best on the market.. Now it's better than ever before. You get more

for your money, because it gives a faster knock-down, a greater kill and

will repel flies for a longer time. Test after test has shown it to be much

superior to anything I have sold before. It is clean and odorless, will not

gum up the hair or hide of your cows and can be used in the barn or

milkhouse without tainting the milk. It is so clean that it can be used

in the house, without staining or discoloring curtains, rugs or draperies.

It's economical, too, because many dairy men report that they have

NO OTHER OIL FURNACE

can be like this

THE new G-E Oil Furnace eliminates two big causes of heating waste. First-it burns oil in a new way that "wrings out" from every drop the last unit of practicable heat. And second—it "traps" the extra heat which usually escapes up the chimney.

The result? Heating dollars go furtheryou get the full value out of the oil you burn. Don't fail to see this amazing G-E Oil Furnace. It offers the finest—and cheapest type of automatic heat that money can buy.
