LOCAL MATTERS.

Annual Regatta.—The eighteenth annual regatta of the Chesapeake Bay yacht club, with headquarters at Easton, will be held on Miles River on Friday, August 12th. The course will be one of the most beautiful ever selected by the club, and will probably be from Deep Water Point, near St. Mitchael's around Long Point buoy, back to Deep Water Point, thence to Tilghman's Point buoy and back, a distance of between 18 and 20 miles. Some of the fastest and best boats in the State will contest for the handsome trophy.

Message From Millington.—A message was received by the TRANSCRIPT from the relief committe at Millington on Thursday morning stating that there are enough provisions, clothing, etc., on hand to supply the needs of all those who lost their effects in the fire last week. The committee states that they will be at a loss to know how to dispose of any more donations of that kind, but a contribution of money will be very acceptable. The above message is surely a great compliment to the generosity of the people of the state and county, and an evidence of the fact that the people have not turned a deaf ear to the call for help.

Fine Sample of Potatoes.—Mr. B. F. Potts, on one of Dr. S. E. Ford's farms in Queen Anne's, made Mr. Hydie Thompson a present of some of the finest new potatoes we have seen this season. The potatoes are of the "Irish Cobbler" variety sold by Smith & Graham, Chestertown. There are ten potatoes filling two fruit baskets. Each potato measures 12½ inches in circumference, and their combined weight is 9 lb. 14 oz. Mr. Potts planted ½ bu. of seed potatoes on ⅛ of an acre of land and has an excellent crop, all similar to the sample presented to Mr. Thompson. The potatoes were placed on exhibition at the TRANSCRIPT office and were objects of much interest.

Assistant State Superintendent of Education.—At a special meeting of the State Board of Education, held at Ocean City last Friday, Mr. I. Montgomery Gambrill, of Howard county, was appointed clerk and assistant to State School Superintendent Stephens, and Treasurer of the State Board, at a salary of $1,700 per year. This position is a combination of two officers, that of clerk to the State Superintendent and that of treasurer to the State Board. The former has been held for the past four years by Mr. Herschel Ford, of Fairmount, Somerset county, and the latter by Prof. E. B. Prettyman, of the State Normal School. The newly elected officer will assume his duties on September 1st.

In the Path of a Mad Dog.—Several weeks ago a fine shepherd dog belonging to Mr. L. C. Turner, of near Kennedyville, got loose from his confinement and played havoc among the stock of the farmers in the neighborhood. The dog bit several cows belonging to the farmers near Kennedyville and they have been compelled to kill them lately. Among those who have lost their cows are, Mr. John Redmile, 2; Mr. William Webb, 3, and Mr. L. C. Turner 1. The dog bit a hog belonging to Mr. Jesse Copper, and Mr. Copper was compelled to kill the hog on Tuesday. He fears that several other of his hogs may be afflicted. Mr. Turner noticed the peculiar actions of the dog about three weeks ago and penned him up. He escaped in some manner and was finally killed at Mr. Redmile's.

Mr. Luther Conradi in Dresden.—Dresden papers received in Baltimore contain very complimentary notices of Mr. Luther T. Conradi, pianist, of Baltimore, who, with his bride, who was formerly Miss Mary Hurtt, of Chestertown, is now traveling in Europe. Mr. Conradi introduced Mr. Burmeister's Concerto in Dresden. One of the papers says: "To judge from this exhibition of his style and powers—a highly finished and interesting recital in every sense of the word—Mr. Conradi is sure to attain if he has not already attained, distinction alike as interpreter and executant." Mr. and Mrs. Conradi in August, with Mr. and Mrs. Burmeister, will go to Bayreuth for the Wagner festival, and in September, notwithstanding the importunities of the director of the Royal Conservatory, who desires Mr. Conradi to remain in Germany and concertize, will return to Baltimore.

AFTERMATH OF THE FIRE

Suffering Being Rapidly Releived—Clearing Away the Debris for New Homes—Business Men Purchasing Locations—Insurance Being Properly Adjusted—A New Millington to Rise From the Ashes.

The town of Millington has been visited since the great fire by hundreds of people anxious to extend a hand of sympathy or to view the wreck of the once beautiful little town. Much has already been done to relieve the suffering occasioned by the sweeping away of many of the people's homes, and there are evidences already of a desire on the part of the people to rebuild their beloved town. Assistance has been received from all parts of the State and it is said that already there is on deposit $3,800 in the Millington bank, a temporary location for which has been secured in the residence of Mr. Jos. Mallalieu, for the benefit of the sufferers. The relief committee of the town has used every effort to provide for the necessities of the sufferers, and all the week have been distributing the numerous articles of clothing, furniture and provisions that have been received. The debris of the fire is being rapidly cleared away and there are many who are negotiating for the purchase of lots upon which to erect places of business or dwellings. Mr. Wm. H. Loper has sold to Mr. F. S. Bottomly the lot upon which the blacksmith shop was located for $500, and Mr. Bottomly proposes to erect a large store house equipped with all modern conveniences. Mr. H. H. Benneman, whose large dry goods store was located near the corner of Cypress and Sassafras street, has purchased a lot centrally located upon which to build a modern place of business. Mr. C. M. Hurtt, an $8,000 stock, will build on the lot adjoining Mr. Benneman, and many other merchants and residents are negotiating for eligible sites. On account of the demand for building sites the price of land is said to have risen to a very high mark, and many who would purchase a site and rebuild as rapidly as possible are debared on account of the rise in price.

