ORIGIN OF Pinkham's Blood Purifier

Lydia E. Pinkham, of Lynn, Mass., succeeded in producing, from the roots and herbs of the fields, Lydia E. Pinkham's Vegetable Compound, the most successful medicine for women's ailments the world has ever known. After she had put this on the market, women began to write her about their health, because they felt a natural delicacy about consulting any man physician regarding these ailments for which the Vegetable Compound is intended.

She soon found that her correspondents often had complications caused by impure, impoverished blood, and she recognized the necessity of having a reliable blood purifier which she could recommend with confidence as

The Best Spring Medicine

Then, as now, there were many blood purifiers and spring medicines on the market, and after looking into them, she found nothing so good as the old home medicine made from roots and herbs, which she had been accustomed to use in her own family, so she had this made up on a large scale, and furnished it to the stores. It has been very little advertised, but has attained a large sale solely on its merits, and is really a wonderful blood purifier and spring medicine.

It is a good, old-fashioned household remedy made from roots and herbs, which has been used from generation to generation for purifying the blood, removing humors and eruptions, and for that all "played out" feeling.
