Mary Schoolgirl — "We are studying about the landing of the Pilgrims at Plymouth. Just think of the hardships they had to undergo and how brave they were!"

Anty Drudge—"Yes, and have you read of how the poor women had to do their washing in the icy waters of the bay? They had no Fels-Naptha Soap to make their washing easy, either."

No woman is so strong that she can afford to waste her strength. Fels-Naptha Soap gives tired, worn-out women a chance to rest and time for pleasure by making their work easy. It does washing, and housework, in less time, better and more easily than it was ever done before. It dissolves grease, takes out stains and makes clothes sweet, clean and white in cool or lukewarm water, with no scrubbing, hard rubbing or boiling.

Follow the directions on the Red and Green Wrapper. Better buy Fels-Naptha by the carton or box.

He was rendered unconscious when his head hit the wall. He was picked up and hurried to the hospital, where the fracture was discovered While everything was done to save him he died last night. MARBURY OUT OF SENATE RACE

Announces That He Cannot Afford To Carry On Campaign So Long—Told Wilson Of Intention—President Believed To Feel Sacrifice Is Not Needed.

SENATOR SMITH PLEASED

William L. Marbury, who entered the field as a candidate for the Democratic nomination for United States Senator last spring against John Walter Smith, Saturday night gave out a statement withdrawing from the race.

Mr. Marbury's action comes as a surprise at this time, although those who have been in touch with his condidacy have felt for some time that the situation was such that he would not continue in the fight. He based his retirement upon the grounds that the conditions have changed since he announced his candidacy; that at the time he had not expected the fight would be so prolonged, and that he had neither the time nor the means to make an 18-month campaign.

Explained to President.

It is understood that Mr. Marbury had made his mind up to withdraw before he went to Europe and a few days after his return two weeks ago sent to President Wilson, whose sympathy he was known to have in his candidacy, a letter laying before the President the reason why he desired to do so. It is known that Mr. Marbury would have remainded in the fight had he felt that by so doing he would have been aiding the President or promoting the Progressive Democratic movemeut in the State. It is believed President Wilson is in accord with Mr. Marbury's decision, and that while he would still like to see him in the Senate he feels that is is not necessary for him to make the sacrifices involved in the fight.

Those who discussed the Marbury statement were of the opinion that, if another candidate developed against Smith, it would not be for some months to come. They recalled that some time ago Mayor Preston intimated the possibility that he might be a condidate against Smith for the long term and gave out a statement in which he spoke of the necessity of having a city man in the Senate. It is believed that Preston is likely to declare himself for either the Senatorship or the Governorship, his choice depending upon which he considers he could obtain.

Mr. Straus, months ago, announced himself as a candidate against Senator Smith.

Mr. Straus said today:

"Mr. Marbury's withdrawal is no surprise He was in the Senatorial fight only in the fictions of the Sun and never in reality.

"The Sun put his candidacy on grounds that killed it at its birth. It declared and kept on declaring from day to day with a degree of ignorance of Democratic principles which was amazing that the President had selected Mr. Marbury to be Maryland's Senator; that the President intended to force his nomination by the tremendous power and the whole weight of the patronage of the Federal Government; that those who did not yield to this coercion were to be ostracized by the Administration, and that if the President succeeded in that course here he would extend it to other States. Of course, this was the worst kind of an attack upon the deepest principles of the Democratic party. This announcement by the Sun put the President in an indefensible position, which no doubt greatly embarrassed him; and it was only a matter of time when he would drop Mr. Marbury's candidacy if he ever, in fact, had hold of it at all.

Dropped Months Ago.

"That time came several months ago, just before Mr. Marbury left for Europe and the Sun became suddenly silent about his candidacy."

Senator Smith's friends feel that now Mr. Marbury is out of it the opposition to him will be unable to centre behind any one man and that no formidable fight can be made against him. They realize that the city machine people here are not overly friendly to him, but say that part of the organization here would be with him anyway, even if certain of the leaders got behind some one else.

Buy a Mechanical Drudge

MANY a winter day of back breaking labor has the average farmer spent stooping over the old buck saw, zr-r-p, zr-r-ping its way through tough wood for the kitchen stove supply. But the wise ones don't do it now. They have a handy engine to run the saw, while they rest and plan for next summer's work.

That engine is about the busiest and most convenient machine the wise man has on his farm. It pumps water for him, runs the separator, washing machine, feed grinder, corn sheller, and grindstone. Often it runs a hay press, ensilage cutter, small thresher, or a repair shop. The year round it drudges for him, saving the man's strength for more profitable things. And the wisest man has an

I H C Oil and Gas Engine

because it does most for him at least cost. Its simplicity renders it almost trouble-proof. Its construction makes it easy to start and to operate, and it is most economical in fuel consumption. It is made of best material, and when necessary it will deliver 10 to 30 per cent above its rated horse power. I H C responsibility for the engine lasts all the years it is in service.

I H C engines are made in all styles—vertical and horizontal, portable, stationary and skidded, air and water cooled. There are pumping, sawing and spraying outfits. Sizes from 1 to 50-horse power, to operate on gas, gasoline, naphtha, distillate, kerosene, and alcohol. Oil tractors, 6-12 to 30-60-horse power for plowing, threshing, etc.

The I H C local dealer will show you the engines and tell you all about them. Get catalogues from him, or write the

The Kent Building and Loan Company

desires to call the public's attention to the VERY BEST method whereby they can save money.

For Fourteen years this Company has continued with marked success and has paid its shareholders on an average of 5½ per cent. on their savings. In view of this liberal policy, it is hardly necessary to advance an argument why you should deposit a small sum weekly, monthly or quarterly with this company. Dues received weekly every Monday evening at the Court House in Chestertown, between 7.30 and 8.30 P. M., or by mail at any time. The last statement of the company showed assets of over $80,000. Three years ago the assets were about $60,000. Shares are 25 cents per week, and we have some leading business men who have over 100 shares and have held shares in this company from the date of its organization. The company operates for the advantage of all its shareholders—not merely for a few—and this policy has resulted in a 5½ per cent. investment which must appeal to any one with any sagacity. Its books are regularly audited and it is managed by a capable and strong body of directors, who give it their constant attention. The condition of the company's business is open at any time to the public. $1 paid weekly earns approximately at the end of 6 years and 6 months from $390 to $400. $1.50 paid weekly means about ½ more.
