KENT NEWS.

CHESTER TOWN, Md.

SATURDAY MORNING, DECEMBER 8, 1855.

☞Pork is rather scarce here and selling at $8 per cwt—we have heard of one lot selling at $8.50.

☞A notice headed 'Public Meeting,' will be found in another column—the times require prompt and efficient action, and a full attendance.

A Large Crop.—Joshua Copper, Esq. the Steward of the Alms-house, raised this year on a piece of land 70 yards square, 230 bushels of fine potatoes and a ton of hay.

Land Sale.—R. Hynson, Esq. sold as Trustee, the real estate belonging to the late John D. Cruikshank, containing 152 acres, for $6,384, or $42 per acre—Geo. Hollyday, Esq. purchaser.

Foreign News.—The steamship America arrived at Halifax on Wednesday, with Liverpool dates to the 24th ult., being six days later than previous advices. The news is not important—Breadstuffs had declined.

More Runaways.—Two negro men, one belonging to Geo. B. Westcott and the other to R. S. Thomas, Esqrs. They took with them a horse of E. A. Moore, Esq., and a carriage belonging to Mr. A. W. Sparks. They left on Tuesday night and nothing has since been heard of them.

Clipper.—We notice that this most excellent paper has donned an entire new dress and presents a fine appearance.—The Clipper was the first paper in Maryland which espoused the American cause, is ably conducted and we bespeak for it a cordial support by the American party of Kent county.

County Commissioners.—The new board of County Commissioners met on Tuesday last—the bonds of the following Constables elect, were received: Wm. H. Hamilton, Jas. A. Shaw, J. W. Duyer, Jesse K. Hines, L. S. Vansant and Jas. Spear.

A. W. Melvin, was re-elected Clerk and Dr, B. F. Houston appointed Trustee of the Alms-house, vice Hon. Jas. B. Ricaud, resigned.

Arrest.—A negro man named John Brown, (who broke out of Centreville jail the night previous) was arrested in this place on Saturday last, by Mr. John M. Davis. The negro was charged with enticing off three slaves belonging to Mr. John S. Elliott. We learn from the Centreville Sentinel that this negro told Mr. E's servants that he had been successful in running off twelve slaves from Kent county.

Vendues.—The following sales will take place the ensuing week:

Isaac Parson's vendue, at his residence Monday, 10th.

Personal estate Jno. F. Ringgold, near Chester Town, Wednesday the 12th.

Wm. J. Wilkins personal estate, Quaker Neck, Thursday, Dec. 13th.

Enoch Moffett's personal estate, Chesterville, Thursday 13th.

The personal estate of Abel Merritt on Friday the 14th.

Not yet Organized.—It seems difficult for the Lower House of Congress to elect a speaker—three days have been spent in balloting, and it seems impossible to come to any result—all attempts at fusion seems abortive. We notice that Messrs. Stewart and Bowie, (both elected by Whigs) are going heart and soul with the Administration, while the rest of the Maryland delegation are for Mr. Smith, of Ala., Marshall, of Ky., and Valk, of New York. The following is the result of Wednesday's balloting, being the fifteenth:

Campbell,	80	Whitney,	9
Richardson,	74	Smith, of Ala.	9
Banks,	8	Puryear,	2
Fuller,	19	Thurston,	2
Marshall,	6	Nicols,	1
Pennington,	7	A. Oliver,	1

Necessary to a choice 110.

Appointments—The Struggle at Washington.

Washington, Dec. 5—It is understood here that Wm. D. Merrick of Washington, will be appointed to fill the vacancy in the United States Circuit Court for the District of Columbia, and that A. G. Seaman has been re-appointed Superintendent of Public Printing.

☞Some villian last Friday night attempted to fire the stable of Dr. P. Wroth, by placing a newspaper on a quantity of hay, through a hole in the door, and putting fire to it. The paper and hay around it, was consumed and strange to say went out altho' the stable contained a large quantity. This is the third time within a few weeks, that the torch of the incendiary has been applied to buildings in this vicinity—we advise our citizens to keep on the alert and justice may yet overtake these scoundrels.

To the American Order in the United States.

In accordance with section three of article III of the Constitution of the National Council of the United States of North America, authorizing the President to call a special meeting "upon the written request of five delegates representing five State Councils," the provisions of said section having been complied with by the authority of said constitution, notice is hereby given to the several State Councils and the delegates to the National Council that there will be a special meeting of said council to be holden in Philadelphia, on Monday, the 18th day of February next, for the transaction of such business as may be brought before it.

