DEMOCRATIC WHIG NOMINATIONS.

FOR GOVERNOR,

Wm. T. Goldsborough,

OF DORCHESTER COUNTY.

THE ELECTION

FOR GOVERNOR.

The two candidates for the Gubernatorial office, Mr. Goldsborough and Mr. Thomas, are fairly in the field and the public will begin to weigh their respective principles, public acts, merits and probable course of policy, preparatory to bestowing their suffrages upon either. That they are both courteous gentlemen, of good standing and reputation, we have no doubt, and while their private relations will be free from remark, their public acts, and policy, will be fair subjects for free and proper discussion. The present policy of our State Government, is to pay the public debt. Gov. Pratt has labored assiduously to originate and carry out a system of measures to pay punctually, the interest on the State indebtedness, and a sinking fund, provided heretofore, will ultimately discharge the principal. The past Legislation of the State, has provided the necessary revenues from taxation, to effect these objects. Repudiation has been no part of the policy of the State—but as among individuals, the payment of debts, is considered of vital importance so the preservation of the faith credit and honor of the State by a meeting of her liabilities, has been considered essential to our character as a Government.

Mr. Goldsborough, if elected, will, as a matter of course, it being the policy of the State, to carry on and out the measures now in operation to redeem the honor of the State by fulfilling all her engagements. What course Mr. Thomas would pursue in regard to the liquidation of state indebtedness we are left to conjecture, but that the policy of Gov. Pratt would not have been his policy, we are authorised to infer from a Bill introduced by him into the House of Delegates, at December session 1843, when a member of that body from Talbot county.

It is known to all, that the public indebtedness was occasioned by immense subscriptions for stock in the various internal improvement companies, that these works proved, generally, unproductive—some wholly so, that the stock fell in the market and in one of the companies to an almost nominal price. While the State was called to pay the interest on her stock, she was receiving comparatively nothing, except as a portion of it because of the unproductiveness of the works and the stock would not sell except at an enormous sacrifice. While this state of things existed, Mr. Thomas on the 8th March 1844, introduced a bill "entitled, an act for the sale of the interest of the State in the works of internal improvement, and for the payment of the public debt." The Bill is a long one, covering 10 pages, but we will publish the 1st, 2d and 8th sections, as a sample of the whole. The difference subscriptions for stock, are referred to and provided for in the other sections of the bill.

It will be seen that Mr. Thomas proposed by this bill to transfer the State's stock to the holders of the State's Bonds, on delivering up of the Bonds to the State, and rating the stock at *the par value*, while stock, was probably not worth 50 cts. in the dollar. Although it was to be an *apparently voluntary* exchange of Stock for Bonds, yet as a means of coersion on the Bond-holders or creditors of the State.—Mr. Thomas repeals the revenue and tax laws of the State—thus cutting off all sources for payment of the interest, all hope on the part of the creditors of ever having their debts discharged and exerting over them a moral compulsion to make the exchange at a ruinous sacrifice to themselves and families. It will be recollected that many of these creditors are citizens of our State, who relying upon its good faith and credit invested the moneys in State Bonds, expecting to receive punctual payment of interest and of being able to transfer at any time these public securities for a full and valuable consideration.

If Mr. Thomas' Bill had become a law, what would have been the condition of the public creditors, some of them widows and minors? Happily for them, and for the character of the state better councils prevailed, and the state is now placed on a high and enviable positions. Call ye this Repudiation?

A BILL

Entitled an act for the sale of the interest of the State in the works of Internal Improvement, and for the payment of the Public Debt.

Sec. 1. *Be it enacted by the General Assembly of Maryland*, That on the delivery to the Treasurer of the Western Shore of Maryland, the bonds of the State to the amount of three million six hundred and ninety seven thousand dollars, authorised to the Baltimore and Ohio Rail Road company by acts of the General Assembly, to wit: act of eighteen hundred and twenty seven, chapter one hundred and four, act of eighteen hundred and thirty, chapter forty six, act of eighteen hundred and thirty three, chapter one hundred and five, and act of eighteen hundred and thirty eight, chapter three hundred and eighty six, or on the delivery of any portion of said bonds to the said Treasurer, he the said Treasurer is hereby authorised and directed to transfer to the party or parties so surrendering the whole or any part of said bonds, a share or shares in the capital stock of the Baltimore and Ohio Rail Road, in exchange for the same at par calculating the value of each of stock so to be transferred at par value thereof.

Sec. 2. *And be it enacted*, That on the delivery to the Treasurer of the Western Shore of Maryland, of the five hundred thousand dollars of bonds authorised to be issued by the act of eighteen hundred and thirty three, chapter thirty three, for the construction of the Baltimore and Washington Rail Road, or on the delivery to the Treasurer aforesaid, of any lesser portion of said bonds the said Treasurer be, and he is hereby authorised and directed to assign and transfer to the party or parties surrendering said bonds or any portion of them, a share of stock in the Washington Rail Road to an amount equal to the amount of bonds so surrendered calculating the value of said stock at the par value thereof.

