TO THE

Farmers and Users of Fertilizers

During 1907 we increased our sales and in 1908 we had quite an increase over 1907, and in January, 1909, we incorporated as the PEERLESS FERTILIZER COMPANY, and our spring sales this year show an increase of nearly 300 tons over last spring which not only included our old customers but many new ones. This we state not boastfully, but gladly.

In the new customers that came to us were through the recommendations of those who had used our fertiilzers for years, and we also sold largely to those who began buying of us from 10 to 35 years ago when we began business and who are still our satisfied patrons and say they expect to continue to deal with us as long as we manufacture the class of goods we do.

Such conditions involve much more than price, mere reputation or salesmanship. Selling year after year to a man and through that man selling others is decidedly a different story than selling him once or possibly twice. Anyone can do the latter.

WE MAKE EACH TON OF FERTILIZER THE BEST WE KNOW HOW. We know how now better than we knew ten years ago and expect to know still better ten years hence, if careful study and testing bring improvement in the future as in the past, and at the lowest possibe cost for such service is the way we expect to secure and hold your orders.

May we show you with the very next bill of fertilizers you buy.

OBJECTS AND PRINCIPLES

OF THE

Jr. O. U. A. M.

FIRST—To maintain and promote the interests of Americans and shield them from the depressing effects of unrestricted immigration; to assist them in obtaining employment and to encourage them in business.

SECOND—To provide for the creation of a fund or funds for the payment of benefits in case of sickness, disability or death of its members, to members, their legal dependents or representatives, and to issue certificates of membership for the same.

THIRD—To uphold the American Public School System, to prevent interference therewith, and to encourage the reading of the Holy Bible in the schools thereof.

FOURTH—To promote and maintain a National Orphans' Home.

We recognize the landing upon our shores of the ignorant, the vicious and the lawless of the Old World as a constant menace to our institutions, and believe that it should be viewed with alarm by the loyal and patriotic citizens of the country.

We would place a flag upon and a Bible within every Public School-house of our land, that all might learn these to be a beacon light in every storm which may threaten our destruction.

I am prepared to care for teams, water and feed in a saisfactory manner.
Those wishing to drive in and hitch, I will look after their teams while in town for only a dime.
I have plenty of shed room for carriages.
Yours to please,

Changes of season affect cattle because their digestive organs have to become accustomed to the change of diet. This causes milk production to decrease. Forced feeding makes matters worse. Fairfield's Milk Producer fed regularly will prevent all these troubles and keep up production.

Don't blame the hen when she doesn't lay. She can't manufacture eggs unless you supply her with the material. Get busy now and begin feeding her Fairfields Egg Producer regularly and see how quickly she gets down to business.

The Four Stomaches of the Cow will surely not respond to the elements intended to act only upon the One Stomach of the Horse. That is why there is a Separate Fairfield's Blood Tonic for each of these animals. Also separate Tonics for Poultry and for Hogs. (Ask for Frirfield's Free Stock Book.)

"Lung Fever," the Veterinary said. A Post Mortem proved it to be Worms. This happens in thousands of cases every year, all over the country. But Horses that are regularly fed Fairfield's Blood Tonic for Horses Only, never have Worms and never get Lung Fever.

Thirty-five per cent, of an egg is composed of mineral elements. The hen's regular food seldom contains these in the proper proportions. Fairfield's Egg Producer contains every element in the right proportions and proper combinations, and in a form easily assimilated.

Hog raisers in many sections of the United States have completely driven Hog Cholera from the cummunity by the regular use of Fairfield's Blood Tonic for Hogs Only. Fairfield's Hog Tonic makes the blood pure and drives disease from the system.

Feed will be high this Fall. All undigested food is wasted. Save money and increase your horse's health by the regular feeding of Fairfield's Blood Tonic for Horses Only. It perfects digestion, so that all the nutriment is secured from the food.

Make large profits now. The price of eggs is rising. Fairfield's Egg Producer is garanteed to increase the egg output by perfecting the hen's digestion, keeping her in health, thus hastening the development of her eggs. (Ask for Fairfield's Free Book).
