SATURDAY, AUGUST 2, 1913.

THE ANTIS ARE BEATEN!

A candidate on the Barroll ticket in talking with a gentleman in the Sixth District last week *admitted* that Organization would carry the 4th, 5th, 6th and 7th districts, but claimed the 1st, 2nd and 3rd districts for Barroll! What do you think of that reader? If this Anti is basing his claims on districts, 1st, 2nd and 3rd, he'll surely get snowed under awful.

THE Suffragists have invaded Queen Anne's and gotten 50 supporters. The Observer had been congratulating itself that none were to be found there but says "another idol of public worship is ruthlessly shattered; another boast is gone, no longer are we residents of a solidly anti-suffrage community, for lo, at last, the suffragist is here."

IN an editorial headed "The Great Difference" the Barroll organ makes the point that no matter how *good* a man is personally, if he is identified with Organization politics he should be shunned as one would an infectious disease. Consequently, we must conclude from the article, that no matter how *bad* a man is personally, the instant he becomes identified with Anti politics that instant a regenerating process takes place and he is ready to pose before the people as a "brand plucked from the burning," and ready to preach the gospel of pure Democracy, from the standpoint of Anti-Organization doctrine. The editorial referred to here is an attempted defense of that wonderful statement from a previous article in the Barroll organ, stating that this was not a time to take into consideration the *best men!*

THAT $1.85 RATE

Well, well, well, they have been a long time coming to it, but the Barroll organ has at last acknowledged that the Anti's *did* burden the tax-payers of this county with a $1.85 rate. This sounds different from one of the questions in their catechism, which reads: "Who saddled upon the people of this county in the last year of their control a tax rate of $1.85?" Answer: "The Organization." This is an unqualified, an unmodified question and answer.

But in last week's issue they make a scapegoat of the Organization and of the Hon. James Alfred Pearce. Again we say we do not see the consistency of crediting one's self with the glory of a 94c. tax rate—said rate being the direct result of an action which seems so inglorious, and for which the Organization, the say, is to *blame*. The 94c. rate is made possible by the $1.85 rate. The 94c. is famous, the $1.85 infamous. Queer logic.

Now, here is where some *varnished, veneered* truth comes in. What was the real reason for the $1.85 rate? The answer is blazoned forth in display metal in every issue of the Barroll organ. That $1.85 rate was a war measure. It was to constitute campaign material; it was to furnish political capital wherewith a revolting Democracy was to win victory.

The end was foreshadowed from the beginning. A mere tyro at figures knows that if he takes money out of his pocket and pays on account, that account will dwindle. What great miracle has the Barroll faction performed in reducing the rate to 94c.? How was it done? To every tax-payer in the county the Anti's said, "Step up to the Treasurer's office and on every $100 worth of property you own pay $1.85; and when you do so register an oath of vengeance against the Organization for what we make you do; next year we'll make you pay $1.22; for which again curse the Organization; next year we'll make you pay only 94c., for which go down on your knees and offer thanksgiving to us—the Anti's."

We admit that the levying was necessary, but we do *not* admit the condition from which the Barroll organ says that condition arose. It was necessary for the Anti buncomb; necessary for them to exploit as an Organization governmental failure. When the tax rate was levied it was good of the whole people was not thought of—only the good of a part of them—and that only in the light of political welfare. The Anti's have never ceased to denominate the $1.85 as an Organization crime, but the 94c. (a natural resultant of the $1.85) an Anti life-saver. It is impossible to believe that such honest (?) truthful (?) argument will have any effect upon those who think their own thinking.

Further, no one will imagine that the Hon. James Alfred Pearce ever advised the levying of a $1.85 rate, thinking that such advice would ever lead to a controversy between factional political leaders. It is not honest to bring Judge Pearce's name into this discussion. It is a perversion of his office for political purposes and it misrepresents him; and is a use of judicial opinion for practical profit, which, if we know the man at all, is repulsive to his sense of propriety and decency.

The public knows now, through the Anti organ, who levied the $1.85 rate. It was done with a Barroll board of county commissioners, Messrs. *Davis, Todd* and *Crew* voting for it, and Messrs. *T. Loud* and *C. B. Dudley*, the minority Organization representatives, voting against it. "In all things let us be just."

THE American issue of last Saturday says: "Kent county, which is normally safely Democratic, is torn by a factional fight. We notice that some of the politicians are using very bad judgment in taking up as legislative candidates individuals who have a bad record on the local option question. The Anti-Saloon League is not paying any attention to the factional fight, as such, but if necessary when the time comes will oppose any man who is wrong regardless of how such action may embarass his political associates. They have no business to take up such men as a bid for the support of the liquor element unless they expect to get the "flare-back" as well."

BARROLL'S FIGURES

The NEWS finds plenty of material in the Barroll organ to prove the justice and merit of the organization Claims. In a recent issue Mr. Barroll undertook to prove the extravagance of one faction and by his *own* figures he proves that faction to be his very own. He says the amount provided for in levy of

1906 was 96,095.47
1907 was 99,443.91
1908 was 100, 081.96
1909 was 113,839.13

This would mean an average expense under Organization Control of $102,387.61.

The amount provided for in levy of 1916 when the Barroll faction took control was 166,181.67

In 1911 190, 544.57
In 1912 112,057.50
In 1913 100,259.84

This would mean an average expense of these four years of $122,010.89, or a difference of over $20.000 in favor of organization control. Add to this this the $15,000 or $20,000 saved on the roads would run these figures up to $35,000 or $40,000 in the organization's favor. Therefore the Antis have cost the county nearly forty thousand dollars more than under organization control.

VICTORY FOR THE FARMERS

Chairman Philip D. Laird, of the public Service Commission, on Thursday handed down an opinion in the long-fought demurrage case, ordering that free time for loading and unloading cars in the counties be extended to 60 hours. The present free time is 48 hours. This order applies to electric as well as steam railroads handling carload lots. It is provided, however, that where consignment are to persons in villages and towns located on railroads and delivery can be made in wagons, the 48 hour free period may be applied. The fight for longer free time has been waged principally by the farmers of the State. They asked for 72 hours free time. Chairman Laird says 60 hours will give as much daylight free time as 72. The decision is an important one to many farmers.
