SATURDAY, AUGUST 30, 1913.

THE Antis are in sore straits and are resorting to all sorts of scoemes to win, but the die is cast and the people will give a death blow to Barrollism.

"AHERN will carry the First district by over 100," said a well-known First district politician on Wednesday, and another replied, "Well, we'll carry all the others for Ahern and the balance of the Organization ticket!" It is going to be a great triumph.

FROM all parts of Kent come cheering news of the sweeping victory in store for the Organization candidates. The people now realize that their duty is to vote for the *best man* and as the Barrollites do not claim to have the *best man* it leaves the field open to the Organization ticket at the head of this column. Every voter owes it to his wife, child or sweetheart to nominate these good men for office.

THE Fair management did their best to give to the public a good exhibition and wherein it was lacking this year will be made up another year. They were at so much expense in this their first year that they did not feel justified in erecting exhibition halls, &c. Next year it is hoped the Granges will take charge of the grain, vegetable and stock exhibits and make this a leading feature. The people want something more than a horse race.

THE POLITICAL SITUATION.

Monday, Sept. 8th, the voters of Kent will be called upon to nominate men to fill positions of office and trust in the county. Unfortunately, the Democratic party here is rent in twain by factional difference. These so-called factions go by the name of Organization and Anti-Organization. The principles of the former are too well-known to need any discription. The adherents of this division have always been found fighting beneath the standard of the true and tried Democracy of the State. Its ranks have produced some of the most noted political leaders of the grand old Maryland Commonwealth.

Today it is still fighting the battles of the people, opposing those who are trying to disrupt the party, and keeping stride with every advancement of the newer Democracy.

The Anti-Organization is opposing the real Democracy in the county, but willing to enlist under the hated name of Organization, when it comes to seeking State political recognition. Their support of Gorman against Lee proves this, as was the desire of Barroll to represent the State at the National Convention, and vote for Champ Clark, according to State instruction. Now this same Barroll poses as a great Wilson advocate, and is back of Marbury, a most doubtful Democrat of any hue.

In the county the Barroll faction has waged its battles under the banner of economy. It has made a great issue of money expenditure on roads, referendum, tax rates, corrupt practice, temperance, and any other that it thought might coral a vote or two.

Upon the question of economy, all we have to say is that the Antis have a very peculiar idea of the meaning of the word. The Barrollites have simply compelled the people to pay the county debt with cold, hard cash; by that have been able to parade a low tax rate, and called that economy. We have challenged them to show any other kind of economy, but as yet they have failed to answer.

Indeed, we have shown that in order to get this 94c rate they spent $57,000 of the people's money, and on all occasion when chance was offered to hand out patronage to one of their persuasion, it was readily taken advantage of.

As to roads, the Barrollites have never had control of them, and therefore no one can tell how much they would have spent. They have taken great pleasure in denouncing every dollar spent as wanton extravagance,—although by the Organization road law, *more than anything else*, the Antis have been able to ring the changes on economy.

In legislation our candidates have openly declared themselves in favor of the referendum which gives the lie to any charges of the contrary by the Barroll adherents.

As to the temperance question, we do not think the Antis would like their platform too closely studied. The public probably knows enough, however, to draw their own conclusions.

In general, the ranks of the Organization contain men qualified to assume the office and direction of county affairs, and able to put into effect all the principles which represent true Democracy.

The candidates this year are men of standing and responsibility in the communities where they reside. They, as well as the men who are helping to carry *true* Democracy to a successful issue, are young and progressive. They are men committed to all the tenets of a Wilson and Lee leadership, and eternally opposed to an injection of qustional characters into Democratic positions of honor and trust.

We want again to present our candidates to the suffrage of Kent's citizenship.

Men like Ahern, Turner, Shallcross, Brown, Taylor, Thompson, Dodd, Stradley, Rasin, and the whole ticket, appeal to all men who stop to think. Here is, of course, a class of people who feel themselves committed to a fight, for the fight's sake—and not for any principle of right and justice. These there is no hope of changing, but we do feel that we do not appeal in vain to the intelligence of an independent constituency.

