TIMBERED,

BARKER'S *DOUBLE ACTING* FORCE AND LIFT PUMP

IS acknowledged to be the most simple in construction, efficient in operation, less liable to get out of order, and more durable than any pump yet invented.

The World's Fair, London, gave Mr. Barker the complimentary medal, and the Pennsylvania State fair, on two occasions, awarded the pump the first premium.

In cases of fire, the Barker Fire Engine Pump has proved itself invaluable. On several occasions persons, by having this pump on their premises, have saved their property from the devouring flames.

The Scientific American, of August 14th 1852, says: "In our humble judgment Barker's Double acting pump is one of the best improvements which has been made in a great many years, and, in saying this, we express the opinion of many who have used the pump and are now using it. The pump was patented last February, and the claims were broad strong and reliable."

References to the following gentlemen: Samuel Baker, Richard S. Thomas, John McDaniel.

You can see these pumps work at any of the places we have a number engaged to put in.

The undersigned have bought the patent right for Kent county; any gentleman wishing a pump put in can drop a note to

BENJAMIN ELLIOTT,
Chester Town, Kent county, Md.,
or to THOMAS RASIN,
Salt Pond, Md.

KRAUSER'S PORTABLE CIDER MILL.

THESE superior Cider Mills can still be furnished, of improved construction and finish. Their grinding apparatus is peculiar and gives them an advantage over all other mills. By the action of two reciprocating pistons the apple are forced up against the teeth of a rapidly revolving cylander and retained till ground to fine pulp, which of course yields more juice when subjected to pressure than if the pomace was coarse. The screw press has been greatly improved and strengthened since last year and the whole frame is tightened by strong joint bolts. It is adapted to either hand or horse power and can be worked by hand to the extent of six to eight barrels in a day.

THE MORGAN STALLION

ROYAL DEFIANCE.

OWNED by Thos. H. Burgess, near Rock Hall, Kent county, Md., and formerly the property of E. C. Brooks, Dedham, Mass., was bedded June 5th, 1850, was awarded a Diploma at the National Horse Convention, held at Springfield, Mass., 1853, the 1st premium at the Norfolk Agricultural show at Dedham, Mass., 1854, and a Diploma at the same place in 1855.

This MORGAN HORSE was sired by *MORGAN EMPIRE*, (see Linsley on the Morgan horse) g. sire Green Mountain 2nd; g. g. g. sire Gifford; g. g. g. g. sire Justin Morgan. The sire of the original Justin Morgan horse was True Brittian or Beautiful Bay, sire the "imported blood Horse Traveller." The dam of the Justin Morgan was of the Wild Air breed (see Linsley, page 103 and 104.) The dam of DEFIANCE is of the same colour, form and blood as the dam of the "Original Justin Morgan Horse." This makes ROYAL DEFIANCE one of the best MORGAN STOCK HORSES IN THE UNION. He is a beautiful chesnut color, heavy flowing mane and tail, 15½ hands high and weighs 1150 lbs. His sire, dam, and g. dam have trotted their mile inside of 3 minutes. The speed, bottom, and style of his grand sire Green Mountain 2nd, is too well known to make any remarks upon

We see that Defiance is out of trotting stock, which he well represents in style, speed and bottom. This horse and his stock are best portrayed in the following language: The head is fine and his eye large and brilliant, chest capacious, barrel sound, loins very broad, back short, quarters long and muscular, flanks deep and full, limbs short jointed flat and sinewy; like his noble Morgan Ancestry he unites the playfulness and good humor of the pet lamb, with the courage and power of the war horse. In short before the plough or the pleasure wagon, under the saddle or before the load; a better combination than the above cannot be found to crop with our Eastern Shore and neighbouring stock, whether a market or usefulness is the object of regard. He will stand at my residence, Chestertown, and intermediate places. For Terms &c., see bills. Good pastures provided for mares from a distance; but all mares must be at the risk of the owners.
