THE KENT NEWS

CHESTER TOWN, MD.

Saturday Morning, September 19, 1846.

V. B. PALMER,

South East corner of Baltimore and Calvert srreets, Baltimore—No. 59 Pine street, Philadelphia—No. 160 Nassau street, (Tribune Buildings,) New York, and No. 16 State street, Boston, is our authorized AGENT for receiving advertisements for, and subscriptions to, the "KENT NEWS," and collecting and receipting for the same.

WHIG TICKET.

For the Legislature:
WM. F. SMYTH,
S. W. SPENCER,
B. CHAMBERS WICKES.

For the Levy Court:
HUGH WALLIS,
THOMAS D. BURGESS.

Election, Wednesday, 7th day of October.

Centreville Times.

We were as much surprised as the Editor of the Centreville Times, at the abrupt conclusion of the article upon the Queen Ann's Whig nomination for Senator. Our scissors slipp'd, and we felt some chagrin at the circumstance, after the paper issued. In the same article the Editor expressed his hearty concurrence in the nomination of Mr. George, and spoke highly complimentary of the nominee.

The Centreville Times is a sterling Whig paper—worthy of the entire confidence and support of the Whigs.

Biennial Sessions.

We publish to day, for the benefit of our readers, the act passed at the last session of the Legisiature, abolishing annual and establishing biennial sessions of the Legislature of Maryland. The people are to vote upon this act, when they deposite their ballots for Delegates, &c. and it will not become a part of the Constitution, unless sanctioned by a majority of the voters.

We have desired for many years such an alteration in the Constitution as this bill provides—it will be a salutary change in the organic law, and one which we hope will receive the unanimous approval of the people.

That there is too much legislation, seems to be universally conceded. It is a common saying that we have too many laws, and hence the difficulty of ascertaining what the law is. Our State is an old one—her statute book abounds with wise and useful laws, adapted almost to every circumstance and emergency—there is but little necessity for additions to our code, and such as circumstances may require, can be made at biennial sessions, without subjecting the community to any serious inconvenience.

Collateral advantages, growing out of the adoption of this bill, are, an abatement of electioneering excitements, and a considerable saving to the State of her revenue

Delaware, Tennessee, and other States, have instituted biennial sessions, and we have no doubt but their adoption by our State would prove highly beneficial.

TE ELECTION.

The election is now fast approaching, and it is the duty of every good Whig to be *active, vigilant.* Let no Whig be induced to vote against any one of the Whig candidates in the several counties of the State, on account of personal dislikes, but let your duty to the State and Country be ever uppermost in your minds. The honor and prosperity of your State calls loudly upon you to stand fast, and when the cry "CUT AWAY," is heard, let every man be ready to strike, and conquer you must. Looking, as we do, to the period not very distant, when a great and mighty struggle will be made by the freemen of this country, to hurl from power the present party, it is highly, yea it is all-important, to preserve unbroken, the ranks and spirit of the Whig party in Maryland, indeed throughout the Union.—*Annapolis Rep.*

FREDERICK COUNTY.

The Whigs of Frederick county, held their Convention on Saturday, and nominated the following ticket, for the Legislature:

Senate—Dauid W. Naill, of Liberty, (the Whig Gibraltar.)

Delegates—Thomas Turner, of Frederick; Peter Grabill, of Emmittsburg; Jacob Root, of Wordsboro'; Jeremiah G. Morrison, of Petersville; Geo. Daub, of Middletown.

QUEEN ANNES' COUNTY.

The following nominations have been made by the democrats of Queen Annes' county: For Senate, John B. Thomas; Legislature, William Temples, Madison Brown and Jacob W. Legg; Levy Court, Pere Wilmer.

DREADFUL STATE OF SOCIETY.

The whole route from Matamoras to Burita is allve with robbers, who will kill a man for the sake of the coat on his back. Surely Mexico needs regeneration, or a new generation. The masses must be educated.

The New Orleans Delta and Picayune of the 6th inst. were received last night.—The papers of the 7th regularly due, were not received.

LATER FROM THE ARMY.

From the New Orlens Delta, September 6

MOVEMENTS OF GEN. TAYLOR—LATEST.—We have been permitted to persue a a letter from Gen. Taylor, dated Camargo, the 27th ult. In it the General states that he had sent on three hundred mules, two hundred wagons, and one hundred and sixty thousand rations, that he would move on the 1st to the 5the inst. himself to Monterey; that if the enemy did not give him fight there, he would push on to Saltillo, and there arrange his plans for a future and more forward movement.

