DEMOCRATIC TICKET

FOR COMPTROLLER:
HUGH A. McMULLEN,
of Allegany County.

FOR HOUSE OF DELEGATES:
HARRY GRIFFITH,
S. ELLWOOD BURGESS.

FOR TREASURER:
C. FRANK CROW.

FOR SHERIFF:
WILLIAM E. BROWN.

FOR COUNTY COMMISSIONER:
ARTHUR L. HARRIS.

DON'T forget the last day of registration, next Tuesday.

EACH county in Maryland is to have a Chapter for Red Cross work and Kent county has petitioned to organize. The various Units already formed will be a part of this chapter and will be represented in the executive committee. All membership fees for American Red Cross will go in through this chapter and fifty per cent. of the amount will be returned to the units from which they are sent. All are urged to join the American Red Cross and help in this great work for war relief and humanity.

THE Democratic ticket at the head of this column is composed of men who have been Democrats all their lives. They are worthy the vote of every citizen whether he be Democrat, Republican or Prohibitionist, but especially should this ticket appeal to every Democrat. Nominated without any opposition they should certainly get the vote of every Democrat. They represent the principles of the Democratic party which is the party of Woodrow Wilson and all his co-laborers. Democrats, think well before you go back on the Democratic party.

UPHOLD YOUR GOVERNMENT

THE United States is at war.

The administration under which the war is being conducted happens to be Democratic.

This has nothing to do with the patriotism of the people; we are in a war that was forced upon us in defence of our rights and liberty, and every good citizen should uphold his government, be the administration Democratic or Republican.

But as the administration happens to be Democratic, and as it also happens to be meeting all the vexing problems of war times in a statesmanlike manner, it seems best to us that our local government should also be Democratic, especially when that party has placed in the field a ticket composed of clean and capable men.

THE NEW LIBERTY LOAN

For the purpose of

equipping with arms, clothing and food our gallant soldiers who have been called to the field;

maintaining our Navy and our valiant tars upon the high seas;

providing the necessary means to pay the wages of our soldiers and sailors and, if the bill now pending in the Congress passes, the monthly allowances for the support of their dependant families and to supply them with life insurance;

constructing a great fleet of merchant vessels to maintain the line of communication with our brave troops in France, and to keep our commerce afloat upon the high seas in defiance of the German Kaiser and his submarines;

creating a great fleet of aeroplanes, which will give complete supremacy in the air to the United States and the brave nations fighting with us against the German military menace; and for other necessary war purposes,

The Congress of the United States has authorized the Secretary of the Treasury to sell to the American people bonds of the United States bearing **four per cent interest, with valuable tax exemptions,** and convertible under certain conditions into other issues of United States bonds that may be authorized by the Congress. The official circular of the Treasury Department gives full details.

There is now offered to the American people a new issue of $3,000,000,000 of bonds to be known as the Second Liberty Loan. They will be issued in such denominations and upon such terms that every patriotic citizen will have an opportunity to assist the Government by lending his money upon security of a United States Government bond.

CITY SEEKING POWER

Plea For "Room to Grow" Termed Subterfuge

Opponents Claim Suburbs Are Enjoying Cheap County Form Of Government, Which Should Not Be Taken From Them Without Their Consent.

(Prepared by the Baltimore County Non-Partisan Citizens' Protective Committee.)

What is a city?

Many persons believe that it is a large collection of people and houses, with streets, railroad terminals, trolley cars, street lighting and other facilities for business and comfort. Others seem to think that a city consists of a mayor and city council, a multitude of other office holders, a bonded debt, high taxes, minor privileges and similar things which are characteristic of municipal governments. The opponents of annexation urge that the actual city is not necessarily the same in extent as the political city, and may grow at liberty, regardless of the boundaries of the latter.

Baltimore, they urge, in its true sense, and as it is known to business men elsewhere, consists of the whole big settlement located about the navigable portion of the Patapsco river. Part of it is under the control of a mayor and city council and has the other municipal features mentioned above, the remainder is under the governments of Baltimore and Anne Arundel counties. The residents of each section, it is asserted, are satisfied with their present form of government.

Governments For the People.

The settlements came first; the county and city governments came afterward to facilitate the business, safety, comfort and pleasure of the settlers. The governments were created for the people, not the people for the governments.

Lack of proper consideration of this fact, it is claimed, causes some persons unwittingly to fall in with the scheme to extend the political boundaries of Baltimore. These boundaries were set to define the section over which the people residing therein wished the city government to have control of their public affairs. The city officials, it is urged, have no inherent right to extend their sway over people without their consent. It is a fundamental maxim of law that all government should be by and with the consent of the governed.

The county people allege that the cry that "Baltimore must have room to grow" is a subterfuge. They insist that the city, in its real sense of a large collection of people, with all their paraphernalia of business and pleasure, is growing all the time—much faster than if it were all controlled by the Mayor and City Council. Within the past few years, owing to a great expansion in manufacturing, the rate of increase in population and property values in the suburban sections has been very rapid.

No Factories In Annex Of 1888.

The annexationists claim that this influx of big business would have come just the same, even if the city had controlled all the territory in which these factories are located. The answer of their opponents is that the city now has thousands of acres of vacant land in the Annex of 1888, and not one factory of any consequence has been located there. On the contrary, they say, there are many instances where large plants have been located just across the line—in the counties—and purposely, to be beyond the jurisdiction of the city government.

County Government Cheaper.

The counties have the commission form of government, which is cheaper than that of the city. The salary roll of office holders of the city was $1,219,392.11 in 1915, the last year for which a published City Comptroller's report is available, according to statements of the anti-annexationists, who point out that the corresponding pay roll for Baltimore county was $108,973.74. The tax rate of Baltimore county this year is $1.06, while that of the city is $1.98. But the county pays all its expenses from its tax levy.