We, therefore, present our ticket to the voters of Kent, ask a thorough investigation, and we do not fear an unfavorable verdict.

CLAIM NOT SUBSTANTIATED.

The Anti Organization has based its claims for support upon a so-called platform of economy. To those who *think*, it will be evident that this claim can not be substantiated.

In proof of this, the taxpayers need only to analyze the great Barroll talking point, their great example of economy, the 94c tax rate. Instead of bringing about that rate by *economy*, the taxpayers paid $57,000 in cold cash for it—so that the Barroll faction could use it for political capital. They have never shown how a 94c rate has been achieved by economy and good management; for a good reason—the best of reasons—there was no economy in it. So we have as examples of their economy—

The cost of the 94c fate	$57,000.00
" " " Kibler and Son	1,689.50
" " " Edward C. Walters	1,148.75
" " " Jail Board (excess of Organization)	690.00
" " " Hope H. Barroll, Esq.	725.00
" " " Richardson road case	500.00
" " " Transcript Pub. Co.	6,000.00

So it will be seen that where it was *possible* to practice economy, there was no economy; and where it is *impossible* for them to get hold of the money, they are charging extravagance and bad management. Let them show some positive saving—their argument is all negative.

In the face of this, is it any wonder the Anti cause is losing ground every day? People are beginning to think for themselves. The Barroll movement is a wholesale grab for office. They are not now hesitating, and have never hesitated to ally themselves with Organization democrats in State politics and all they want now is to be Organization democrats at home. Barroll democrats receive no recognition in State politics, and for this reason some months ago the Barroll organ suggested in its columns that "We are the Organization since we have won the majority of offices in the election." We all know how far that claim carried him.

To The Democratic Voters Of Kent County:

The time is near at hand when the Democratic voters of Kent County will be called on to select their candidates.

The wise use of the ballot, the greatest gift bestowed on a free people, in this wonderful country of ours, is most essential in our form of government. Therefore it is important that our people give careful consideration not only to the issue at stake, but to the fitness, ability and character of the men to be nomination.

The duties of the representatives in our Legislature should be regarded in a serious manner when we think of the great number of important questions which will be presented by the people of Maryland to be passed on.

The allegiance of a member of the Legislature is not only to his county, but to his state, the kind of legislation we are to secure therefore, will depend upon the character, ability and energy of the representatives. Following President Wilson in his great fight for clean legislation, and his efforts in behalf of good government, the democracy of Kent should show by their ballots their sincerity of purpose. The great movement over the country for clean and progressive government is apparent in every state, and Kent County should voice this sentiment in no uncertain manner.

I want to say to the Democrats of Kent County that I was a supporter of President Wilson in the fight for his nomination, and contributed financially to the fund raised by the people to carry on his campaign.

My Candidacy.

In deciding to become a candidate for the legislature in Kent County at the solicitation of many business men, farmers, watermen and others, I had then and have now but one object in view, and that is to work for good clean government and to promote beneficial legislation.

I entered the field of politics not in the sense of a politician but more as a business man, having serious regard for the responsibilities which must rest heavily on the shoulders of a representative. My position is independent to the degree that I have made no promises nor have any been exacted of me. I earnestly desire, if nominated and elected, to occupy such a position that I may truly be the peoples representative.

As a candidate I am ready to answer any proper question put to me by the people, and only wish I could talk and converse with every Democratic voter in the County. This is impossible and I have decided to address this letter to the Democratic voters.

That I may acquaint those people of Kent County who do not know me personally, with some facts concerning myself, I desire to say I was born near Betterton on a farm, and have resided in this section all my life, I attended the public schools of Kent County and later spent two years at College, and then four months at business school. In 1890 when I was 21 years old, I entered the firm of Turner & Son as a Junior member and have continued in the same business ever since. Our business is the sale of lumber, coal, fertilizer, building material and fishermans supplies. Trading with farmers, fishermen and watermen, and the business men of Kent, has given me an intimate knowledge of the people and their interests. With reference to my character, ability, public spirit and aggressiveness, I refer to all people of Kent who know me personally.