RIOT AMONG THE VOLUNTEEPS

The Picayune has an account of the riot which occurred among the Georgia volunteers, at Burita, on the Rio Grande:

On the night of the 31st ult. a riot broke out among some volunteers, on a steamboat lying at an encampment opposite Burita, in which several persons are said to have been killed, and others mortally wounded. The particulars of this shameful affair, as we have them, are these. On board the boat were some three or four companies of Georgia volunteers, of these there was one Irish company, between which and some other company a feud had existed for several days.

The quarrel reached its climax on the evening mentioned, and a terrible fight ensued. Shots were fired, and swords and bayonets were used indiscriminately. In the affray some fifteen or twenty persons are reported to have been killed or mortally wounded, and probably as many others were injured more or less. Besides the dead and wounded seen on board and on shore, it is said that eight or ten were forced overboard, who either drowned or died of their wounds.

The rioters were finally subdued, forced to surrender their arms, and placed under a strong guard.

The full particulars of this outrageous transaction could not be procured befored the McKim left. We shall probably hear further of it by the next arrival.

The Picayune gives the names of several of those who were wounded in the affray. We have only space to mention those of Col. Baker of the 4th Regiment of Illinois Volunteers, and one of his offiers, Captain Roberts of company A. Their wounds, however, it is thought will not prove fatal.

A letter in the Delta says—

On the morning of the 1st inst., about 30 of the wounded (some mortally) were lying upon the boat and shore and it was generally believed that the dead (at least 8 or 10) had been thrown overboard. It is said the Colonel of the Georsia Regiment shot several of his own mem, ringleaders in the riot.

The Captain of the Georgia company, while resisting Col. Baker and his 20 brave volunteers, was knocked down with the butt of a musket, and thus disabled in urging his men.

FATAL STEAMBOAT EXPLOSION.

An explosion occurred on board the steamboat Enterprise, on the Rio Grands. This casualty occurred a little after daylight on the 21st ult, about forty five miles above Reynosa. There were over 150 persons on board, and many in the immediate vicinity of and directly over the boilers, who were scarcely injured.

From the St. Louis Republican, Sept. 7.

MORMON AFFAIRS.

Since our last, we hear from Hancock county, that Col. John B. Chittenden, who had been captured by the Mormons, and detained, has been set at large. He was detained a part of a day and one night—part of the time confined in a dark room—and was abused in the streets.

Capt Backenstos, one of Mr. Polk's Captains in the new rifle regiment, still figures in these disturbances. Every day, it is said, he is to be seen at the head of an armed body of Mormons, reconnoitering the camp of the Anti Mormons, at a *respectable* distance.

By the officers of Ocean Wave, we have accounts from the rebellious district up to Saturday evening. The Anti Mormons are encamped about 12 miles from Nauvoo, in number twelve hundred, and daily increasing. It is said that two thousand have volunteered, and will soon be ready for service.

The Anti Mormons were waiting the arrival of Mr. Wagoner, from St. Louis, who was sent hither to get a cannon with which to storm Nauvoo. Immediately on his return they expected to attack the city.

The exact number of the Mormon force in Nauvoo, could not be ascertained, but it was supposed to be as great, or nearly so, as the force of the Anti Mormons. They are determined, it is said, to defend the town to the last extremity. A good portion of the citizens of Nauvoo will, it is surmised, act with the Anti Mormons, when the time comes for them to take sides.

The Norfolk Herald, of Thursday, last says:

"We have seen a letter from the squadron off Vera Cruz, which states that the English steamer which took General Santa Anna to Vera Cruz, was boarded by a boat from the St. Mary's; but the general shewed the boarding officers a pasport *signed by the President of the United States*, and was allowed to land. Santa Ana is said to be at his seat near Vera Cruz, waiting for the "sweet voices of the people" to reach him from the interior. There seems to be a pretty general belief in the squadron, that the war will not last more than two months longer. Perhaps such is the wish among them, for they must be heartily sick of such a service, under such a naval administration as they have had."

CURE FOR THE CHOLERA.

