SUMMER RESORT NEWS.

PRICE'S COTTAGE,
BETTERTON, MD., July 10, 1910.

Messrs. Editors:—In answer to query of "what kind of a place is Betterton?" I shall try to describe it. A long pier runs out from a sandy and gradually sloping beach front, quite safe for bathing and just briny enough to know it. Dancing, moving pictures, roller skating, bowling and refreshments on the beach. To the west we can walk along the beach many miles. Twenty-five feet above bluffs run out, separated by ravines and miniature valleys. This distance is well shaded by tree foliage, making it an ideal place for camping parties, and the lover's paradise, to stroll or linger in the quiet nooks. On these bluffs is a merry-go-round, shooting gallery, photographer and other amusements. The Price cottage is about ten minutes walk from bay or high table land. Just a nice distance from the merry makers, where one can pendulum towards drowsy land on the spacious lawn swings. Much improvement is going on for the comfort of natives and guests. A concrete walk four feet wide is under construction. One of the encouraging features are that it is a prohibition hamlet, so that one may feel safe along that line. For a nice quiet time come to Betterton.

Yours in recreation,
G. W. CRAWFORD,
152 W. Lehigh Ave., Phila., Pa.

The Dairy Industry of The United States.

According to the last year book of the Department of Agriculture, there are 21,720,000 milch cows in the United States, and these are worth $702,945,000,00. The magnitude of the industry can perhaps be best understood when it is considered that these cows produce yearly about $1,000,000,000.00 worth of dairy products.

There is no other branch of diversified agriculture so important to the progress of a community. The fertility of the soil can best be maintained by the liberal use of barnyard manure and the dairy herd not only makes this possible, but dairying is also more remunerative than other branches of farming when properly carried on.

Dairying has made wonderful progress since the advent of the modern creamery and the consumer of butter has not only been benefitted by being furnished a more wholesome, palatable article of food, but the wife in the farm home has been relieved of the drudgery incident to making butter on the farm. Where formerly the cream was ripened and churned into butter under conditions not conducive to fine quality in the finished product and in the majority of cases by unskilled hands, now the most of the milk or cream is delivered to a modern creamery where conditions are suited to the purpose of making butter, and the result has been a wonderful improvement in the quality of our dairy products. As the quality has improved consumption has increased and the progress of dairying has been remarkable during the past decade.

ALAN TURNER BADLY HURT.

Alan E. Turner, 1796 St. Paul street, the youngest son of Mr. Paul Turner, president of the American Agency Company and a prominent fire insurance man, met with a serious accident while disembarking from a Baltimore and Ohio Railroad train at Harper's Ferry, W. Va., Monday morning. He left there to join his family, who are summering on Bolivar Heights, and in getting off the train as it approached the station he slipped and his right foot was caught under the wheels of the car. His heel was severed from the foot and the ankle bone crushed. Dr. Ranson, the Baltimore and Ohio Railroad physician, dressed the wound, after which the boy was removed to the Anna Hughes Hospital in Charles Town, where it was found necessary to amputate the foot below the knee.

Mrs. Turner accompanied her boy to the hospital, and stated over the long-distance telephone that he stood the operation very well and the doctors think he has a good chance to recover.

Mrs. Turner is a frequent guest in Chestertown at the home of Capt. T. D. France.

BASE BALL NOTES.

The Centreville Observer has the following:

Chestertown Gets Revenge.

Although first to feel the sting, Chestertown was also the first to trail the colors of the locals in the dust, and in a game on the Chestertown diamond last Wednesday, the Bruehlites went down to defeat by the score of 7 to 3. The whole story is told in their inabilitity to hit. At times when hits meant runs they failed to materialize. Even in the ninth a hit would have looked as big as a meat bill. But they came not and the stars romped out a victory in jig time. Jarman was invincible and allowed but four hits. Thomas also allowed few hits, but six tallies being recorded off his delivery. Centreville should have been an easy winner, but be it said to their credit, good playing could not have been expected on the diamond where they were forced to play. With a stream of water running within six feet of the first base line, the players were forced to take either an impromptu bath or halt before reaching the initial sack, and many decided on the latter. The game, however, was a fairly interesting one throughout.

Prof. Thomas Kibler has been made captain of the Chillicothe baseball team and is playing fast ball. He has brought his team from the last place to fourth within ten days and hopes to land the pennant. He knocked a home run one day last week and set the "fans" wild.

Betterton will have a base ball team managed by Prof. M. J. Thompson.

CHURCH NOTES.

Chestertown M. E. Church—Rev. L. E. Barrett, D. D., pastor—Services next Sunday, July 17th, as follows: 10.30 a. m., preaching by the pastor, subject, "The Kernal Not the Husk"; 2.25 p. m., Sabbath School; 7 p. m., League and Congregation unite in one hour's twilight service—spirited singing, short sermon by the pastor. All invited.

WELCOME WORDS TO WOMEN

Women who suffer with disorders peculiar to their sex should write to Dr. Pierce and receive free the advice of a physician of over 40 years' experience—a skilled and successful specialist in the diseases of women. Every letter of this sort has the most careful consideration and is regarded as sacredly confidential. Many sensitively modest women write fully to Dr. Pierce what they would shrink from telling to their local physician. The local physician is pretty sure to say that he cannot do anything without "an examination.", Dr. Pierce holds that these distasteful examinations are generally needless, and that no woman, except in rare cases, should submit to them.

Dr. Pierce's treatment will cure you right in the privacy of your own home. His "Favorite Prescription" has cured hundreds of thousands, some of them the worst of cases.

It is the only medicine of its kind that is the product of a regularly graduated physician. The only one good enough that its makers dare to print its every ingredient on its outside wrapper. There's no secrecy. It will bear examination. No alcohol and no habit-forming drugs are found in it. Some unscrupulous medicine dealers may offer you a substitute. Don't take it. Don't trifle with your health. Write to World's Dispensary Medical Association, Dr. R. V. Pierce, President, Buffalo, N. Y.—take the advice received and be well.
