Household Cares.

Tax the Women of Chestertown the Same as Elsewhere.

Hard to attend to household duties.

With a constantly aching back.

A woman should not have a bad back.

And she wouldn't if the kidneys were well.

Doan's Kidney Pills make well kidneys.

Chestertown women should profit by the following experience.

Mrs. Edward A. Riley, Stokes St., near Congress St., Havre de Grace, Md., says: "Several years ago I was in a bad way as a result of kidney complaint. There was a persistent, dull ache across the small of my back and often on account of it, I had to give up housework and lie down. I felt weak and tired and in the morning was so miserable that I could hardly do a day's duties. I used numerous remedies said to be sure cures for such troubles, but was not helped until I procured Doan's Kidney Pills. After using them a short time I was relieved and I was so relieved and I was so pleased that I told of my experience in a public statement. I have used Doan's Kidney Pills off and on since and as the best results have always been received, I feel justified in again recommending this remedy to other kidney sufferers."

For sale by all dealers. Price 50 Cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Corn Raising.

The following excellent paper was read before the Kent County Grange at its recent meeting in Fairlee by Judge John P. Nicholson. It deals with the subject of raising corn, and it will no doubt prove interesting at this time. No doubt some of our farmers would like to grow more corn per acre than they have in the past and Judge Nicholson's paper may help them to do so. It is as follows:

WORTHY MASTER BROTHERS AND SISTERS:—The question under consideration that the farmers of Kent county are not raising all the corn per acre that can be raised with profit to their soil and to themselves, is one that is suggestive of much thought and consideration, and might be better presented by some of the many farmers who have succeeded in raising large crops. It is, however, admitted that many of us are raising light and inferior crops. That all can increase their yield per acre there is no doubt by the selection of good seed, thorough cultivation and the preparation of the soil. To insure good results, an effort should be made to give the land all the cultivation practicable—that is, from the time the land is plowed in the spring until the corn is planted.

At no time subsequently can cultivation be given, that will be so effective in killing weeds, it would seem correct to say, that the greatest mistake in corn culture, is the limited amount of preparation given to the land, before planting. It has been admitted by many, that shallow cultivation is superior to deep, the latter breaks the roots much more than the former, and checks the growth. The deepest cultivation may be given at first, and then it should be less deep. Should the weather be so wet during the normal period for cultivation, it is very difficult to grow a clean crop, conditions vary so much, that it is in a sense impossible to give rules that will meet every phase of the question which *relates* to the cultivation of the crop.

When we take the average yield of our State, the whole country's average being about 26 bushels per acre, it proves we have much to learn, and it also proves the varied character of the soils upon which corn is grown, some sections producing good yields at much less cost in labor and fertilizer than others. We are aware that some of our farmers get heavy yields, others less favored with soil conditions, and making as much outlay getting light and inferior crops. But their is no doubt that an increased yield is possible from all our lands by the selection of improved seed, and a more highly fertilization of our soil and thorough cultivation.

The Governor's Staff.

Dover, Jan. 11.—Governor-elect Pennewill today announced his staff as follows;

Adjutant-General—I. Pusey Wickersham.

Brigadier-General and Quartermaster-General—T. Coleman du Pont.

Colonel and Surgeon-General—W. R. Messick, Lewes.

Brigadier-General—A. R. Benson, Dover. Inspector of Rifle Practice, Edmund Mitchell, Jr., Wilmington. Judge Advocate-General, J. Ernest Smith, Wilmington.

Aides—Col. William D. Denney, Dover; Col. George W. Sparks. Wilmington; Col. John G. Townsend, Bridgeville; Col. George A. Elliott, Wilmington; Col. Alban C. Conner, Felton; Col. Thomas Curry, Greenwood.

CURES INDIGESTION.

All Distress from Stomach and Indigestion Vanishes in Five Minutes.

Take your sour stomach—or maybe you call it Indigestion, Dyspepsia, Gastritis or Catarrh of Stomach; it doesn't matter—take your stomach trouble right with you to your Pharmacist and ask him to open a 50-cent case of Pape's Diapepsin and let you eat one 22-grain Triangule and see if within five minutes there is left any trace of your stomach misery.

The correct name for your trouble is Food Fermentation—food souring; the Digestive organs become weak, there is lack of gastric juice; your food is only half digested, and you become affected with loss of appetite, pressure and fullness after eating, vomiting, nausea, heartburn, griping in bowels tenderness in the pit of stomach, bad taste in mouth, constipation, pain in limbs, sleeplessness, belching of gas, billousness, sick headache, nervousness, dizzness and many other similar symptoms.

If your appetite is fickle, and nothing tempts you, or you belch gas or if you feel bloated after eating, or your food lies like a lump of lead on your stomach, you can make up your mind that at the bottom of all this there is but one cause—fermentation of undigested food.

Prove to yourself, after your next meal, that your stomach is as good as any; that there is nothing really wrong. Stop this fermentation and begin eating what you want without fear of discomfort or misery.

Almost instant relief is waiting for you. It is merely a matter of how soon you take a little Diapepsin.

The Easton Ledger.—William J. Price, Jr., editor of the Centreville Observer, who until a few months ago was owner and publisher of the Easton Ledger, but sold it to Beverley N. Sparks, last week again assumed management of the paper, Mr. Sparks retiring from the editorial chair and ownership of the paper. Mr. Price has associated with him Charles E. Norris, who for a number of years was connected with the paper when it was owned by the late G. E. Haddaway.

700 ENGINES IN ONE ORDER.

A Large Boat Builder Places an Initial Order Which Exceeds Anything On Record.

