SAYS COLD IS DUE TO COMET.

Asheville, N. C., June 5.—John P. Arthur, a local historian and student, after an investigation of the weather conditions of 1835, and comparing them with those of this year, says :

"Frost will appear every month of the year in which Halley's comet makes its appearance. In 1835 there was frost every month, and there has been frost every month of this year. In 1835 the crops, due to cold weather, were a total failure, and starvation of the inhabitants was prevented only by heroic efforts in hauling from Charleston, S. C., enough foodstuff to tide them over.

"Halley's comet is undoubtedly the cause of the extremely unseasonable weather this year."
