unexpected places and in the most unexpected way."

That was a prophecy of three generations ago. It did not apply to any one busiuess, but covered all businesses, and when, in 1902, T. R HUBBARD & SON'S FERTILIZERS were being shipped to Ohio, to the truck farmers of Virginia and the South, to New Jersey, to Pennsylvania, to Delaware and to Maryland, some of it unsolicited and to utter strangers, the old maxim of the old days forces itself strongly upon us.

We have been in the fertilizer business for over a quarter of a century, and in all that time, if any of our goods has been changed it has been to better them. The same bone we ground at first we grind today—its quality unchanged. It was pure then and it is pure now. We are reaping the reward of being true to our customers.

There is nothing that is harder to vary than the truth. A witness on the stand who has made a clear statement of the plain truth, never varies his story, even under the fiercest cross-examination. It is the teller of fairy-tales who changes his statements with each varying condition and season.

The fertilizers we offer you for 1903 are the best we have ever put out. Each year has its experiences. We learned something in 1902, and the users of HUBBARD'S FERTILIZERS will get the benefit of it.

A poor article may sell rapidly for a time if it is pushed energetically, but a record of steady gain oyer a period of 58 seasons among the same people can only be achieved by a good reliable article.

You can only judge the future by the past. If you have used HUBBARD'S FERTILIZERS in the past, you may be assured they will give you tatisfaction in the future. If you have not tried them, we ask you if a record of 29 (twenty-nine) successful years with the farmers of the Middie States is not a sufficient guarantee to justify you in using our goods.

Soliciting your patronage, and thanking all our friends for their svbstantial support in the past, we remain,

Very truly yours,
