Four Cloudless Days in Two Months.

The wails that come from the farmers of lower Delaware are echoed up and down the Peninsula. A Dover special says: "A succession of rainy and murky days has seriously damaged the crops of Delaware. Wheat, yet unthreshed, is sprouting from the shock and in some cases is a total loss. Corn is lost through the inability of the farmers along the low lands to cultivate. Fruit is rotting or dropping prematurely to the ground. 'We cannot do a thing,' said a despairing farmer in Dover to-day, while the last 'clearing off' shower fell. Our fruit is going to a ''fishing.''"

The Philadelphia Weather Bureau reports but four absolutely cloudless days since May 31.

TO THE VOTERS OF KENT COUNTY.

I desire to offer myself as a candidate for the Democratic Nomination to the senate of Maryland to be selected by the County Convention of Kent in 1907, and to submit for your consideration my record in the past and to outline what I would attempt to do in the event of my nomination and election.

First, I desire to place myself on record as being opposed to the wholesale barter and sale of votes that practically decides both the general election and the primaries of both parties, which is harmful not only to the buyer by blunting his moral preception and rendering him more easy of access to the seductive manipulation of the legislative lobbyist but is harmful to the seller in that it not only degrades his manhood but makes the seller an agent in bringing into existence the unjust laws of special privileges that are in most cases the cause of the poverty or lust that induces a man to sell a birthright handed down to him by the blood and sacrifices of his forefathers, but it puts out in the future and makes harder of attainment true Democratic conditions that will make privilege and plunder a nightmare of the past.

In offering myself as Democratic Candidate for Senatorial nomination, I solemnly pledge myself not to use or permit to be used, for the benefit of my candidacy any money for unlawful purposes.

Second, while I believe that the laws under which we are compelled to live in Maryland are vastly more important than the mere selection of representatives in the U. S. Senate, I am, and have been in favor of the election or selection of Senators by direct vote of the people, reserving the present proportion of County representation in the State, thus attaining direct control by the people and at the same time preventing the concentration of power in any section of the State. I pledge myself to do every thing in my power to bring about the selection of United States Senators by the direct vote of the people and thus remove this disturbing factor from the function of a legislator, who can thereby apply himself fully to the enactment of proper laws and to the repeal of improper laws and special privileges.

I also pledge myself, if successful, to oppose whatever legislation may be proposed that will favorably effect any individual or coporation at the expense of our people; and especially to investigate and devise a more equitable distribution of the heavy burden of taxation that Kent and other agricultural sections of the State struggle under by reason of the exemption or lightened share that certain corporations, coal land owners and the owners of large values in our chief City's real estate enjoy, and in all acts of legislation to submit to the expressed wishes of the constituency that I hope to represent.

Very respectfully,

CECIL R. ATKINSON,
Box 33, Chestertown, Md.