Sec. 8 *And be it enacted*, That so much of the several acts passed at March session eighteen hundred and forty one, chapter twenty three, and at the December session eighteen hundred and forty one, chapter three hundred and twenty five, and chapter two hundred and ninety seven and chapter two hundred and eighty two, and chapter one hundred and ninety four, and chapter two hundred and eighty, and chapter three hundred and twenty nine, and the several supplements thereto, as imposes a tax to raise revenue to pay the interest on the public debt be, and the same are hereby repealed; provided, that nothing herein contained shall be so construed as to prevent the levying and collecting of the taxes imposed by said acts for the years eighteen hundred and forty one, eighteen hundred and forty two and eighteen hundred and forty three.

Correspondence of the American.

CHESTER RIVER, July 10, 1847.

Our Wheat harvest is over, and the grain was never better, weighing per bushel sixty-three and sixty-four pounds. It is conceded that more bushels are made this than last year, and already some is on its way to market. The latter rains have improved the Oat crop, and far more will be made of this article than was expected. In many fields where it was supposed they would not attain a growth sufficient to be saved, now it is seen they can easily be cut with the scythe and cradle. In other fields they are just as good as in common years. As it respects the Corn crop, the prospect is most brilliant, and a few more rains will make the early planting. Double crops were generally pitched last spring, and in some instances triple; and if seasonable rains come in the latter part of this and first of next month, the people in this section of the State will have great cause to rejoice and to be grateful to a kind Providence for the abundant product of the earth. E.

We cut the above from the Baltimore American. The information about crops is different from all we have received.—The grain of the wheat is superior, but the quantity is lamentably short if our accounts are correct. A great many farmers have not reaped more wheat than they sowd, and a number not as much, and the instances are very rare of a full crop. The Oat crop has improved but we have not heard a dissenting voice as to the shortness of it. The corn crop looks very well and promising, if the season continues good, a fine yield will be realised. We have heard of some farmers who pitched larger crops than usual, but we had not before heard that double crops have been generally pitched. Our farms are generally cultivated on the threefold system and a double quantity of corn with the ordinary wheat or oat seeding would have left no pasture for stock. We suppose an addition of a fourth had been added to the corn tillage. We think the C. River correspondent has been misinformed very materially.

Candidate for Congress.

It will be perceived that a county meeting of the Whigs is called on the 27th inst. to appoint four persons as delegates to the Congressional Convention to be held in Chester Town on Thursday the 29th inst. It is hoped that our Whig friends will turn out on the occasion and manifest the Whig spirit of 1840

☞The unusual number of advertisements has crowded out a great many articles we had prepared for this week's paper.

COL. WM. R. STUART has been appointed by Gov Pratt, a Lottery Commissioner in the place of James Harwood, Esq. deceased.

☞There were 119 deaths in Baltimore last week.

At a meeting of the physicians of Kent county held at the Court House in Chester Town, on Wednesday July 14th, for the purpose of forming a County Medical Society, Dr. Thomas Willson was called to the chair and Dr. Hargrove Hinckley appointed secretary. The object of the meeting having been stated, a committee of three was appointed consisting of Drs. P Wroth, J. Fisher and J. Heighe, to frame a constitution and By-Laws.

The committee after conferring together reported a constitution and code of By-Laws, which were adopted by the meeting. It was resolved, that the name of the Society be termed "The Kent County Medical Society."

An election of officers for the Society was entered into and resulted in the unanimous choice of Dr. Thomas Willson, for President; Dr. Hargrove Hinckley, for Secretary, and Dr. Peregrine Wroth, for Treasurer.

Drs. Jacob Fisher, Thos. C. Kennard and James Heighe were appointed a Committee of Arbitration.

Drs. Thos. C. Kennard and James Heighe were appointed delegates to the first session of the "American Medical Association" to be held in Baltimore next spring

It was resolved that these proceedings be published in the Kent News. Upon motion adjourned.

Late from Tampico.

Threatened attack of Urrea—Release of American prisoners—Large Mexican Escort Approaching.

The New Orleans Picayune of the 7th instant announces the arrival of the schooners Sarah and Major H. Bache, from Tampico, both having sailed on the 27th ult.

By these arrivals the most interesting news relates to the American prisoners in Mexico. All the accounts, verbal and written, agree that intelligence had been received at Tampico that Majors Gaines and Borland, Capt. Clay and the other American prisoners in Mexico had been released, and ordered to Tampico under a large escort. This escort was said to consist of 900 men.