My achievements in life may be judged accurately here in my home village. Except having served as Town Commissioner in Betterton for two terms, I have never been a candidate for any office. I have however, always been interested, as every man should, in the political welfare of his county, and have stood with and worked for the Democratic party since I became a voter in 1890. I have never been a Prohibitionist nor a Republican and the soundness of my Democracy may best be attested by the people of the second and third districts, because they are the people among whom I have lived all my life. The Anti Organization candidates since the formation of that faction of the party, can also testify heretofore that they have solicited my support and when nominated have always found me actively working for the ticket. The attack made on my Democracy by the Chestertown Transcript can make no impression on the the people who know me, but in order that the people situated remotely from me, may not be misled, I mention the following facts: Some of my family have been Republicans and some of them Democrats. As I grew to manhood. I cast my lot with the Democratic party., because I believed Democratic supremency was absolutely essential to good government south of the Mason & Dixon line, and because I was opposed to a high tariff.

The Transcript has been badly misinformed to say the least, and it would have been so easy for them to have ascertained the truth from the people who best know me. Having been recognized by the Democratic party in both County and State for the past twenty-three years, my Democracy was never before questioned. In the interest of "Truth and Justice" they should have ascertained the truth from the people in those sections of Kent County who could speak with knowledge.

I pledge myself to the Democratic voters of Kent County if nominated and elected to earnestly and energetically work for all legislation that may be for the material advancement of the County and State. I did not enter the Primaries to play petty politics, nor to corrupt the vote; not to vilify and scandalize my opponents, nor to appeal to the prejudices of the people; but to do my utmost to help bring Kent County up to the political standard that its people wish to see her occupy. I desire the respect of the people of the county above all else, and should I be selected to represent them at Annapolis, will do all in my power to live up to their expectations.

I will work for good roads, and the best public school system possible, but will at the same time throw proper safe guards around the tax payers. I believe in and will apply the referendum to all bills from Kent County introduced and passed in the Legislature involving the expenditures of large sums of money for public improvements that the people decide by ballot these questions. I will keep all interests informed, the farmers, fishermen, oystermen, business men and others as to all Legislation effecting them.

If nominated and elected, I will go to Annapolis to work and be as useful to my constituents as is within my power.

Asking your earnest support and influence in behalf of my candidacy, and for my associate on the ticket, Robert A. Shallcross, and hoping you may be able to give your cordial indorsement to to entire Organization ticket, I am

Very Respectfully,
HOWARD TURNER.

Did it ever occur to you, Mr. Voter, that the Barroll faction are berating the Organization for failure in positions of county government, in which the Antis have never been tried? That they are simply promising you a quality of Statecraft, of which they have never given you any example? And that whenever chance has been given to save they have spent? For instance, the sheriff's office, Board went up, when McKee went in. Everybody in this town is suffering under the strain of increased cost of living. That's no explanation.

Note the new assessment, officials profited unnecessarily. And in this connection, it might be well to state that by this re-assessment which the Antis has been condeming, they have been enabled to declare the 94c rate, the basis of taxation being increased, and the people paying as much tax by the low rate as they did by the former high rate.

Mr. Voter, you should remember that the Barrollites are after these "*good paying offices.*" Don't forget that, and Mr. Barroll himself is doubtless revolving in his mind how much he would have been in pocket, had he been judge, or Mr. Haddaway had he been clerk, &c., &c.

That exposition in last week's Barroll sheet was as weak and ludicrous as possible to imagine. Form pure and simple—matter absolutely wanting.

A CARD

To my friends in Kent County.

After careful consideration of my candidacy for the Sheriff's office, I have concluded that since I have no family, nor any one who can assist me in properly keeping the county jail in the cooking, attending to prisoners, etc., that it is best for me to withdraw from the contest in favor of Mr. Robert J. McWhorter. I wish to thank my friends most warmly for the encouragement they have given to me and to earnestly request them to unite with me in supporting the entire Anti Organization ticket and especially in supporting Mr. McWhorter for Sheriff and defeating the Organization candidate for this office.