In relation to the cholera, asiatic or otherwise, it is positively affirmed that a wine glass full of Lucca oil (sallad oil) taken on the first moment of attack, it is a sovereign remedy.

LATE AND IMPORTANT FROM MEXICO.

U. S. BRIG OF WAR TRUXTON BURNT.

By the arrival of the U. S. Revenue steamer Legare at New Orleane from Vera Cruz, we are in recipt of letters from our correspondents as late as the 29th ult.—We have but time previous to the closing of the mail to publish the following letter:

U. S. SQUADRON, OFF POINT ANTONIO DE LAZARDO, August 29th, 1846.

The only event of importance which has transpired of late, is the loss of the U. S. brig Truxton, on the bar of the Truxpam river, about 130 miles northward of Vera Cruz. The intelligence was brought to the Squadron on the 19th by the St. Mary's that ship having picked up one of the Truxton's boats, with Lieutenant Berryman on board.

It appears that Captain Carpenter of the Truxton, wishing to get his vessel near shore to protect his boats while obtaining provisions, employed a Scotchman he had taken of a Mexican prize to pilot him in, but who, whether from design or accident, run him aground on the 15th. On the 17th with the exception of Lieut. Hunter and a boat's crew, she was abandoned by the officers and men, who went ashore to the number of about 60 in all, and surrendered themselves to the Mexican commandant.

They were hospitably received, complimented with a a ball and left next day with a guide of four men for Tampico, about 100 miles further north. Lieutenant Hunter and his boat's crew put to sea, captured a small Mexican schooner and came down to our present anchorage, making in all two officers (Lieuts. Berryman and Hunter) and about 20 men saved. As soon as the news was received the Princeton immediately got under way and proceeded to the scene of disaster.

The Truxton was found beating on the bar, bilged and completely filled with water, having about 4 feet over the birth deck. The surf was so violent on the bar that it was not until the 22d that the boats of the Princton could board her, when finding it impossible to get her off or save her, she was fired and completely burned. A few of the best spars were brought off, but otherwise she is a total loss.

She had been completely plundered and staipt by the Mexicans before the arrival of the Princeton. Her guns were found to have been thrown overboard. The Princeton ran into 5 fathoms water (she draws 19½ feet) and was then about 1½ miles distant; the swell was so heavy that a nearer approach in shoaled water was deemed dangerous.

After firing the brig, the Princeton returned immediately on the 23d to this present anchorage about ten miles southward of Vera Cruz. At the mouth of Tuxpan River the Mexicans have a small force tented in sheds. The town of Tuxpan is back some eight miles distant. Several communications passed between the Princeton and shore by flags of truce, and by them the fate of the captives was learnt.

The Cutter Legare, 60 hours from Brazos, arrived on the 25th with despatches for our Commodore; supposed relating to a three months armistice with the Mexicans. The distance from the Brazos to this place is 450 miles, and was performed under steam against strong head winds. The Legare returns to New Orleans for repairs to her boilers, which are in a bad condition, and prevents her carrying steam.

About ten days since Santa Aanna left Vera Cruz for the city of Mexico, previous to which, however, he sent a polite invitation to our Commodore to meet him on board the English frigate Endymion; the interview did not take place. A few days back, one of the English frigate's boats came down in a violent rain squall with a communication for the Commodore; the next day a flag of truce was returned, but no rumor of the business has transpired.

The frigate Potomac is nearly disabled by the sickness of her crew; the scurvy has broken out on board of her, and she has now 140 cases of the dreadful disease.—On the 27th, the Cutter Forward arrived from the Balize, but brought no intelligence of importance.

The following is a list of the officers attached to the Truxton, who have gone to Tampico:

Commander E. W. Carpenter; Acting Master Isaac N. Briceland; Passed Midshipmen John P. Bankhead, George B. Bissell; Purser George F. Cutter; Assistant Surgeon John S. Messersmith; Midshipman Simeon S. Bassett; Captain's Clerk, H. Wilkinson; together with about fifty petty officers and seamon.

Lieuts. Hunter and Berryman are on board the St. Mary's.

HEALTH OF ST. MARY'S COUNTY.

Notwithstanding the excssive hot weather which we have had for several weeks past, our county continues remarkably healthy for the season. But few of our citizens have been troubled with the Ague and Fever, and cases of the Bilious, which is usually very prevalent about this time, are quite rare, even along the water courses.—*Leonardtown Beacon.*

LATER FROM TOBASCO.