The insurance companies that were affected by the fire have had their agents on the scene during the week are at work adjusting the insurance, and just as soon as the work is completed there will be greater activity in the building line. One thing seems absolutely assured and that is that the town of Millington will be rehabilitated and that right speedily. At present those who were burned out of their homes are making themselves as comfortable as they can in the tents sent by Gov. Warfield and the cars forwarded by the P. B. & W. railroad company. The town has the appearance at present of a large encampment with here and there a mess tent from which provisions are distributed to the rank and file of the town. The merchants and builders of the town are ordering goods, lumber, etc., for those needing supplies, and are disposing of them at figures pleasing to the people. The Millington bank has secured temporary quarters in the home of Mr. Joseph Mallalieu, and is attending to a large amount of business. Meetings of the town commissioners and relief committee are being held at regular intervals and a systematic and business-like distribution of provisions is being made and methods are employed that means a rehabilitation of the burned town at an early date. The generous response to the call for assistance by the people of the State is certainly worthy of the highest commendation. Baltimore heads the list with a noble contribution of $2,000, advanced by Mr. Michael Jenkins. Philadelphia, Wilmington, Annapolis, Dover, Centreville, Sudlersville, Massey and other towns have responded nobly, and the efforts of all have been greatly appreciated by the distressed inhabitants. Chestertown has not failed in *her* duty. The good people of the town have gone the limit and every day this week large boxes of clothing, provisions and money have been forwarded. At a meeting of the citizens held in Stam's Hall last Friday night, Judge Pearce, who presided, appointed a committee composed of the four ministers of the town and Mrs. James T. Dixon, Mrs. Thos. S. Bordley and Mrs. Wm. F. Russell, to solicit further aid for the Millington sufferers. R. H. Collins was chosen secretary and treasurer.

This committee went to work with a will and the appended subsciption list will show how well they have succeded in their efforts. The editors of the TRANSCRIPT have received a check from Mr. J. W. Skirven, of Baltimore, for $10, and Ex-Gov. E. E. Jackson, who is now in Maine, has forwarded to a friend living in Chestertown his check for $100—a noble act on the part of the generous Ex-Governor. As an evidence of what the people of the town have done towards raising a substantial fund for the sufferers we state that $659.83 has been contributed by the people of the town and their friends, and numerous large boxes of provisions and clothing have been sent by the ladies of the town. All of this only proves the liberality of the good people of the town, and their willingness to respond to all cases of distress.

As far as can be ascertained the total loss will amount to $128.850, with an insurance of about $36,125, leaving an actual loss of $92.625. The assistant State Fire Marshal visited Millington early in the week to investigate the cause of the fire. After a careful examination of the conditions he made an official report stating that the fire originated from a spark from the flue in Mr. Wm. H. Loper's blacksmith shop, as was stated in last week's TRANSCRIPT. Postmaster Walls has secured quarters for the postoffice and the mails are being received and distributed without interruption.

WEDDING BELLS.

STOUFFER—SUTTON.

The home of Mr. Jas. M. Sutton, of Betterton, was the scene of a very pretty wedding on Wednesday evening, July 20th. The contracting parties were Miss Mary E. Sutton, sister of Mr. Sutton, and one of Worton's pretty daughters, and Mr. J. Edward Stouffer, an enterprising young man, of Philadelphia, formerly of Kent. The bride was dressed in a suit of blue crepe-de-chene with trimmings of white and white hat and gloves. The groom wore the conventional black. After a dainty wedding supper at the home of the bride's parents, Mr. and Mrs. Jas. P. Sutton, of Worton, to which a few of their friends were invited, they drove to Betterton, where they were married, by Rev. Adam Jones assisted by Rev. Mr. Fry, of Wilmington. Mr. and Mrs. Stouffer will make their home in Philadelphia.

Birthplace of Peale.

TO THE EDITORS OF THE TRANSCRIPT:—Some time ago I read an article in your paper stating that Charles Willson Peale's native place was Chestertown, Md. This has long been the impression, and the inhabitants of your town will not feel inclined to give up the honor after so long laying claim to it. In Miss Anne Hollingsworth Wharton's "Heirlooms in Miniatures," she says: "Of Charles Willson Peale's early years we learn that he was born in St. Paul's Parish, Queen Anne's county, Md., April 16, 1741, three years later than Benjamin West and four years after Copley." The birthplace of Charles Willson Peale has been so often given as Chestertown, Md., that the author takes pleasure in making the above correction. The mistake probably arose from the fact that Mr. Charles Peale, Sr., for many years taught a free school in Chestertown, and that he died there in 1750.

He left a widow and five children—Charles W. Peale, the artist, Margaret Jane, who married Col. Nathaniel Ramsay, of the Continental Army; St. George Peale, Elizabeth Digly Peale, who married Capt. Polk, and James Peale, minature and still-life painter.
