KENT NEWS.

CHESTER TOWN, MD.

Saturday Morning, August 22, 1846.

V. B. PALMER,

South East corner of Baltimore and Calvert streets, Baltimore—No. 59 Pine street, Philadelphia—No. 160 Nassau street, (Tribune Buildings,) New York, and No. 16 State street, Boston, is our authorized AGENT for receiving advertisements for, and subscriptions to, the "KENT NEWS," and collecting and receipting for the same.

Washington College.

The recent examination of the Students of Washington College, which we attended in part, resulted most creditably to the Pupils and Professors. The scholars talk Latin "like a book"—they have Horace at their tongues' end," and read the most difficult orations of Demosthenes in Greek, as if they were written in their vernacular tongue. They understand too, the philosophy of the languages, and are ready in a moment to give "a reason for the faith that is in them." At the black board, too, they are equally at home—and the Algebraical solutions of the most complicated questions in Arithmetic, and the demonstrations of the most abstruse problems of Euclid, seem to be almost as familiar to them as "household words," notwithstanding they were promiscuously selected by the Visitors of the College from various portions of the first four books.

We have looked upon the renovation of Washington College upon the old site of Mount Washington, with feelings of peculiar interest and satisfaction. We have watched its advancement, and at no period have felt a keener interest, or a livelier gratification, than has been enkindled by the recent examination and subsequent Exhibition at the Court House. That the Professors are thoroughly skilled in the various departments of literature embraced in a complete college course—that they are diligent, and untiring in their efforts to impart instruction—and that they possess the tact for imparting, and the students the capacity, of receiving and appreciating it, we have the highest and most implicit confidence. We have some experience in sending sons abroad for education, and speak reflectingly when we say, that we would rather have our children taught at Washington College by the present professors, than at distant colleges. Here, their morals are strictly guarded—no temptations to vice, or extravagance are offered; but they are surrounded by a moral atmosphere, which must have a certain and salutary influence in the formation of character. The College is situated upon a beautiful mount of its name, within half a mile of Chestertown, commanding a view of a large extent of country—of Chester River, and sometimes of the Chesapeake, from its Observatory.—Its grounds, or campus, are extensive and handsome—and when embellished with trees, (as we understand it is the design of the intelligent and enterprising Board to do,) will present inviting shades and retreats to the philosopher and the student.

Washington College stands upon an eminence as salubrious as it is beautiful Not a single case of bilious fever has occurred, and the parent or guardian may be assured, that in sending their children or wards to this institution, they send them to a place of health, physically and morally, where they can receive educations unsurpassed by any of the Eastern Colleges. A philosophical apparatus, at an expense of upwards of a thousand dollars, has been provided, and nothing now is wanted but a public hall or exhibition room.

Of the specimens of Declamation at the Court House, we need not speak particularly, as so many of our fellow citizens were present; suffice it to say that every student acquitted himself handsomely, and reflected honour by the performance upon the professors and the Board. The concert in speaking, by both the Principal and Vice Principal, with their several classes, were highly creditable to the whole, and could not fail to make a favourable impression upon the public.

The terms of this institution are moderate, and every inducement is offered to our people to patronize the College which bears the illustrious name of the "Father of his Country."

The studies at the College will be resumed on the first day of October next, and classes are and will be formed and progress until in the regular course, degrees will be conferred in due time upon the seniors according to grade.

A New Paper,

To be published weekly in the city of Baltimore, has just been started. It is to be devoted to the cause of the Whigs, and published at a reduced price. The Prospectus will be found in another column.

Conferring Degrees.

At the late annual commencement of Washington College, it will be seen by the proceedings in another column, that the degrees of A. M. were conferred on the following gentlemen, who are alumni of the Institution, viz: William A. Spencer, Esq., Dr. James Bordley, of Queen Ann's, the Rev. I. T. Cooper, of Philadelphia, the Rev. William H. Bordley, of South Carolina, the Hon. Samuel M. Harrington and Dr. Wm. Maxwell, of Delaware, and James B. Ricaud, Esq. of Kent.