Another Revolution.—By an arrival at New Orleans, advices have been received from Tobasco to the 30th ult. A revolution had taken place there in favor of Santa Anna.

On the 12th of August, the garrison stationed at San. Juan Bautista declared against the government of Paredes and for the ex-President.

We learn from the National Intelligencer that the President and Directors of the Chesapeake and Ohio Canal Company, on Wednesday week passed an order directing the removal of the office of the Company from Frederick city to Cumberland, at which latter place the Board of President and Directors will meet on the first day of next month.

CHAPTER 269.

An act to alter and amend the Constitution and form of Government of the State of Maryland, so as to substitute Biennial for Annual sessions of the Legislature, and for other purposes.

SECTION 1. *Be it enacted by the General Assembly of Maryland*, That the first election for delegates held in pursuance of this act, shall take place on the first Wednesday of October, in the year of our Lord eighteen hundred and forty seven, and on that day forever thereafter, elections for delegates shall be held once in two years.

SEC. 2. *And be it enacted*, That the delegates elected on the first Wednesday in October, eighteen hundred and forty seven, and at all succeeding elections forever thereafter, shall be chosen for two years.

SEC. 3. *And be it enacted*, That the General Assembly shall meet on the last Monday in December, eighteen hundred and forty seven, and on the same day in every second year forever thereafter, and at no other time, unless convened by proclamation of the Governor, who shall have full power to convene the same, whenever he may deem it expedient and proper.

SEC. 4. *And be it enacted*, That from and after the first election of delegates, held in pursuance of this act, the officers to be appointed by the Governor, with the advice and consent of the Senate, as now provided, shall be biennial instead of annual.

SEC. 5. *And be it enacted*, That it shall be the duty of the Treasurer of Maryland, to transmit a written statement of the condition of the finances of the State, to the Governor, on the first Monday of January, eighteen hundred and forty eight, and on the same day in every year thereafter, in which the legislature does not convene.

SEC. 6. *And be it enacted*, That if this act shall be confirmed by the General Assembly, after a new election of delegates, at the first session after such new election, agreeably to the provisions of the constitution and form of government, then and in such case, this act, and the alterations and amendments of the constitution therein contained, shall be taken and considered, and shall constitute and be valid, as a part of said constitution and form of government, any thing in the said constitution and form of government, to the contrary notwithstanding.

And whereas, it is to be desired, that the next legislature may know whether so important an alteration in the constitution and form of government of this State, as is contemplated by this act, is in accordance with the will of the people; therefore,

SEC 6. *And be it enacted*, That at the next annual election, for delegates to the General Assembly of Maryland, the judges of election of the several cities and counties of this State, shall inquire of each voter, as he casts his ballot, whether he is for or against the provisions of this bill, and shall record his vote accordingly, and the said judges shall make a due return of the respective number of votes cast for, and those against the same, in the same manner as returns are now made of the votes cast for the Governor of this State; and any judge of election failing to make return as aforesaid, shall be subject to all the penalties for the non compliance with the existing election laws of this State.

TERRIBLE STEAMBOAT ACCIDENT AND LOSS OF LIFE.

We have just received a telegraphic despatch from New York, announcing that the boiler of the steamboat Excelsior exploded this morning as she was leaving the wharf at New York for Coxackie. There were some forty or fifty passengers on board at the time of the explosion, some of whom lost their lives, but how many, or what their names are, I have not been able to ascertain. Several are said to be badly injured from scalding and otherwise. The boat soon became enveloped in flames and smoke and she was finally burnt to the water's edge. The greater number of the passengers fortunately saved their lives by leaping overboard on the Jersy shore. It was a most frightful scene and a distresing calamity. The boat was a new one and had been launched but a short time. It is not known what was the immediate cause of the explosion.

The Richmond, (Va,) Palladium announces the death of Gen. Marstin Green Clark, who died near that place on the 25th ult. in his 75th year. The Palladium says:

He was born in Lunenburgh county, Virginia, on the 12th day of December, 1771; and *was one of a family of twenty-nine brothers and two sisters, by the same father and mother.*

DREADFUL CASUALTY.

