For the cure of Coughs, Colds, Hoarseness, Influenza, Tickling sensation of the Throat, Whooping Cough, &c. &c.

Pronounced to be the pleasantest and most efficacious remedy now in use.

Most of the mixtures sold for coughs are composed of spirituous and inflammatory articles, which, while they give a little relief, really do harm. The Imperial Cough Syrup contains no spirituous ingredient whatever, & may be used in all cases not requiring active medical treatment. The Imperial Cough Syrup has been used for the last six years by the most respectable inhabitants of Pittsburgh and vicinity.

SELLERS' VERMIFUGE.

Warranted equal to any now before the public!! No family ought or will be without it after a trial.

WORMS frequently infest children, aggravate all other diseases, and are capable of producing great disturbances in the system, and consequently all medicines given to remove them should be prepared with great care and of the best materials; and it is to be feared that many of the worm medicines in use are totally destitute of these qualities. The Vermifuge which the subscriber now offers to the public, is prepared of the best materials that can be procured; and it is gaining for itself a reputation which entitles it to a large share of pudlic patronage. The efficacy of this preparation to relieve the rising generation from one of its greatest enemies is fully attested by the accompanying Certificates in another column. Prepared and sold by

GALVANISM.

THE subject of COAD'S GALVANIC MACHINE, and its effects, having been already presented to the inhabitants of Kent county, it may be thought unnecessary to reiterate the same: but more recent developments of facts, in relation to the effects produced by this powerful agency within the last few weeks, upon various persons, have induced me to repeat. Perhaps I should not overstep the limits of truth in saying, most confidently, that of all the sanative powers in the wide range of medical research, none can compare with galvanism, for the relief of paralysis, nervous diseases, rheumatism, neuralgia, muscular contractions, or general debility.

Having advised several persons to suspend farther operations till some future time, when the weather might be more propitious, I would most respectfully remind them that the season has now arrived when they may profitably resume these operations commenced in winter, without the hazard of a relapse from exposure as at that inclement season.

It should be remembered that in all chronic cases of paralysis, deafness, neuralgia, blindness or imperfect vision, rheumatism, &c. no very sensible change should be expected from a few operations; though in some cases of general debility, a single operation has apparently given permanent relief. Some have been timid, and seemed to dread the potency of the apparatus from its analogy to the electric shock, as given off by ordinary machines. Such fears, however, are utterly groundless: for it may be applied to an infant of a day old. And it is an established truism, that the more debilitated the general system, the more languid and prostrate the muscular and nervous energy, (in the absence of organic lesion of course) the more sensible is the patient to present relief. Hence we may infer that by a continuance of these operations, in conjunction with other restorative means, health might in many instances be permanently established.

Several certificates of cases have already been offered, and these, with some cases now in progress which promise favourable results shall all be given in due time.

The subscriber being desirous to establish his practice in this community, respectfully solicits a share of public patronage. Every attention shall be given to those who may apply to him. Charges reasonable.

Peregrine Wroth and Hiram Browne, Jr. *a* Margaret Gregory, Elizabeth Bird and John Gregory. } IN CHANCERY, 9th April, 1846.

The object of the Bill in this cause is to obtain a Decree for the sale of James Gregory's real estate for the payment of his debts.

The bill states that James Gregory departed this life in January, 1846, seized in fee of a lot of land being part of a tract of land called "New York," containing one acre and a half of an acre, with small improvements thereon—that he left a widow named Margaret Gregory, of Kent county, and a son named John Gregory, living beyond the limits of the State of Maryland—that the said James Gregory made his last will, by which he devised the said estate to his wife for life, and after her death to his son John Gregory, if living, and if not living at her death to Elizabeth Bird and her heirs forever—that the said widow renounced the devise to her—that the said James Gregory at the time of his death was indebted to the said Peregrine Wroth in the sum of $53 00, and to the said Hiram Browne, Junior, in the sum of $89 31—that the said James Gregory left but a small personal estate, insufficient for the payment of his debts, and that there was no administration upon his estate.

It is therefore *Ordered*, That the complainant, by causing a copy of this order to be published in some newspaper once a week in each of three successive weeks, before the 12th day of May next, give notice to the said absent defendant of the substance and object of this Bill, that he may be warned to appear in this Court in person or by a Solicitor, on or before the 10th day of September next, to shew cause, if any he has, why a decree should not be passed as prayed.
