CLICKENER'S
SUGAR COATED VEGETABLE EXTRACT PILLS.

A medicinal preparation is herein announced which has been long desired, and sought for, and which the public must at once see and acknowledge the advantage of. It is a purgative pill, COATED WITH SUGAR, so that it leaves no taste whatever of its internal ingredients. In fact the medicine is so entirely disguised that if a person were to swallow the pills without being informed what they were, he would believe them to be simply lumps of pure sugar; nor could he afterwards, unless by its great purgative effect suspect that he had been taking medicine, for these pills are so skillfully prepared that they do not gripe the bowels; and thus the patient who takes them avoids two evils which attend all other purgative medicines; namely: nausea and pain. Medicine administered in all other sweet forms has the disadvantage of being *mixed* with the sugar, and hence produces a mingled flavor, which, to most persons is more disagreeable than unadulterated bitterness. In these pills this is altogether avoided; the sugar and the medicine being entirely distinct from each other, so that the former must be thoroughly removed before the latter can manifest itself to the taste. It is universally known that nearly all diseases originate with impurity of blood. Pure blood is therefore essential to health. We must not, however, *wait* until the blood is impure, for then it takes time—and that time passed in ill health—to rectify it; but when the slightest derangement of the system is indicated by costiveness, or any other sign, it admonishes us that superfluities are gathering in the system, which should at once be got rid of, for their removal leaves the chyle, (from which the blood is formed) in a healthy state, and purity of blood must be the result. This fact, as stated, is universally known; but people have such an aversion to medicine, that, unless the case is urgent, they prefer the disease to the cure, until an impaired constitution, or a fit of sickness rebukes them for the folly of their conduct. Still they had some excuse; for heretofore, medicine in almost all its forms, was nearly as disgusting as it was beneficial. Now, however, the evil is most effectually removed; for CLICKENER'S SUGAR COATED VEGETABLE EXTRACT PILLS have no taste whatever of medicine—produce none of the nausea and griping, attendant on the operation of other medicine—while their speedy effect in removing all impurities from the system cannot be excelled by any other medicine which has ever been discovered.

It is unnecessary to say more here. If these pills are, as described, the public will freely and gladly patronise them; and the proprietor merely asks a trial, which he is sure of receiving, to prove that he assumes no merit for them which they do not fully possess.

Clickener's Sugar-coated Vegetable Extract Pills are prepared and sold, wholesale and retail and for exportation, by C. V. CLICKENER & Co., Chemists, at the wholesale and retail drug warehouse, No. 79 and 81 Barclay street, New York. Price 25 cents.

CAUTION.

The public should remember that C. V. Clickenener is the inventor of the Sugar-Coated Pills, and that nothing of the sort was ever heard of until he introduced them. Therefore should any other person, seduced by the popularity of his discovery, advertise Sugar Coated Pills, they must be a wretched counterfeit, which it would be dangerous to use, as none but the most ignorant quacks can be found dealing in such a nefarious traffic as palming off counterfeit for genuine medicines.

TO SLAVE OWNERS.

We have returned from the South, and are again in the market with a plentiful supply of the needfull, which we will exchange for every description of negroes, old and young either slaves for life or for a term of years, whose owners have good titles to them, and as it is usual for us to do at all times we will pay higher prices than any other person will do; we can at all times be found here ready to purchase any number. Persons having negroes for sale who do not want them to go out of the State may be assured that any negro we buy under a promise not to send it out of the State, in no event whatever, will it be done. All persons who have negroes for sale, and that want the highest prices for them will please give us a call, and they shall have it. BAKER'S FAMILY VEGETABLE PILLS,

For the cure of Sick Headache, Derangement of the System, Dyspepsia, Ague, Bilious, &c. &c.

It is well known that a few general principles conduct the whole nourishment of the body: then, why not the cure of its diseases. Dr. Rush says, "Disease consists in morbid excitement, and the cure of diseases consists in restoring the equal diffusion of excitement over the whole body." That is by removing obstructions.

This medicine has never failed, when used according to directions, to produce a healthy action, and restore vigor and tone to the system.

Read the following certificates recently received by the proprietor, proving the superiority of this purely vegetable compound.

N. B. To induce persons to give this medicine a fair trial, agents are authorised to refund the money to any one that has used half a box of it, according to directions, without benefit, on returning the remaining half box and writing his or her name on the label.

PRICE—25 cents per box. Each box contains 50 pills.

CERTIFICATES.

Mr Wm. Baker:

Dear Sir: I have used several boxes of your pills in my family, and I think with much benefit. I am not much of a pill man myself, but being somewhat dyspeptic, I am compelled occasionally to resort to purgatives, and I thought I would try your pills. I did so, and I feel no hesitation in saying that I derived as much benefit from them as from any medicine I have ever taken.

Yours, (Signed) WM. HAYNE.

Still Pond, 24th February, 1845.

I have used Baker's Vegetable Pills for soreness in the breast and pain in the side; one dose produced immediate relief. I have sold them to others for Ague and Fever, which disease they completely stop. I consider them an invaluable medicine.

I. ROGERS.

Belle Air, Kent Co. Md. March 22d, 1845.

(Extract.)

I believe Baker's Veg. Pills to be superior to any now used as a family medicine. I have taken them and found them easy in operation, producing little or no sickness at the stomach. They always relieve my wife of sick head ache. They have benefitted my little son, in ague, more than any other medicine he ever took.

WM. H. GODWIN.

Shaw's Mill, Kent Co. Md.