Cleveland, O., Jan. 1, 1909.—The W. H. Mullins Co., of Salem, O., manufacturers of pressed steel boats, has just closed the largest order on record for engines. This order goes to The Ferro Machine & Foundry Co., of Cleveland, and includes 700 engines to be delivered in the next 60 days. Mr. Mullins said in response to a question that he was confident of a splendid volume of business and would no doubt duplicate this order before the first of May. These engines go into boats of various sizes and show the marvelous growth of the power boat business.

The advent of the gasoline motor has wrought the most extraordinary development in general boating, not only for pleasure launches, but also for small and large utility boats. Ten years ago, motor boats were as little thought of, and even less, than flying machines today. Where the sailboat and rowboat sports were indulged in very limited only in localities where the best of boating facilities were afforded years ago, today will find every inland lake and river that is at all navigable, as well as the coast waters, floating its quota of power boats of all descriptions. Even rowboats have been made convertible by the development of the small gasoline motor, weighing less than the average human being. Sailing, a most exhilarating sport, has largely given away to motor boating and the percentage of sailboats being used today without a gasoline engine in them for auxiliary power is surprisingly small.

Profitable dairying, that is, increase the quantity as well as the quality of milk, is now postively assured by giving with the feed Fairfield's Milk Producer. Successful dairyman are fast dropping all experimenting, no matter how promising, and are confining themselves to this remarkable cattle tonic. Davis & Satterfield, Chestertown. Abe Cohen, Sandy Bottom.

Daily reports from various agricultural stations show that the Fairfield method of banishing "cure-alls" and adapting a formula to meet conditions peculiar to each animal, is the surest way to get results. Fairfield's Milk Producer is making money for every cow owner. Davis & Satterfield, Chestertown. Abe Cohen, Sandy Bottom.

That a horse sometimes becomes "run down," much after the fashion of a human being, is now recognized as a fact by the best Veterinaries. It is also agreed that the surest remedy is one that makes blood, thereby vitalizing the nervous system. Such treatment is best secured in Fairfield's Blood Tonic for horses. Davis & Satterfield, Chestertown. Abe Cohen, Sandy Botton.

Two make two dozen eggs grow where one dozen was produced before seems to be no difficult thing for Fairfield's Poultry tonic. An iron-clad guarantee protects every purchaser. Davis & Satterfield, Chestertown. Abe Cohen, Sandy Bottom.

Poultry lay and grow fat in proportion as they are cared for properly. Tone them up, give them just a little help with Fairfield's Poultry Tonics. In this way many a losing poultry venture has been made to pay. Davis & Satterfield, Chestertown, Abe Cohen, Sandy Bottom.

The working compacity of any horse can be practically doubled by giving regularly with its feed Fairfield's Blood Tonic for Horses. Nothing is better for the general health of the horse. Davis & Satterfield, Chestertown. Abe Cohen, Sandy Bottom.

In its success in preventing cholera and disease, Fairfield's Hog Tonic has accomplished more than any other single agent in saving the farmer from this former great source of loss. Hogs fatten more quickly under this treatment and with this possibility of loss removed, hog raising is now very profitable. Davis & Satterfield, Chestertown. Abe Cohen, Sandy Bottom.

It has been commonly considered that a fowl which has suffered from Roup never fully recovers. This theory is now up-set by the guarantee that goes with Fairfield's Roup Remedy. Poultry owners agree that results are permanent under this treatment, and that afflicted birds recover completely. There is no record of a refund having been asked for under the guarantee. Davis & Satterfield, Chestertown. Abe Cohen, Sandy Bottom.

CUT THIS OUT AND SAVE IT.

Says Many Persons Here Can Be Made Happy Again By Using It.

Now is the time when the doctor gets busy, and the patent medicine manufacturers reap the harvest, unless great care is taken to dress warmly and keep the feet dry. This is the advice of an old eniment authority, who says that Rheumatism and Kidney trouble weather is here, and also tells what to do in case of an attack.

Get from any good prescription pharmacy one-half ounce Fluid Extract Dandelion, one ounce Compound Kargon, three ounces Compound Syrup Sarsaparilla. Mix by shaking in a bottle and take a teaspoonful after meals and at bedtime.

Just try this simple home-made mixture at the first sign of Rheumatism, or if your back aches or you feel that the kidneys are not acting just right. This is said to be a splendid kidney regulator, and almost certain remedy for all forms of Rheumatism, which is caused by uric acid in the blood, which the kidneys fail to filter out. Any one can easily prepare this at home and at small cost.

Druggists in this town and vicinity, when shown the prescription, stated they can either supply these ingredients, or if our readers prefer, they will compound the mixture for them.

BLOOD

We live by our blood, and on it. We thrive or starve, as our blood is rich or poor. There is nothing else to live on or by.

When strength is full and spirits high we are being refreshed—bone, muscle and brain, in body and mind—with continual flow of rich blood. This is health.

When weak, in low spirits, no cheer, no spring, when rest is not rest and sleep is not sleep, we are starved; our blood is poor; there is little nutriment in it.

Back of the blood is food, to keep the blood rich. When it fails, take

SCOTT'S EMULSION

WM. M. SLAY, Attorney.

Order Nisi.

Wm. M. Slay Agent Assignee.
vs.
Geo. B. Howarth and Lillian K. Howarth.

In the Circuit Court for Kent county, in equity.

ORDERED this 24th day of December, 1908, by the Circuit Court for Kent county, in equity, that the sale of the Mortgaged Real Estate, mentioned in these proceedings made and reported by Wm. M. Slay Agent, Assignee, under a power in a mortgage from George B. Howarth and Lillian K. Howarth to Richard D. Hynson dated July 25, 1904, be ratified and confirmed, unless cause to the contrary thereof be shown on or before the 26th day of February next;—provided a copy of this order be inserted in some newspaper printed and published in Kent county, once in each of four successive weeks before the 25th day of January next.

The report states the amount of sales to be $775.00.
