Brandreth's Pills.

SUDDEN CHANGES.—From warm to chilly weather, are unfavorable to health and it is a fact universally admitted that heat and moisture are powerful agents in producing disease. and that constant dry and constant wet weather, are both favorable to its generation; it does not signify what we call it; it may be ague; it may be bilious fever; it may be yellow fever; it may be dysentery; it may be rheumatism; it may be bronchitis; it may be colic; it may be the constipation of the bowels; it may be inflammation of the stomach; it may be a nervous affection; but still it is a disease, and a disease curable by the Brandreth Pills, because they remove all impurities from the body, all that can in any manner feed the further progress of the malady, no matter how called; thus these pills are not only the most proper medicine, but generally the only medicine that need or ought to be used.

—

Dr. Brandreth would call the special attention to the following letter from Arnold Buffum, the Philanthropist:

"N. Y. Third Month, 28, 1848.

DR. BRANDRETH—My dear friend—If to be good and to do good is the highest duty of man; and if to do good is the best evidence a man can give that he is good, then *I* feel bound to address thee as one who has come up to the mark of man's destiny.

"As a testimony that this is not vain flattery, I give the following brief sketce of my own experience:

"When I was twenty years old, I was very sick for about two months, with what my physician called "slow fever," during which time I took much medicine; from that time, for thirty-four years, I was very often sick ane under the care of a physician. About twelve years ago, I had a very severe attack of inflammaory Rheumatism, during which I was attended by Doctor Moore, of Philadelphia. I then regarded myself as an old man, with a broken down constitution, swiftly descending to the grave. Soon afterwards, however, I purchased a box of Brandreth's Pills, and finding them, on trial; to be more effectual in removing disease than any medicine I had ever tried before, I replenished my supply from time to time as occasion required. Since that time I have spent three years in the western country, where I was very much exposed to vicissitudes likely to produce disease; twice I have crossed the Atlantic Ocean, and have now spent the last four years in an office in this sickly city. Once, while travelling in the west, I was taken suddenly very ill. The friend at whose house I stopped, called in a physician, who made a very careful examication of my case, and then proposed to commence a process, which he stated would so reduce my system, as to confine me to house for at least six weeks; but I declined his prescriptions, took a dose of Brandyth's Pills, called the next day and paid the physician for his visit, and pursued my travel; and this is the only instance of my being visited by a physician since I purchased the first box of Brandyth's Pills, twelve years ago.

My health is now vastly better than it has been for thirto-four years, before I commanced the use of these Pills. They have been my constant companion whereever I have been, by land or by sea, and my only medicine; I am now ten pounds heavier than I was before I used them; when I take a cold now, I have no cough; and I attribute all this change, under God, for the substitution of Brandyth Pills for the frequent bleeding rnd the calo mel dosing to which I was before subjected. My wife, too, by the same means, enjoyed the same uninterrupted good health. Our doctor's bills, for both of us, have not amounted to five dollars in twelve years. When we find our health impared from any cause, we take a dose of Brandyth's Pills, and the difficulty is removed, and, judging from my own experience, I believe if every family should adopt the same practice, the health and longevity of community would be greatly promoted.

Most respectfully, thy friend,
ARNOLD BUFFUM.