The verbal reports which have reached us, are to the effect that when the prisoners had reached within 150 miles of Tampico, they were met by Urrea who detained them as prisoners. The story is further, that Urrea had ordered out all the men of the country, that could be raised, for the purpose of making an attack upon Tampico. It appears to be certain that such was deemed the imminency of an attack that three companies of the 11th infantry, which were waiting at Tampico for transportation to Vera Cruz, were ordered up into the city. Every man there was under arms expecting the town to be attacked.

We have heard so frequently of the apprehensions of an immediate attack upon Tampico, that very little attention is paid to them. The present alarm appears to be better founded than usual. We see no reason to doubt the report of the release of our prisoners; of their encountering Urrea and his treatment of them. We have nothing but the reports current in Tampico, and credited by Captains Farwell and McDowell, of the schooners which have arrived.

The Sarah was boarded on the 28th ult., off Soto la Marina from the U. S. brig Hecla, blockaking the port in company with U. States schooner Flirt.

A SINGULAR SCENE ON THE GALLOWS.—A young man, named Charles Coglin, was hung last week in Canada, for the murder of Richard Oliver. The culprit made a lengthy speech to the assembled crowd, and exhibited the most stoic indifference to his awful fate

The father and brothers of the prisoner were eye witnesses to his execution. One of the brother's said, "that's a brave lad," and his father cried out, "you got no justice in court. Where's the justice you ever got from your enemies?" The convict's answer to this absurd question, was. "no, I never got justice" He was reminded that he was abusing his limited time, and requested to prepare for his end, on which, he cried out at the top of his voice, "three cheers for the Queen—three for Dan O'Connell—three for the Green Isle, and the mercy of the blessed Saviour be with ye."

THE New Orleans Daily National, of the 5th inst; has the following item of news:

Important if True.—Just as our paper was going to press, we were informed by a gentleman in whom we have every confidence, that a report from a respectable source reached this city from Mexico, last night, that a dysentery of a malignant character had broken out among our troops at Puebla, and that it is believed the Mexican venders of milk, pulque, liquors, etc., poisoned those articles with a certain poisonous vegetable, which grows in the neighborhood. We believe the rumor entitled to credit, and hope Gen. Scott will hear of it in time to prevent an extension of the diabolical plot.

THE VALUE OF LADIES.—It was stated at an Anniversary Meeting of the Ladies' Bible Association in England, that a calculation has been made at Birmingham respecting the proportionate value of the services of gentlemen and ladies, as collectors for charitable and religous purposes, and it was found that one lady was worth thirteen gentlemen and a half.

WE learn from the Somerset Herald that the Hon. Ewd. Long, the late distinguished representative in Congress, from the 6th Congressional District, declines being a candidate for re-election.

VERMONT.—We learn that the whigs have nominated Hon. Horace Eaton, present incumbent, for Governor. The locofocos have nominated Hon Paul Dillingham, late member of Congress in the Montpelier District.

YOUNG MAY AND OLD DECEMBER.—At Lafayette, N. Y., the other day, Claricy Babcock, a young damsel of 23, was *matrimonially tied* to an old chap of 74, by the name of Erastus Paker.

☞Whem Mr. Polk says he knows no party but the whole country, Prentice thinks that it matters not whom or what Mr. Polk knows, as the whole country knows HIM.

☞Louisiana has been called on for two companies of mounted gun men for the defence of Vera Cruz.

☞Richard Biddle, formerly a member of Congress from Pittsburgh, died on the 6th instant.

MARRIED,

THE AGE OF IMPROVEMENT.

One of the most important discoveries of the age, in ameliorating the condition of this large large class of suffering humanity, consumptives, is Dr. Wistar's Balsam of Wild Cherry. What time establishes and consecrates, what experience adopts a confirms, what all men in all places unite in saying is good and valuable, is so, doubt. A popularity of this sort fixes in society its roots so deep and so strong, that time cannot destroy it. The success which has attended this medicine for several years past, has overcome the prejudices of all respectable and sensible men and the the article has taken a stand among the first class of discoveries and blessings of the age; and when resorte to in season eradicates the diseases for which it is recommended.

POSTSCRIPT

By Sloop Gen. Washington, Capt. Browne

Later from Mexico.

About 800 mules have escaped from the Americans at Vera Cruz. The Picayune says—

Gen. Scott had not been able to leave Puebla. He was awaiting the reinforcements under Gen. Cadwalader and Gen. Pillow, who had not then arrived.

We are unable to throw much light upon the movements of Gen. Cadwalader and Gen. Pillow. The latter is said to have been compelled to contest the road with the guerilla parties till beyond Cerro Gordo. Guerilleros took advantage of every defile to resist his progress. His loss is said to have been severe.

☞Mr. McDuffie of S. C is said to be dangerously ill.