E. B. BARTLETT,
President National Council U. S. N. A.

TO THE AMERICAN ORDER IN THE UNITED STATES.

National American Council.
Executive Office, Covington, Ky.
November 28th, 1855.

Be it known that at the annual meeting of the National Council, in June, 1855, the following resolution was adopted:

Resolved, That a Convention for the purpose of nominating candidates for the Presidency and Vice Presidency, be held in Philadelphia on the 22d of February, 1856, to be composed of delegates elected by the subordinate councils, one in each Congressional district, and two by each State council as Senatorial delegates at large.

In consequence of the existence of this resolution, and to give it full effect, I hereby proclaim and make it known that, without delay, the Councils of the Order in each Congressional district in each State, and that each State Council shall proceed to elect delegates to represent them in said National Convention appointed by said resolution; and, to secure a full representation, it is recommended that for each Congressional and State delegate two alternates be at the same time chosen by each district and State council.

E. B. BARTLETT,
President National Council U. S. N. A.

A Million of Men in the Field.—The preseet struggle between Russia and her enemies has, we dare say, drawn a million of men from the avocations and pastimes of peace, who are now in the field, in the bloody business of war, to say nothing of the thousands who have already been sacrificed to this insatiable Moloch. A circular printed at Vienna, estimates the Turkish and Allied forces at 309,000 men, without including the Turkish army of 24,000 on the banks of the Danube. The enumeration is thus made up:

Under Omer Pasha,	45.000
At Kars,	18,000
Erzeroum and Trebizond,	20,000
In the Crimea, on the Tchernaya,	95,000
Eupatoria,	60,000
Kertsch, 16,000; Kinburn 12,000	28,000
On their way to the Dnieper,	25,000
Sebastopol, 8,000; Maslak 10,000	18,000
Total,	309,000
Add Turks on the Danube,	24,000
And we have a grand total of	333,000

And this does not include the Allied naval forces of the Baltic and Black seas, and the sea of Azoff, which will probably foot up another item of fifty thousand men.

On the other side, Russia has about 200,000 men in the Crimea, perhaps 50,000 about the Caspian, Kars and Turkey on the south shore of the Black sea; 100,000 at and about Nicolaieff, 20,000 aa Odessa, and perhaps 200,000 at St. Petersburg, Cronstradt, Sweaborg, Helsingfors and the Baltic coasts generally; with reserves in Poland, and detached squads scattered around her vast frontiers equal to 200,000 more. These figures, if summed up and added to the forces of the Allies, will give us more than a million of men appropriated to the humane occupation of cutting each other's throats, and destroying by fire, sword, and bombshells, the homes, the hopes and happiness of millions of helpless women and children. And all apparently resulting from a puerile quarrel concerning the Holy Places of Jerusalem.

We can now believe that the thirty-years war in Germany, originated from a dispute about a well-bucket, that the French revolution was precipitated by a diamond necklace, and that the British fleet lately detailed to this side the Atlantic was for the express purpose of arresting Russian privateers and the Irish-American revolutionary expedition destined for Dublin. "What a great fire a small spark kindleth!"—*N. Y. Herald.*

U. S. Senator for Virginia.—The Legislature of Virginia has agreed to go into an election of U. S. Senator on Saturday next. His term will extend for six years from March, 1857, when that of the Hon. James M. Mason expires.

Gunpowder Up.—The dealers in gunpowder in Cincinnati have advanced the price of powder $1 25 per keg on rifle and $1 per keg on blasting, in consequence of the prohibition of the exportation of saltpetre from England.

The War in Kansas.—*Further Particulars.*—We find in the Louisville Courier several telegraphic despatches, giving some further accounts of the civil war, said to have broken out in Kansas. A despatch, dated Independence, Mo., Nov. 30, says:

"A messenger arrived at Shawne Mission last night, who states that Deputy Marshall Jones had fifty-two men with him at Lecompton. He also states that all Lawrence is up in arms, that the men are drilling constantly, and that they had in their possession five pieces of artillery."

Another dispatch, dated Weston, same date, says:

"The abolitionist outlaws in Douglass county have burnt a number of houses and driven a number of families, consisting of women and children, to Missouri for refuge.