Claim City Wants More Power.

To enjoy the lighter taxes and other attractions which the county has to offer in the way of fewer restrictions and more room and quiet, some of the former residents of the corporate city have moved into Baltimore county. Many more have gone into that section from other parts of Maryland and from other States. The opponents of annexation claim that the rulers of the political Baltimore, which they insist is not at all identical with the real city, want to grasp all these people and all the wealth of the suburbs and thereby acquire the power which this mass of people and taxable property would give them—a power which it is alleged would enable them to expand the limits of the city at will thereafter and control the political affairs of the State. It is contended that if the voters of Maryland will this fall elect the Democratic candidates for State Comptroller and the Legislature this plan will fail, for the Democratic party has declared in favor of annexation, but with a referendum. The opponents of the proposed bill claim that it is so drastic that its framers know the people of the suburbs will not vote to enter the city upon such terms.

SHIP SHORTAGE MAY HOLD TROOPS IN U. S.

Washington, Sept. 29th.—American troop transportation to Europe during the next six months may be greatly curtailed. As a result of the German U-boat menace, discussed with surprising frankness by the British Ministry of Marine, the foremost question now before this country and the Allies is the disposition of American tonnage.

The argument is advanced in favor of reducing troop movements to the other side along these lines:

France alone has a million tons of supplies tied up on this side of the Atlantic which cannot be moved while American troops are being transported.

France, Great Britain and Italy need fuel, food, oil, etc., sorely, shipment of which is prevented through lack of tonnage.

Germany's man power is waning, and a careful compilation completed by the Allied governments indicates that the Allied man power, properly supplied, can win the war more quickly than if the present man power is augmented by thousands of American troops and sufficient supplies are not available through lack of tonnage.

The U-boat menace is not underestimated by the United States Government. There is not the slightest fear that Germany can win through her sea scavengers, but there is the need of very serious consideration of the most effective way to meet the situation created.

The British Marine Ministry has called upon this country for 6,000,000 tons of shipping annually. This figure cannot be realized before late in 1918, or early in 1919, it is officially admitted. The program for the next 18 months falls short of the British demands, although more than a billion dollars is involved in the work now under way. After this period has passed, however, it is stated the United States should be able to produce 6,000,000 tons annually.

Means of conserving shipping and utilizing the tonnage available until this great building program provides sufficient ships is the vital question under international discussion.

For every American soldier transported, his weight in supplies must be sent over every 30 days. Amunition, food—everything needed by the Samny—must go from this side, for there is not more than sufficient to supply the Tommy and pollu now over there. Thus, it is argued, there is strong reason for training and equipping a great army on this side of the Atlantic, but holding up its marching orders until vast amounts of supplies, now vital to the Allied fighting cause, are moved.

SHALL HYPOCRISY AND DOUBLE DEALING WIN IN MARYLAND?

PROMOTERS OF ANNEXATION BY FORCE ARE TRUE TO NEITHER PARTY

Having caused the Republican Convention to reverse itself upon the Annexation plank in its platform of two years ago, which plank declared in favor of annexation with a referendum to the people affected, in accordance with the Constitution of the State, and is said to have been approved, if not prepared, by Chief Judge of the Supreme Bench of Baltimore City Morris A. Soper, then holding that office by appointment of Governor Goldsborough and a candidate for re-election for the full term, they are now supporting Mayor Preston's Democratic nominees in the city, after having made the city candidates sign a repudiation of their party's platform.

THIS IS APPARENTLY IN PURSUANCE OF A PLAN OF CONQUEST, WHICH WILL GIVE THE POLITICAL RULERS OF THE CITY CONTROL OF THE STATE

By grasping one-half the population and taxable basis of Baltimore County and the richest and most populous part of Anne Arundel County through the Preston-Field Force Bill without a referendum, and then securing control of the Police and Liquor License Boards and passing a constitutional amendment giving the city proportional representation in the Legislature they can reduce the remainder of the State to the condition of a dependent province.

FROM 70,000 TO 100,000 PEOPLE IN THE TERRITORY PROPOSED TO BE ANNEXED ARE MADE THE PAWNS IN THIS POLITICAL GAME.

The Democratic Party has declared in favor of annexation by a bill that would be fair alike to the city, the territory to be annexed and the remainder of the counties affected, on condition that the same be referred to the voters in the territory proposed to be annexed, in accordance with the provision of the Constitution of this State. This provision was written into the Constitution by the Republicans themselves, in 1864, and was recognized by them as necessary so lately as their convention of 1915, when they declared that a referendum was required for any annexation.

MAYOR PRESTON, FOLLOWING HIS "RULE OR RUIN" POLICY, IS MAKING A CATSPAW OF THE REPUBLICAN PARTY TO DEFEAT THE DEMOCRATIC CANDIDATES FOR THE LEGISLATURE AND THE DEMOCRATIC CANDIDATE FOR COMPTROLLER, SO THAT THE CITY OF BALTIMORE WILL BE ABLE TO ASK AND RECEIVE SUCH REPRESENTATION IN THE STATE CONVENTIONS OF BOTH PARTIES AND IN THE LEGISLATURE AS WILL ENABLE IT TO DOMINATE THE GOVERNMENT OF THE ENTIRE STATE. DO EITHER THE DEMOCRATS OR THE THINKING REPUBLICANS OF MARYLAND, WHETHER OF THE CITY OR THE COUNTIES, WANT THIS, IN THE LIGHT OF PAST HISTORY?

THE BALTIMORE COUNTY NON-PARTISAN CITIZENS' PROTECTIVE COMMITTEE.