A German, recently from Missouri river, was killed by lightling, on the 4th inst. at the house of Mr. O. Hoeff, corner of Randolph and Twelfth strreets The house was torn to atoms, but a lady and three children who were in the basement were not injured.—*St. Louis Union.*

FATAL AFFRAY.

We learn from the Vicksburg Whig that a few days ago, in an affray, Col. Wilkinson was shot and killed by Col. W. B. Minor. Edward Wilkinson, his son, was fatally wounded in the same affray, which originated from a law suit.

SUDDEN DEATH.

Mr. John D. Lebree, of Boston, a young gentleman of talent and worth, died on Friday morning, at the U. S. Hotel, Philadelphia, after a short illness. He came there to be married, but unfortunately grim death forbade the bans.

An Irishman named Patrick Riley, a laborer on the Vermont and Massachusetts railroad, was killed at Ashbunrham on Thursday night last by two Irishmen named Mellvane and Sugare. The homicide grew out of a quarrel about a pipe! The murderers were committed for trial.

MAINE

The Independent Democrats of Maine, at their Convention held in Bangor, on the 8th inst. nominated the Hon. Alfred Johnson, of Belfast, as their candidate for Governor.

Drum Beating.

MR. EDITOR:

At a very late and unseasonable hour on Thursday night, a drum was beat through the Main street of our town, to the annoyance of many citizens, and in direct violation of an Ordinance of the town. It is unnecessary to inquire who or where the Bailiffs were, or whether they took any steps to find out and punish the offenders? Their *uniformly vigilant and searching discharge of their duties, in every particular* and *on every occasion, can furnish an answer.*

WIDE-AWAKE.

September 18th, 1846.

There were 247 deaths in New York last week. Of this number 108 were adults and 139 children.

DIED.

Suddenly, near New Market, on the 17th inst. Mrs. ——— MARSH, consort of Dr. Marsh.

At the residence of his father, on the 15th inst. JAMES ALFRED, son of Edward and M. Hartley, aged 7 months and 1 day.

CLICKNER'S SUGAR COATED PILLS.—Solomon to the contrary notwithstanding, there is something new under the sun. In Solomon's time physic was a lesser evil to rule a greater one; and when his sagacious majesty had the head ache, the dyspepsia, or any of ills the flesh is heir to, he had to get rid of them at the expense of gripings and nausea, that were nearly as hard to put up with as the diseases themselves. Had he lived in these days, however, he would have found matters most happily changed in this respect, for Dr. Clickner, who is just now making such a noise in the world has invented a medicine, which is not only not a "lesser evil," in the way of nausea, griping, and such like usual attributes of all other medicinal compounds, but an actual luxury, for it leaves patients under the impression that they have only been regaling on first rate peppermint lollypops,—and expels the disease, purifies the blood, and regulates the bowels, without giving any further evidence of its presence. In serious truth, Clickner's Sugar Coated Pills are the best general medicine that has been ever introduced, for they have all the purifying advantages of physic, without any of those drawbacks which makes physic such an aversion to most people.—Having used them ourselves we can say thus much in their favor, and are no longer surprised at Doctor Clickner's great reputation and popularity, and at the reports every where current, that wherever his pills are introduced the use of all others becomes a thing of the past.

SELLERS' IMPERIAL COUGH SYRUP.

Pittsburgh, Feb 6th, 1846

MR R. E SELLERS:—Though I do not believe any further testimonials are necessary to establish the reputation of your justly famed Cough Syrup, I feel compelled as an act of duty, to mention several cases which came under my immediate notice in members of families whom I was in duty bound to relieve at any cost; complained of hard breathing, a severe cough and no expectoration, loss of appetite, with strong symptoms of pulmonary consumption. I mentioned your Syrup, and they begged I would procure some, which I did I am happy to report that they are quite relieved, the Syrup having produced the desired effect in every instance. You are well assured of its good effects upon myself. Hoping that this may reach the notice of persons suffering from coughs and colds, I remain your obedient servant,

The caterpiller is doing great injury to the cotton crop in South Carolina. A letter from St. Helena, Sept. 1, says:

"The caterpillars have covered the whole field, and will now make quick work of it. If they will be satisfied with the leaves, there will be something left—but when they will stop, or what they will do, remains to be proved. I have picked 10 or 12 bushels of the worms, and 60 bushels in the chrysalis state—which, I think, will keep them back at least one week."
