SUBSCRIPTION PRICE $1.00 PER ANNUM

Entered at the Post Office at Chestertown Maryland, as Second Class matter.
Obituary and In Memoriam notices cost 5c per line, each insertion.

SATURDAY, DECEMBER 1, 1917.

THE Republican lea ers have agreed on Ex-Senator Jackson as Treasurer. He certainly will not accept the office for the salary.

FINAL arrangements have about been completed whereby the Citizen's National Bank of Middletown will merge with the Delaware Trust Company of Wilmington. John Biggs is president and Jesse Sheppard, vice-president.

KENT COUNTY takes first place in the final report of the pledge card campaign conducted under the leadership of Mrs. Wm. G. Smyth. The total number of cards signed was 2792 with a quota of 1696 making a percentage of 164. Queen Anne's under Mrs. Claude F. Parks was second. In Kent the 1st district sent in 369; 2nd, 365; 3rd, 404; 4th, 713; 5th, 531; 6th, 221; 7th, 165.

GOV. HARRINGTON has announced the appointment of members of the Legal Advisory Boards for the four Legislative districts of Baltimore city and the several counties of the State, to assist the military draft boards in connection with the second draft for the new National Army. Three men were named on each committee and in each instance so far as possible, a judge was designated as chairman. The list for Kent includes Hon. James Alfred Pearce, William W. Beck, Hope H. Barroll. This Board to serve without pay.

THE low scale of salaries paid to the elementary school teachers of the State and the discussion of means to obtain a material increase in this scale played an important part in the fiftieth annual meeting of the Maryland State Teachers' Association, which convened in Baltimore this week.

Dr. M. Bates Stephens, State superintendent of education, in an address before the teachers assembled at the first general session in the Lyric, said that the main business of the convention would be to settle the salary question for the elementary teachers of the State and to insure a comfostable living for them. He brought out that under the present scale they were not able to meet their financial obligations and announced that a special meeting will be called to discuss the ways and means of securing a substantial increase for them. He proposed that the convention slogan be: "A hard pull, a long pull to save the elementary teachers from further embarassment." The proposal was received enthusiastically. It is hoped that some way may be found to increase the pay of this important class of workmen.

HOW TO SAVE SUGAR

For some weeks, sugar has been a household scarcity. People have been put to great inconvenience and have had to limit, if not eliminate, its use in some ways. The manufacturers of sweets are hampered at an inopportune time, and no relief is in near view. Two things, fats and sugar—the one often despised and the other formerly considered a luxury—are now found to be of such primary importance that the fate of nations hangs upon them. The human system simply must have fats and sugar. There is no such urgency for beer, yet with all the limitations as to the use of sugar, the making of beer goes merrily on without threat or hindrance, so far as we have learned, using millions of pounds of sugar in the making of a product which is not only useless but harmful. The food value of the grain and sugar used in its manufacture, we are told on good authority, is either destroyed in the process or is left in the by-product. Why not stop the use of sugar for this purpose? We are informed that there was used in this country last year 340,000 tons—680,000,000 pounds—of sugar in the making of beer.