Wheat and Corn.

The wheat crop now being got out, makes but a very indifferent yield. Some farmers have produced a few hundred bushels of an inferior article, where double and treble the quantity was anticipated. The corn crop in Kent will be about one half of an average crop.

Senator Haywood's

Address of nine columns has been published in the Washington papers. It is said to be entirely satisfactory. It is "passing strange" that he should have been denounced for resigning. by the minions of power, when Messrs. Niles, Cameron and Sturgeon should escape condemnation, although they spoke and voted against the repeal of the Tariff of 1842.

[*Communicated.*

WASHINGTON COLLEGE.

The Annual Exhibition of Washington College was held in the Court House in Chestertown on Tuesday last. The Students of the College, with the Professors, marched in procession from the College on the beautiful site of Mount Washington, accompanied by the enlivening strains of music from Capt. Roundtree's band, from Baltimore; before their arrival at the Court House, they were joined by the Visitors and Governors of the College. The house was filled to overflowing, and the large attendance of our fair country women, gave increased interest and brilliancy to the scene.

The exercises were opened by a fervent and eloquent and appropriate prayer, by the Rev. Richard W. Thomas—after which the following pieces of declamation were pronounced, in a manner highly creditable to the Institution, to the Professors, and Students. An appropriate air from the band succeeded each performance; and we have never witnessed a scene of the kind with more thrilling interest, or a livelier sense of gratification. It would be vain, if not impracticable, to discriminate among the Students, when each and all acquitted themselves with so much eclat and honour:

MUSIC. PRAYER. MUSIC.

Declamations—Freshmen.

William Armstrong:
Speech of Adherbal to the Roman Senate, against Jugurtha.

J. Leeds Barroll:
Lochiel's Warning—CAMPBELL.

James M. Vickers:
Speech of Robert Emmett, on his trial for high treason.

Thomas Stockton Wickes:
Character of Napoleon Bonaparte—PHILLIPS.

William L. Wroth
Battle of Waterloo—DELAVIGNE.

STUDENTS OF THE GRAMMAR SCHOOL.

Morgan Browne:
National Self Respect—BEMAN.

John E. Burbage:
The passing of the Rubicon—KNOWLES.

S. Hepburn Blackiston:
Henry V. before the gates of Harfleur—SHAKSPEARE.

Charles H. Davis:
The Battle of Hohenlinden—CAMPBELL.

Thomas S. D. Dodd:
A Briton's Watch-word, and the American's Reply—PIERPONT.

Samuel G. Fisher:
Address to Mont Blanc—COLERIDGE.

Lorenzo Ginn.
In favor of the American Revolution—HENRY.

Samuel Ginn.
Anthony's Oration on the death of Cæsar—SHAKSPEARE.

Joseph N. Gordon:
The American Flag—DRAKE.

Lavinus C. Graves:
Address in behalf of the Greeks—LACEY.

Benjamin S. Greenwood:
Tribute to Washington—HARRISON.

William K. Hall:
American Literature—GRIMKE.

George T. Holliday:
From the Tragedy of Catiline—CROLY.

William H. Lassell:
Extract from Bancroft's Oration on the death of Andrew Jackson.

James A Perkins:
Extract from Dr. Nott's Oration on the death of Alexander Hamilton.

J. Freeman and Joseph Rasin:
Dialogue—Christern and Gustavus Vasa—BROOKE.

A passage from Lalla Rookh—MOORE

William Albert Vickers:
The Power of Eloquence—CAREY

Charles Watts:
Moloch's Oration in the Pandœmonium, persuading War—MILTON

Ezekiel C Wickes:
Downfall of Poland—CAMPBELL

Perry L Wickes:
Catiline's reply to Cicero—*from Croly's Tragedy of Catiline*

William S Stone:
From the Tragedy of the first Brutus—ALFIERI

PRINCIPAL OF THE COLLEGE.

