Too Many Operations

The Right Medicine in Many Cases Does Better than the Surgeon's Knife. Tribute to Lydia E. Pinkham's Vegetable Compound.

Doctor Said Operation or Death—But Medicine Cured.

Des Moines, Iowa.—"My husband says I would have been in my grave today had it not been for Lydia E. Pinkham's Vegetable Compound. I suffered from a serious female trouble and the doctors said I could not live one year without an operation. My husband objected to the operation and had me try Lydia E. Pinkham's Vegetable Compound. I soon commenced to get better and am now well and able to do my own housework. I can recommend Lydia E. Pinkham's Vegetable Compound to any woman as a wonderful health restorer."—Mrs. BLANCHE JEFFERSON, 703 Lyon St., Des Moines, Iowa.

Another Operation Avoided.

Richmond, Ind.—"For two years I was so sick and weak from female troubles that when going up stairs I had to go very slowly with my hands on the steps, then sit down at the top to rest. The doctor said he thought I should have an operation, and my friends thought I would not live to move into our new house. My daughter asked me to try Lydia E. Pinkham's Vegetable Compound as she had taken it with good results. I did so, my weakness disappeared, I gained in strength, moved into our new home, do all kinds of garden work, and raised hundreds of chickens and ducks. I cannot say enough in praise of Lydia E. Pinkham's Vegetable Compound."—Mrs. M. O. JOHNSTON, Route D, Box 190, Richmond, Ind.

Of course there are many serious cases that only a surgical operation will relieve. We freely acknowledge this, but the above letters, and many others like them, amply prove that many operations are recommended when medicine in many cases is all that is needed.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

WE HAVE DONE OUR BIT IN HELL.

Composed and written by Sergeant W. H. Price, Jr., Camp Hancock, Augusta, Ga.

I am sitting here tonight and thinking of the things I left behind
And I hate to put on paper what is running through my mind—
We've dug a million trenches and cleared a mile of ground,
And a meaner place this side of hell I know is still unfound.
But there is still one consolation, gather closely while I tell—
When we die we're bound for Heaven for we've done our bit in hell.

We've built a million mess shacks for the cooks to stew our beans.
We've stood a hundred guard mounts and cleaned up camp latines,
We've washed a million mess kits and pealed a million spuds,
We've rolled a million blanket rolls and washed a million duds.
The number of parades we've had I'would be hard to tell,
But we'll not parade in Heaven, for we've done our bit in hell.
We've killed a million rattlesnakes? that tried to take our cots,
We've shook a million centepedes from out our army socks,
We've marched a hundred thousand miles and made a thousand camps,
We've pulled a million cactus thorns from out our army pants;
But when our work on earth is done our friends on earth will say
When they died they went to Heaven, for they did their bit in hell.
When the final taps are sounded and we lay aside life's cares,
When we do the post parade up the shining golden stairs,
And the angels bid us welcome and the harps begin to play,
And we draw a million canteen checks and spend them in one day—
It is then we'll hear St. Peter yell loudly with a yell
Take a front seat ammunition train for you've done your bit in hell.

SPESUTIA ISLAND SAFE

Government Will Not Take Over Ducking Ground For Range.

Spesutia Island, famous as a ducking ground in the Upper Chesapeake, will not be taken over by the government in its purchase of 30,000 acres of Harford and Baltimore county land for the Aberdeen Proving Ground. This announcement is particularly gratifying to Harford countians and many New Yorkers and Philadelphians, who visit there annually in gunning and fishing season, for it is in the heart of the ducking grounds and the best fishing waters.

Occupying the upper part of the island, which is divided into three parts, is the Rod and Gun Club, composed mainly of wealthy Philadelphians and New Yorkers. Among the prominent members of this club are George Gould, H. G. Marquand, George F. Baker, E. C. Converse, Clarence Yates, Yale Dolan and F. C. W. Randolph.

The middle of the island is owned by the widow of Gen. Murray Vandiver, former State Treasurer of Maryland and chairman of the Democratic State Committee, who has made it her summer home. The lower end of the island is owned by Chapman Clark.

The taking over of the land in the lower part of the county has resulted in the closing of about a dozen public schools and the throwing out of employment approximately as many teachers, not to count the 500 school children who, for a while at least, will be deprived of education. These children are moving from the district with their parents, whose homes and property are being taken care of by the government. Among the schools closed are those at Michaelsville, Oakland, Boden and Bush River Neck, while colored schools at Michaelsville, Sidney Park and Gunpowder Neck also are affected. The Harford County School Board and government officials conferred, with the result that the federal committee of awards adjusted the value of the seven or eight schoolhouses at $7,000, or $200 less than the School Board asked. Permission to remove buildings, furniture, books and other effects was granted. Most of the families are moving to other sections of the county, and the entrance of the children into the schools in these places is taxing them to the limit.

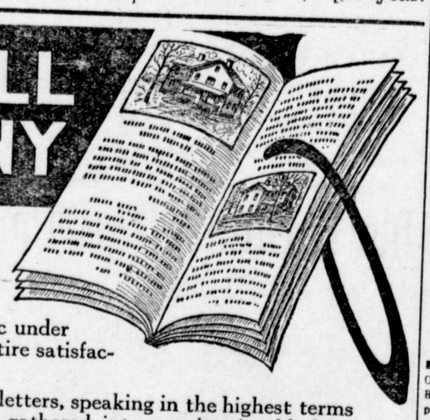
"KENT NEWS" $1 per year.

A BOOK FULL OF TESTIMONY



Thousands of Caloric Pipeless Furnaces are owned by as many people—in city, town and country, all over the land.

These owners installed the Caloric under a distinct and definite guarantee of entire satisfaction, or the removal of the furnace.

Hundreds have written voluntary letters, speaking in the highest terms of the Caloric. These letters have been gathered into a quite sizeable book that you may read for yourself if you will call and ask for a copy. This book is

Proof Positive That the Caloric Operates Perfectly and Saves Money

for the operator. In fact, the Caloric **is guaranteed** to make a warmer house on less fuel than any other furnace or heating system. The average amount of fuel saved—as these letters show—is 35%, and the average comfort obtained is 100%.

Do you know of any house-heating system that will beat this record?

The Caloric is a **one register** furnace. It heats by a natural warm air circulation. Its heat isn't cooled down passing through long crooked pipes, but rises freely and without hindrance from room to room till the whole house is delightfully comfortable. Scientists say that circulated heat is most healthful, and Caloric owners find it true—The Caloric is a perfectly healthful home heater.

You can install the Caloric in any home, new or old, and cheaply. In fact, a cellar isn't absolutely necessary—a pit under the house will do.

We have a Caloric set up and will be delighted to point out its many advantages and money-saving qualities.

Come in and read our surprising guarantee—no other heater can or does make one like it.