"The latest accounts report that the law and order people of the Territory are rallying in large numbers to the assistance of the sheriff of Douglass county in the execution of the laws. That officer has by this time an overwhelming force at his command.

"Sheriff Jones is acting as deputy United States marshal for Douglas and Johnson counties."

A second dispatch from the same place says:

"The greatest excitement continues to exist in Kansas. The officers have been resisted by the mobocrats, and the interposition of the militia have been called for.

"A secret letter from Secretary Woodson to Gen. Eastin has been written, in which the writer requests Gen. E. to call for the Rifle Company at Platte City, Mo., so as not to compromise Governor Shannon.

"Four hundred men from Jackson Co., Mo., are now en route for Douglass county, Kansas territory. St. Joseph and Weston, in Missouri, are requested each to furnish the same numebr of men. The people of Kansas are to be subjugated at all hazards.'

How Long Will it Last!—The Nashville Gazette asks the question, "How long will the American party last?" and answers, "as long as there is patriotism in our land; as long as an American heart beats for its country; as long as our people rally around home, principle, republicanism, as long as the stars and stripes can catch the eye and thrill the soul; as long as the memory of the great, the heroic, and the good of our fathers is cherished; as long as there is an enemy to our institutions in the land; as long as politicians insult common sense, the rights, the sentiments of the people; as long as office seekers, like hawks and vampires, hover about to plunder the public treasure and pervert duty and service into speculation; as long as the words of Washington have a resting place in our minds—so long will the American party last." When the American party ceases to exist, no appeal to the patriotism of the country will be necessary. The foes of the Union will have triumphed.

Return to the State Treasurer by the Late Clerk of the Court of Common Pleas.—John W. Davis, Esq., the efficient Clerk of the Court of Common Pleas, on Saturday, returned to the Treasurer of the State the sum of $13,557 85, the amount received by him for licenses during the six months commencing on the 1st of December, 1855. Of this amount $2,226 33 was received for licenses for ordinaries; $462 33 for retailers' licenses, with stock ranging from $1,500 to $5000; $632 for licenses to female traders; $2,187 23 for traders' licenses, with stock ranging from $1,000 to 10,000; $1,001 50 for pedlars' licenses; $880 50 for stock, bill and exchange brokers' licenses, $3,015 for non-residents traders' licenses; $108 35 for billiard table licenses; $3,008 for marriage licenses.—*Am. Democrat.*

Guano in the Pacific Ocean.—Statements have occasionally appeared in the newspapers respecting an immense deposit of guano recently discovered in a remote part of the Pacific Ocean, by an American sea captain, with allusions to a company organizing for the purpose of rendering it available for agricultural purposes.—The latter project is now so fully matured and the co-operation of the U. S. Government has been so effectually secured, that two ships have been despatched by the company, one from the Atlantic and one from the Pacific, and a vessel belonging to the U. S. Pacific Squadron has also been ordered to convey two agents of the company to the island, to protect the interests of the company, survey the harbor and estimate the character and quantity of the guano. One of the ships referred to is the Corea, which sailed from New London on the 18th of August last, with orders to touch at Talcuhan, S. A., to take on board the agent of the company.—*N. Y. Jour. of Com.*

Disease Among Horses.—For some time past the proprietors of omnibus horses have suffered in consequence of a singular disease which has attacked many of their horses, and some of the lines have suffered seriously. The disease has been called by some the "lung fever," and horses attacked with it have started from the Exchange apparently well, but before reaching the end of their route have become so weak that it was with difficulty that they could be got to the stable. In a few hours they commence to swell under the neck, and the flesh leaves them, at the same time they get so weak that they are unable to stand. At the first appearance of the disease many horses died before a proper remedy could be found; but we understand that at present the veterinary doctors have been enabled to apply the proper remedy and save the animals' lives.—*Phil. Ledger.*

Further from Ka.

St. Louis, Dec. 5.—Fu accounts from Kansas state that an of a military organization of Free men was captured at Atchison with en orders in his possession to burn town and murder McLauglin. As mo the male population had gone to Lecon under orders from the Governor uest was sent to Weston, Mo., for assice and a party left last night.

[SECOND DISPATCH.

St. Louis, Dec. 5.—The Ka "Free State" papers give their ve of the difficulties, from which it app that a young man named Dow was shown by a Missourian named Colemamo was rescued by his friends. A ing of citizens was held on the spot, h pronounced the act a cold-blood murder and implicated some of the sors.—Sheriff Jones arrested Jacob Bon, in whose house Dow lived, but has rescued by his neighbors, wherei Jones sent to Pawnee for aid, declarin at the Governor had assured him of istance to the extent of ten thousa men, if needed.