Concert Exercise with a class of eighteen Students
The lost steamship President—EFFES SARGENT

VICE PRINCIPAL OF THE COLLEGE

Concert Exercise with a class of fifteen Students
The base surrender of Naples to the Austrians—MOORE

[redacted].

After the conclusion of the last performance, the President of the College, Judge Chambers, arose, and stated that the degree of Master of Arts had been conferred upon the following gentlemen, who were alumni of the College, but who had not heretofore received their degrees, viz:—Rev. J. T. Cooper, Wm. A. Spencer, Esq., Rev. Wm. H. Bordley, Hon. Sam. M. Harrington, Dr. Wm. Maxwell, Jas. B. Ricaud. Esq. and Dr. James Bordley. The President also stated that the most attentive and searching examination had been made of the Students, and had resulted in the thorough conviction of the whole Board of Visitors, that in all the various departments of their education, they had reflected honour upon the Institution, upon the Professors, and themselves; that they took great pleasure in speaking of the high gratifications of the highest expectations of the Board in the discipline and management of the College, under the present able and efficient professors; and that Washington College could now, with safety and confidence be earnestly recommended to parents and guardians.

After a Benediction, pronounced by the Rev. Dr. Jones, the exercises were closed, and every one left the house highly delighted with the proceedings of the day, which were not marred by a single unpleasant circumstance.

DEATH OF JOSIAH BAILEY, ESQ.

We regret to learn that Josiah Bailey, Esq. died at his residence in Cambridge, Dorchester county, on Friday last. Mr. Bailey was for a long time the Attorney General of Maryland, has served with distinction in the State Legislature, and was perhaps the oldest member of the bar in this State, at the time of his death. He had been for some years afflicted, so as to debar him from the active duties of his profession, and had lived for some time in comparative privacy. He was very far advanced in years, having outlived nearly all his youthful compeers, and, from the nature of the disease with which he suffered his death has been expected for some time. He enjoyed a very high reputation at the bar where he practiced, and shared very largely in the esteem and confidence of his fellow citizens.—*Bal. Pat. of 17th Aug.*

ATTEMPTED ASSASSINATION OF A LADY BY HER BROTHER

Alexander Wilson attempted to shoot his sister, Caroline E. Wilson, a young lady about 18 years of age, in New York on Thursday. It appears that the parties, who are of the highest respectability, are in the city on a visit from the South; that in consequence of the refusal on the part of Miss Wilson to give her brother control over certain property belonging to her, situated in Louisiana, a series of altercations have taken place between them, engendering a considerable ill-feeling on the part of the brother, who took occasion as she was proceeding to the breakfast table of the City Hotel, leaning on the arm of her cousin, to discharge one barrel of a revolving pistol at her, which, however, fortunately did not take effect; whereupon, he made another attempt, which also was unsuccessful, the cap only exploding; after which he fled.

PENNSYLVANIA TOBACCO.

The Columbia (Pa.) Spy of Saturday last says there is a large quantity of tobacco planted in that neighborhood this season. The plants look remarkably fine.—Tobacco is becoming quite a valuable production in this vicinity, and well repays all the toil and trouble of those who raise it. We think that the crop of corn is going to be large this year. The fields look very well, and if nothing occurs to mar the promise between this and the time when it is to be secured, the yield will be great indeed.

TREASURY NOTES.

A New York Letter says: "I understand that the Treasury Department has communicated to the Deposit Banks of this city, that Treasury Notes would be paid out immediately—by which much apprehension of a drain on those banks of their government deposits is relieved.

MONTGOMERY COUNTY.

The Whig Convention that met at Rockville on Saturday, nominated the following excellent ticket for the House of Delegates:

Nathan Holland, James N. Allnutt, Washington Bonafant, Lyde Griffith.

INDIANA ELECTION.

