Mrs. Discontented—"Well, for all the pleasure I have I might as well be bedridden like Mrs. Pain. At least I'd have a chance to rest."

Anty Drudge — "You are a wicked woman to talk that way. I am real cross with you. If you'd be sensible and use Fels-Naptha Soap, like I do, you'd have plenty of time to read and rest."

Many a perfectly well woman loses her health and good looks all of a sudden, and wonders why she can't do as much work as she used to. It's because she has worn herself out.

Every woman can take things easy if she will use Fels-Naptha Soap for the hard part of her work. Fels-Naptha dissolves grease and makes dirt disappear in cool or lukewarm water.

For housecleaning, washing, everyday housework, follow the directions on the Red and Green Wrapper. Better buy Fels-Naptha by the box or carton.

Mr. and Mrs J. R. Poore are visiting friends in Wilmington, Del.

BIG WEEK AT CAMP.

The Camp Meeting is now in full swing. Last Sunday afternoon a Temperance Rally was held. The opening remarks were made by Evangelist R. T. Baer, President of the Conference. Mrs Amy C. Weech, National Lecturer of the W. C. T. U., spoke on the Gospel of Temperance raising the standard of temperance to the plane of love as the great Protector of men and women.

Dr. H. N. Sisco gave facts and statistics on the socialogical and physiological phase of the subject showing how alcohol lessens one's chances in life and health. Dr. Bourdears Sisco followed on "Stepping Stones to Intemperance," getting down to the causes of the liquor appetite. Mr. O. B. Kuhn representing the Washington D. C. Santitarium presented the relation of Patent Medicines t oIntemperance. The last address was by Pastor S. B. Heston on the necessity of uniting with all movements of State and National Legislation prohibiting the manufacture sale, and promiscuous use of intoxicating drinks.

The Seventh Day Adventist believe in Medical Missionary work as the right arm of the gospel and have 104 sanitariums and hospitals in operation in all the world. Rational methods of treatment are used in preference to harmful drugs. They are vegetarians not because of religious requirements but because of the physiological relation between health of body and mental and spiritual development.

The reports in the Conference sessions show the greatest growth in the history of the Conference More members have been added and more Churches built than in any previous year. Prof. G. B. Wilkinson represents the educational phase of the movement.

The 702 churches academies and colleges of the denomination with their 250,000 students form the recruiting ground of this movement. The distribution of literature is another large part of their work. Last year over $2,000,000 worth of literature printed by their 37 publishing houses in 71 languages was distributed.

Tuesday evening Prof. G. B. Wilkinson, Pres., and S. B. Horton, Sec'y., of the Columbia Religious Liberty Assn., and Prof. C. S. Longacre and A. J. S. Bourdeaw of the American Religious Liberty Assn. addressed P. O. S. of A.

Thursday night Prof. C. S. Longacre spoke in the Big Tent on Religious Liberty.

Subject for Saturday evening Sept. 27 is "True Love is Obedience." Sunday Sept. 28 11 a. m., "Court Week in Heaven." A public Baptism will be held in the Chester River, near the bridge at 4 p. m. 7.45 p. m. "The Message of Christ for this Generation."

CONCERNING SEED WHEAT.

An expert has the following to say on a subject now uppermost to the farmers:

"The grower should beware of buying seed wheat merely because the variety made a good yield for his neighbor for a particular season. Any variety may do well when soil and season are just right. Newly-introduced varieties of wheat are often in demand among farmers if their initial yield has been good. However, this does not establish their claim to superiority for reasons above mentioned."

Concerning accurate tests to arrive at just what variety to recommend this expert says:

"This season a bearded variety, Auburn Red, was tested by sowing at various rates per acre from two to eight pecks. The two-peck seeding gave as high a yield as the six-peck seeding and somewhat more than the eight-peck seeding. Some varieties recently tested give promise of being well adapted. These are Auburn Red, bearded, and Leap's Prolific, smooth.

"As the variety of wheat often makes a difference of five and ten bushels per acre, it pays to get seed of a well-known strain. The fixed charges of growing a wheat crop are about the same, whether the yield be fifteen bushels or twenty-five bushels per acre. The average yield of wheat per acre, in the United States is fourteen bushels, and as it costs ten to twelve dollars per acre to grow wheat, it will be seen that there is little profit under fifteen bushels."

Baby Drowns in Tub.—Pumping a tub half full of water for his horses to drink and with his wife proceeding to the field to work, Earl Rogers, residing near Sycamore, was horrified upon his return to the house to find Elsie, his 16 months-old daughter, drowned. The child and a three-year-old sister were left by Mr. and Mrs. Rogers playing about the pump where the tub containing the water was, and upon dropping a cup into it she plunged in head first in an effort to get it. The three-year-old child was unable to get the little sister out.

The Kent Building and Loan Company
desires to call the public's attention to the VERY BEST method whereby they can save money.
For Fourteen years this Company has continued with marked success and has paid its shareholders on an average of 5½ per cent. on their savings. In view of this liberal policy, it is hardly necessary to advance an argument why you should deposit a small sum weekly, monthly or quarterly with this company. Dues received weekly every Monday evening at the Court House in Chestertown, between 7.30 and 8.30 P. M., or by mail at any time. The last statement of the company showed assets of over $80,000. Three years ago the assets were about $60,000 Shares are 25 cents per week, and we have some leading business men who have over 100 shares and have held shares in this company from the date of its organization. The company operates for the advantage of all its shareholders—not merely for a few—and this policy has resulted in a 5½ per cent. investment which must appeal to any one with any security. Its books are regularly audited and it is managed by a capable and strong body of directors, who give it their constant attention. The condition of the company's business is open at any time to the public. $1 paid weekly earns approximately at the end of 6 years and 6 months from $390 to $400. $1.50 paid weekly means about ½ more.
