KENNEDY VILLE NOTES.

The annual treat for the Sunday School was distributed to a large number on Sunday morning in the church; Mr. John Medders, the cheerful, happy superintendent, acting as Santa Claus, but not disguised.

Mrs. Tilghman Shafer is improved at this writing.

Mr. Wm. S. Hurlock has purchased a farm near our village, on the State road leading to Chestertown. The dwelling house on said farm and premises have been greatly improved and with the delightful location makes an ideal country home. His daughter, Miss Ada, a student of Western Maryland, is at home for Christmas.

Rev. and Mrs. F. H. Mullineaux, by special invitation, took Christmas dinner with Mr. W. M. Clendaniel and family. Their son, William, of Western Maryland College, is spending his Christmas holidays at home, and reports everything at the college in first-class condition.

Mr. Hartley Weer, of Sparrows Point, took Xmas dinner with his parents, Mr. and Mrs. James H. Weer.

Mr. and Mrs. Howard Clendaniel spent Christmas day with a sister in Millington.

Mrs. Samuel J. Comley, of Locust Grove, wife of the efficient worthy secretary of the Kennedyville Grange, has been in very ill health for a number of weeks past. The great heart-felt sympathy of the members of said Grange was expressed through one of the members at the last meeting, and since that time a letter of condolence has been forwarded to Brother Comley from the Grange, expressive of their deep sympathy in this time of his wife's affliction.

The Pie Social of Mrs. Wm. T. Baxter's Sunday School class and other ladies of the M. P. Church, held in Weer's Hall last Tuesday night, was a great success from every standpoint; so much so that in the near future another good time of the same nature will be given by the Junior C. E. Society, Mrs. L. A. Pennington, superintendent.

Rev. F. H. Mullineaux was the recipient of a purse from the church of which he is pastor, presented through a committee of two of the ladies, and for this he wishes to express grateful appreciation.

The familiar form of the old colored man of Kennedyville, Charley Mitchell, doing odd jobs, is no longer seen in our village. He succumbed to pleurisy last Friday morning; interment in Still Pond colored burying ground.

Hick's Forcast for January.

A reactionary storm period will make tself felt, in a progressive way, from west to east, central on the 2d, 3d and 4th. This period is at the centre of a Venus equinox, with Moon at full, in perigee and at north extreme declination. It will bring decided rise in temperature, falling barometer, with rain, turning to snow and sleet as storms advance eastwardly across the country. A seismic period, covering six to seven days is central on the 4th. Great extremest from high to low winter temperatures will mark this and other January periods.

A regular storm period, central on the 7th, covers the 5th to the 9th. This period, under the Venus influence, promises to take up the disturbances immediately preceding it, causing a prolonged spell of stormy, disagreeable weather. The period will culminate on and touching the 9th, with sudden change to freezing, blizzard and high wind gales. A very low barometer at the first stage of these storms will be warning of a great and far-reaching cold wave, which will prevail generally, and far into the south, from about the 9th to 12th.

A reactionary storm period is central on the 13th, 14th and 15th, at which time the general cold will relax, the barometer will fall and cloudiness with rain and snow will pass eastwardly across the country.

A regular storm period covers the 17th to the 21st, central on the 19th, with new Moon. The Mercury period is central on the 18th. A furious cold wave will wind up the storm turmoil, say about the 20th to 23d.

A reactionary storm period falls centrally on the 24th, 25th and 26th. The Moon passes the celestial equator on the 24th, which fact always brings marked tendency to higher temperature, drop in barometric pressure, and electrical disturbances. Thunder and lightning, even in winter, as a rule, result at the transits of the Moon over equator.

A regular storm period is central on the 30th, reaching from the 29th of January, to the 2d of February. January will go out with falling barometer, rising temperature, growing cloudiness, and rainstorms in western sections, moving eastward.

Jack and Jill went up the hill to get a pail of water,
For Jill to wash her Dolly's clothes, as Anty Drudge had taught her,
"Rub with Fels-Naptha soap and put them in,
They'll be as white and as clean as a new pin."

What time on washday do you get through with your washing?

Ten o'clock, noon, three o'clock or night?

If you do it the old-fashioned, boiling, hot water, hard rubbing way, you're lucky to get it done by sundown.

If you wash the Fels-Naptha way in cool or lukewarm water without boiling or hard rubbing, you can be done well before noon and take it easy all the time.

And your clothes will be cleaner, fresher, sweeter than ever before.

Fels-Naptha Soap is a great time-saver. In Winter and Summer.

A half-day every washday means twenty six days a year saved by washing with Fels-Naptha Soap.

Isn't that worth while in addition to the saving on clothes, fuel, health and labor?

Time is money.

Use Fels-Naptha Soap every washday and save it.

Follow directions on the red and green wrapper.

The J. E. Baker Co. Now Offers For Sale

Victor Fine Ground Limestone

THE BEST WAY TO LIME: The United States Government and the Pennsylvania Agricultural Experimental Stations are now recommending Finely Ground Limestone as the best way of applying Lime to the soil. It does not destroy manure, there is no danger of burning your crops, it keeps for years, and can be applied at any time or season.

EASIEST AND CHEAPEST TO USE Comes packed in canvas or paper bags. Can be easily handled, and kept in storage indefinitely, without change or loss. No more laborious slacking, no more choking dust, nor scalding burns. Can be drilled into the soil, or sowed on the surface and harrowed in. Saves half the cost of the old way of applying Lime. Is cheaper and better.

GIVES MAXIMUM RESULTS It has been proved that very Finely Ground Limestone produces, as a fertilizer, the same results pound for pound as air slaked Lime, or any other commercial fertilizer, and because VICTOR Fine Ground Limestone is the purest, most Finely Ground Limestone on the market, and because it destroys no manure or crop, it gives much better results than any other burned or hydrated Lime made.

See your local agent or write.