The Indianapolis Journal states that the Senate in Indiana is a tie, and that the Whig majority in the House will be six or eight.

The Boston Journal says that there is an unusual amount of sickness in that city at the present time, particularly among children. The number of deaths there during the week ending on the 8th instant, was 92, of which 65 were under five years of age.

FOREIGN NEWS.

10 DAYS LATER FROM EUROPE.

ARRIVAL OF

THE STEAMER CALEDONIA.

The steamship Caledonia arrived at Boston on Tuesday, with dates from Liverpool to the 4th, and London to the 3d inst.—The intelligence is not very important.

The Cotton market was without any perceptible change.

An improvement had taken place in the manufacturing districts, in consequence of the probability of the new Tariff bill—the news of its passage by the House having already been received.

The value of iron was raised in anticipation of a large export to the United States.

The money market had fluctuated but little since the sailing of the last packet.

The Liverpool papers are filled with an account of the visit of Prince Albert to that place, and the magnificent doings on the occasion.

The Britannia arrived in Liverpool from Boston on the 31st ult.

Louis Bonaparte, Ex King, &c &c, died at Leghorn, of apoplexy, on the 24th ult, aged 67 years.

The Pope of Rome has granted a general amnesty for all political offenders.

The debate on the sugar duties occupied two days, and the government scheme triumphed by a majority of 245 to 135, nearly two to one. This result virtually abrogates the monopoly, and places sugar in the same category as corn, by an easy declension on the high road to free trade.

Sir Robert Peel gave his ministerial measure a generous support, and the greatness of the majority may be traced to that circumstance.

Another attempt had been made on the life of the King of France. While seated at the window in the palace of the Tuilleries to listen to a concert performed by the National Guards on the 30th ult, a man in the crowd drew a pistol and fired two shots at the King. He missed him of course and also those in the vicinity where the King sat. He was immediately arrested. His name is Joseph Henry. He said he was weary of life and resolved to commit this crime as a means of meeting his death.

A Paris paper, the Courier de Francais, says that the Mexican Government has demanded of France and England their mediation, to put an end to the war with the United States. The departure of the frigate Psyche has been delayed several days in order that it may carry the answer to this proposition.

At Berlin, on the 22d ult., Mr. Wheaton, the American Minister, took his leave of the King of Prussia, and Mr. Donaldson was received, in private audience, and presenten his credentials.

A farther fall in the value of Grain has taken place, and harvest operations are proceeding rapidly. The quality of the Wheat is fine, and the yield greater than that of last year.

Business transacted on the 28th ult. was very limited. Wheat had declined 2d to 3d per bushel, and flour 5 per barrel, from the quotations of that day week. Indian corn was in demand, for exportation to Ireland.

Since the Great Western sailed, the arrival of American produce had been small.—Public sales are at present at a decline.

At Havre the cotton market was devoid of animation.

IMPORTANT.

The Washington correspondent of the New York Evening Post, says:

"It is a fact which seems to have escaped general attention, that an amendment to the civil and diplomatic appropriation bill was adopted, providing the ways and means for the renewal of peaceful intercourse with Mexico. I am under the impression from all that I can learn, that a direct proposition has been received from the Mexican government, of which a restoration of peace and the cession of California are principal conditions. In the meantime, however, no relaxation of warlike preparations seems to have taken place."

THE BLESSINGS OF WAR.

Mr. Johnson, in his speech, showed that the appropriations of the session would amount to upwards of fifty millions of dollars, as follows:

Appropriations made,	$20,175,891
Volunteer Bill,	11,057,981
Naval Bill,	4,466,000
Army Bill,	6,803,600
Civil Bill,	3,470,000
P. O. deficiency,	1,500,000
Military Academy,	121,000
Total,	$51,462,891

MR. DUNKINSON.