Mr. Wm. Baker. Dr. Sir:

I got a box of your Pills and used them in my family, taking several doses of them myself; and I feel satisfied from the trial I gave them that they are a good pill. I prefer them to any I have ever taken. Be so good as to forward me another box, and oblige,

Yours, respectfully,
HENRY E. BRADLEY.

Still Pond, Feb. 14th, 1845.

I have used Baker's Family Vegetable Pills myself, and have given them to all my family. I have found them in every case an agreeable and gentle purge; always answering the purpose for which they were taken. When taking them, we make no change in our diet. They are decidedly the best cathartic I have ever tried. Until I meet with better, I shall in all cases give them the preference.

(Signed) R W. PIPPIN.

Impurity of Blood Causes Pain, and occasions

Disease upon that part of the body which from any cause may be weakest. Thus, in persons whose blood is impure, should they have a cold, the impure matter would settle upon their lungs, and consumption be the trouble; so with other affections.—All trouble is saved by using the Brandreth's Pills, which cannot injure, and which cannot be overdone. Only use them in the commencement of anydisease, use them in full doses, and you will be up and well, while those who are too wise to take such a simple medicine, are bed ridden, or prematurely end their days. The Brandreth Pills are only beginning to be appreciated; they are found never to deceive; they are the only internal medicine required in this climate. *Be careful of pretended* universal purgatives, which cannot be used without injury to the body as Brandreth's Pills can. What are they? Are they not imitations of the Brandreth Pills recommend in advertisements stolen from Dr. Brandreth? Were they not originally counterfeit pills purporting to be the genuine Brandreth Pills? But in consequence of the new labels on the Brandreth Pill boxs, are they not obliged to come out under others equally false? Observe the makers and travelling agents? Are they not men whom Dr. Brandreth has cast off,—not for good conduct, truly? Is not this true as applicable to the *pretended "Indian,"* and, in fact, to nearly all the advertised pills of the day? Shall the public trust their lives in the hands of these uprincipled men? Surely not. The Brandreth Pills *give strength* for weakness, they are liked best by those who have taken the most of them. Dr. Brandreth can give *personal* reference to thousands who have been *restored* from a bed of sickness by their use, when every other means had proved entire unavailing. These cases are continually occurring in this city, and in every part of the Union. Get Brandreth's Pills if you are not perfectly healthy, and they will restore you if medicine can do it; because they expel those humors which are the cause of impurity of the blood, and, at the same time, the body is strengthened by the operation of this most excellent medicine. Dr Brandreth's Principal Office, 241 Broadway, New York, with English, French, German, Spanish and Portuguese directions, and by one agent in every place of importance throughout the world, each agent having a certificate of agency from Dr. Brandreth, having fac-similes of labels on the Brandreth Pill boxes engraved thereon.

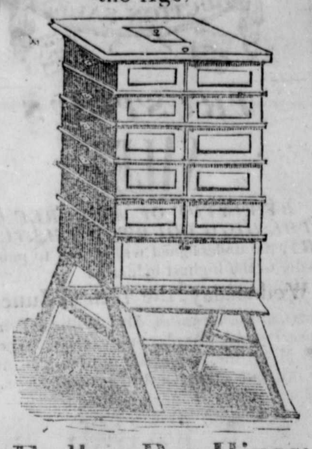
The greatest improvement of the Age.



Endless Bee Hives:

Prosenting considerations to the Agricultural Citizen for its certain, profitable results, for its increased and pure production of an article of domestic comfort or luxury, as well as of health, and for its accordance with the principles of humanity.

An invention is now presented to the public, which, from combining the above qualities, has received the uniform approbation of multitudes of practical and scientific individuals, since its being approved and recorded in the State Department at Washington. The improvements which are claimed for it in confident boldness over all others, are founded upon those correct principles, that will be evident at a single glance of the apparatus. A partial examination thereof will convince not only the intelligent cultivator of these interesting and instructive insects, of its excellent adatapiion to their well being and comfort, but likewise will prove to the casual observer, that perhaps no invention of modern times will afford a surer and greater profit in a pecuniary view, whilst yielding, at the same time, to those curious in nature's economy, that extensive knowledge of this branch of it, which cannot be obtained by any other means at present employed.—With the farmer, it will be evident that the Hive now offered has advantages which he would not be willing to forego at any cost; and with the resident of our towns and cities, there will be the conviction, that he has now afforded him an opportunity, at his leisure, of observing the constitution, government, and operations of a community of insects that have, in all ages and countries, been the wonder and admiration of every one; from the philosopher to the untutored. Wherever exhibited, the invention has called universal approval; and by whomsoever tried, a spontaneous commendation has proceeded from him.—Testimonials of its excellence are possessed by the proprietors in countless numbers; and in those portions of the United States where the hive has been introduced, but one sentiment can be found existing, which is, that in every particular of its claims, it most fuily aad triumphantly comes up to it.

The ease with which the accumulated honey can be removed; and this, too, without injury to a single insect, or without disturbing the bee bread; the young bees, or empty Comb.—Had the invention no other claim to notice or patronage, this virtue which it possesses would be sufficient to secure its universal approval. Who that has ever been cognizant of the fact, that, according to the usual mode of cruelly destroying a whole commonwealth of bees in order to procure the result of their labors, but must know that he is indebted for the enjoyment of a neciared sweet, by proofs which must give no small pain to any breast for the inhuman act? Is he not almost inclined to forego the luxury spread before him, when reminded that he owes it to such barbarity! This now is no longer necessary! Not a bee is harmed; whilst the cultivator can increase his stock from the parent hive, and of course to an unlimited extent, the precious products of their industrious toil.