Dr. Kane's Expedition.—T Washington Union, speaking of th arts of the expedition in search of Sir J Franklin, says they show a larger ra of discovery than had been anticipat rom the preliminary report:

"Many have been exhibited he Secretary of the Navy, and subjel to the National Observatory and Co Survey. Dr. Kane has evidently mate in reserve. The area of the opera, by a careful revision of the work as been found to exceed four thousa miles, or more than one thousand in ex s of the original estimate. This larg ody was absolutely and entirely free fr ce. The scientific materials of the ex ition will be published under the direc harge of Dr. Kane, who has been deta l for that duty by the Navy Depart t. The Smithsonian Institute and st Survey have both volunteered their a in furtherance of this object."

Spreading one's Butter on too Much Bread.—Fred. Douglas, the colored agitator, in the course of a lecte delivered at Lewiston, on Thursday st, told the following anecdote about Prident Pierce which is worthy of preservon:

"About the time Pierce w nominated" said Douglass, "I was in N Hampshire and with a great portion of he American people. I felt curious to kn who Franklin Pierce was. I happerd to be in a barroom when some allusin was made to he nomination by a plai farmer, who appeared to know someting about the candidate. I asked him if he could tell m who this General Piece was? He rolied:—'Oh, Frank Piere—Oh yes! I know Frank. Why, we think he's quite a man up here in these parts. But then, come to spread him all over the country, he would be awful *thin!*'"

The Execution of General Corral.—The Washington Star learns that when it was known the court martial of Americans, into whose hands Walker had surrendered Corral, had determined on his death, addresses were sent to Walker signed by all the foreign residents in Granada, and by all the clergy and principal native citizens, asking that his life be spared, and offering, on the part of the clergy and the men of wealth, to mortgage their fortunes as a guarantee that Corral, if not executed, would live tranquil in San Juan del Norte. But Walker sternly refused to spare the victim. Soon after Corral was shot, the people of the city surrounded his corpse, a large majority being women, who cut all the hair from his head in little locks, and imbued their 'kerchiefs and portions of their clothing in his blood, to be kept as relics.

AUCTION SALES

SALE OF REAL ESTATE.

THE undersigned will sell at public sale on

FRIDAY,
the 28th day of December, 1855,

at the hotel of Jno. McDaniel, in Chestertown, at 12 o'clock, M., a tract of land containing about

160 Acres,

generally known as a part of the

'WETHERED FARM,"

which lies directly upon the public road leading from Chester Town to George Town Cross Roads. The soil is naturally equal to any in the county, and a large part of it has been improved by the application of Lime and is now in a fine state of cultivation. It is located in the most desirable part of the county, is within three miles of a public landing at Turner's Creek, convenient to places of Public Worship, Schools, Mills, Post Office, &c.

The whole of the 160 acres is arable with the exception of about 10 acres which are in Wood.

The improvements are a frame DWELLING of convenient size and the necessary out-buildings all in good order. The farm is under good chesnut fencing and is divided into three fields.

And at the same time and place he will sell the

three Dwelling Houses, the Store-house, Blacksmiths-shop and Cartwright-shop, which constitute the VILLAGE called

HARMONY,

which adjoin the above described tract of Land.

Harmony offers every inducement to purchase both the active enterprising Merchant and the industrious energetic Mechanic. It is located in the very centre of one of the most wealthy and thrifty neighborhoods in the county. Here a small capital and proper attention to business is all that is needed to insure an independent fortune in a few years.

The Terms of Sale are as follows:

One-fourth cash or a few weeks after the sale—one-fourth on the 1st of April, 1856—and the balance in two equal instalments of one and two years. The purchaser will be required to give bond with approved security, bearing interest from the 1st day of January next, when possession will be given.

I. L. PRICE.

"MONK'S NEW AMERICAN MAP."

From a specimen view of this work, which I have just had an opportunity of seeing, it is, in my judgment, the most comprehensive, accurate, and instructive chart of the kind which has come under my notice. I can therefore recommend it as particularly well adapted to the purposes of instruction in Schools, and equally for personal or domestic information and use, in regard to numerous subjects with which it is essentially important for every one to be acquainted.