By the letter of our Washington correspondent, it will be seen that this gentleman, who was recently dangerously wounded in an affray in St. Mary's county, (and whose death was previously announced) is in a fair way to recover.—*Balt. Clipper of 20th Aug.*

OFFICER SHOT.

Godfrey Pope, who was an officer of the Kentucky Volunteers, was recently shot near Matamoras by a sentinel. It was late in the evening, or night; the sentinel challenged Mr. Pope as he approached him; he continued to advance without giving the countersign, whereupon the sentinel fired and killed him. He was put under arrest, but on an investigation of the unfortunate occurrence, he was discharged.

WHIG NOMINATION FOR PRINCE GEORGE'S COUNTY.

The following persons have been nominated as the Delegate Ticket to represent Prince George's county in the next Legislature: Robert W. Bowie, of Nottingham District; Philemon Chew, of Marlborough do.; Thomas Duckett, of Queen Anne's do.; Edward Stephen, of Bladensburg do.

HEALTH OF PHILADELPHIA.

During the past week the number of deaths in Philadelphia was 122—of these 54 were under 1 year of age, and 8 died of consumption.

AGRICULTURAL.

From the American Farmer.

WORK FOR AUGUST.

Shrubbing, destruction of briars and weeds.—This is among the best months of the year for such work, and as it is so, let every farmer feel himself called upon by self respect, to destroy every thing of the kind upon his farm—let his fence corners and sides, pastures and meadows, be releived at once, of these unsightly pests. As cut down or rooted up, have the whole put into piles, and when dry enough have them burnt.

Thrashing out Grain.—As soon as your grain will allow of it, set to work and have it got out, in order that you may avail youiself of the rise of the market should one occur, of disposing of your surplusage. Wheat growers on the Atlantic states, should be particular to place themselves in a position to anticipate the arrival of supplies from the west—there the crops have been unusually large, and as the vent through the Canadas have been closed by the recent Tariff bill of England, we may expect a much larger quantity than formerly to seek the markets of our own seaboard.

Prior to placing your grain in your *Granary*, have that thoroughly washed with *ley*, walls, ceiling and floor, and then white-washed—and stop up every hole and crevice through which a rat or mouse might get his destructive carcass.

Turnips.—This root may be sowed up to the 10th instant. It should, however, have been sowed a fortnight ago.

Buckwheat.—Those who may have been hitherto prevented from doing so, may sow up to the 10th inst. with a fair prospect of its maturing its seed, and of affording a full supply of those delicious breakfast cakes, which make that meal in winter so desirable.

Stubble Fields.—A bushel of plaster, per acre strewn over the stubble fields will encourage a fine growth of white clover, and thereby improve the soil for future culture.

Potatoes.—If the late Potatoes have not already received their last working, give it to them forthwith—let the furrow be flat at top, not rounding. Your ploughing done, strew over each acre of the Potatoes a bushel of lime and salt, as a preventive against the potato rot—and by the way, you might with decided advantage, add a bushel of soot, or ashes, to the mixture.

Clover stubbles, and young Clover fields—These should each be treated to a bushel of plaster per acre.

THE ELECTIONS.

The returns come in slow and and confused. North Carolina has a Whig Governor and Legislature. The Governor's majority is 8,000 or 12,000, being a gain of 4,496 since 1844, and have gained four Senators and lost one.

Indiana has elected a democratic Governor by a small majority. The Whigs have a majority in the house and the democrats a majority in the Senate. Illinois has gave her usual majority for the democrats.

Kentucky has gave the whigs about the same majority as heretofore.

RAILROAD ACCIDENTS.

The train which left Syracuse, (N. Y.,) for the West on Thursday morning, when about a mile below Auburn, ran over an Irishman named Patrick Tay, and killed him instantly. He was a labourer on the road, and was cut nearly in two.

A lad about 16 years of age, named Adams, was instantly killed on the railroad at Lowell, on Thursday. He was standing on a train of cars which were stationary, when another train loaded with bricks passed, and in attempting to jump from one into the other, he lost his balance, and was thrown directly under the wheels. Two or three of the cars passed over his body.

CALIFORNIA REGIMENT.

The New York Express says no transports have yet been engaged to take this Regiment to the place of their destination. The men are still stationed on Governor's Island and much dissatisfaction prevails.—Several serious rows have taken place, and a number are under arrest. Some have left the service.

Captain May was nominated and confirmed by the Senate on the 10th of August, as Lieutenant Colonel, as a reward for his services at the battle of the Rio Grande.

GEN. GAINES.

The result of the examination into the conduct of Gen. Gains is favorable, it is said to the old veteran, and a court martial will not be ordered.

MISSOURI.

The constitution formed by the convention of the people of Missouri, to revise the constitution of the state, has been rejected, it is believed, by a decided majority.

The Hon. Stephen H. Chase having resigned his post as President of the Senate of Maine, David Dunn, Esq. has been chosen to fill his place.

Religious Notice.

The Rev. Mr. Cross, the Seamen's Missionary, will (by Divine permission) preach in the Methodist Protestant Church at 3 o'clock to-morrow afternoon. He will lift a collection for the Seaman's Friend Society.

New York Ploughs,

Minor, Horton & Co's patent—just received and for sale low, by

T W ELIASON

August 22d, 1846.

IN ADVANCE OF THE MAIL!

By sloop Gen. Washington, Capt. Browne.

[*Correspondence of the Baltimore Sun.*

WASHINGTON, Aug. 20, 1846.

There are plenty of rumors now relative to changes in the Cabinet. It is said that Judge Mason will be transferred to the Navy Department, and that Mr. Bancroft will be offered the mission to France. It is positively affirmed that Mr. Buchanan has been tendered the mission to England. Should he decline, Mr. Pickens stands the next on the list. Rumor says that the friends of Mr. Stevenson are urging his claims to a seat in the Cabinet, but it is against the rule to have two members from Virginia at the same time.

CHOLERA IN LONDON.

The Lord Mayor had announced the presence of the Asiatic cholera in some parts of the city.

Markets.

BALTIMORE, August 22, 1846.

Red Wheat—65 to 80.
White wheat—80 to 100.
Yellow do.—52 to 54.
White corn—49 to 51.
Rye—60 to 62.
Oats—27 to 28.
Family flour—$6 00 to 6 50.
Super fine flour—$4 12½ to 4 25
Mercer potatoes—37 to 50.

DIED.

On the 13th inst., at Buck Neck, of conjestive fever, after an illness of 3 days, EDMUND LAYTON JACKSON, aged 5 years, 4 months, and 25 days. Salem N. J. papers please copy.

At his residence, in Worton, on the 4th inst., of pleurasy, Mr. JOHN COLEMAN, in the 46th year of his age;

In Worton, on the 11th inst., of a pulmonary affection, Mr. WILLIAM HOWARD, of Luke.

Near Chester Town, on the 17th inst., after a lingering illness, Mrs. FORD, consort of Mr. Joseph Ford.

SELLER'S celebrated LIVER PILLS, for the cure of the Liver Complaint.

The proprietor of the above medicine, aware of the many instances in which the afflicted have been imposed upon by quack remedies, proclaimed to be remedies for every disease yet hopes that the Liver Pill will not be placed in that class until they are fairly tested.

It is expressly stated "that persons who use these Pills, and find, after following the given directions, that they have not been benefited, shall have their money returned."

This is done that the public may see it is not the purpose of the proprietor to speculate upon their credulity, but to give at least an equivalent for their money.

In addition to the qualities already mentioned, they are highly recommended as Antibilious and Purgative Pills,

Prepared and sold by R E SELLERS, No 57 Wood st Pittsburg.

E M DAWSON & BROTHER, Druggists, Easton, Md. General agents, for E Shore.

☞For sale in Chester Town by Simon Wickes, Jr. Druggist.

August 22d, 1846.
