MARYLAND TOWNS WIN HONOR FLAG

MANY SUBSCRIBE QUOTAS

Patriotic Competition Among Communities Of The State In Selling Liberty Bonds.

One by one Maryland towns are rapidly falling into line in the growing procession of patriotic communities of the land that have won the privilege of flying the Liberty Loan Honor Flag by subscribing to the full quota of third issue bonds that they have been assigned to buy.

Already a number of Maryland towns are proudly flying the Liberty Loan Honor flag, signifying the fact that they have subscribed their quotas. Spurred on by the example of these honor towns, other communities in Maryland have instituted a sharp competition for the distinction of being the next to fall into line and thereby obtain the right to fly the Honor flag.

Pikesville, Baltimore county, was the first Maryland town to receive official notice from Governor Seay, of the Fifth District Reserve Bank, that it had been awarded the Liberty Loan Honor Flag.

Ridgely, was the first town in Caroline county to go over its quota with a total of $15,900 representing 192 subscribers, while Federalsburg was the second with $60,000 representing 460 subscribers.

Reisterstown, Baltimore county, has run close to its allotment of $36,000. Thirty-one thousand dollars of this amount was subscribed at a meeting held last week at the Franklin High School.

Such effective work is being done in the counties in the drive that Baltimore will have to look to its laurels if it expects to outdo the rural districts in subscribing to this board.

For the purpose of bringing every person in the counties into direct touch with the Liberty Loan, a speakers' tour has been arranged by the Liberty Loan county chairmen. These speakers will tour several of the counties, stopping en route at various towns to deliver patriotic addresses and to secure subscriptions to the Loan. The speakers who will make this tour will include some of Maryland's most prominent men, and they will be accompanied on their tour by Farson's band and a military quartette, which together will furnish plenty of patriotic music. It is expected that all the towns which will be visited, will turn out in full force to greet the Liberty Loan speakers, and will put their patriotism to a practical test by subscribing largely to the Loan.

Work being done by the members of the Woman's Liberty Loan Committee for Maryland is noteworthy. More than one million dollars of Maryland's quota has already been raised by the Woman's Committee, and indications are that Maryland's fair sex will far exceed their quota in this loan drive. Reports from the Women's Liberty Loan Chairmen for the various counties show excellent results being gained throughout the State. Baltimore county woman's committee has reported subscriptions amounting to over $300,000; Anne Arundel county, of which Mrs. Theodore Johnson is chairman, reports $47,500 raised by the women of that county and Harford county, of which Mrs. Herman Stump is chairman, has secured through its women Liberty Loan workers, $20,000. Other women county chairmen are reporting equally as splendid results. In order that every woman in every county in the State can be brought into personal touch with this loan drive a flying squadron of women Liberty Loan speakers and bond salesmen will this week make a tour of every county in this State, visiting the largest towns in each county and stopping en route at farm houses and small villages for the purpose of stimulating this drive for war funds for Uncle Sam. The automobiles which will carry these women into the heart of every county in the State, will be gaily decorated with Liberty Loan posters and flags so that it is expected that they will attract much attention as they whirl along the country roads delivering their message of practical patriotism to the rural folk.

Here is an exclusive feature in tractor construction that you get only in an AVERY TRACTOR. It is the best idea that has ever been developed for a tractor motor.

The most vital spot in any motor is the inside of the cylinder wall. It gets the hardest wear of any part of a tractor and the Avery Tractor is the only tractor in which you can take care of this wear by slipping in a renewable wall whenever it should be necessary.

Whenever the inside of the cylinder wears or becomes scored in any way you don't have to buy a complete new cylinder casting as must be done with other tractors. Just get a new inner wall which can be bought at very much less expense and put it in and your motor is as good as new.

Because Avery Kerosene Tractors have renewable walls they can also be made of much harder material and will wear longer, can be machined better and make the motor run cooler.

This is only one of the exclusive features in the construction of the Avery Kerosene Tractors. They also have patented sliding frame transmissions are equipped with Duplex Gasifiers, a new device which turns Kerosene into gas and enables Avery Tractors to burn ALL the Kerosene.

Come in and see our sample tractors and find out all about the wonderful exclusive features that make the Avery Tractor the best buy on the market.

A BUSHEL OF GOOD REASONS

Why You Should Give Your Support to the Chautauqua for Which the Loyal People of This Community Are Working So Hard.

Because in no other way can our people obtain so much pleasure, entertainment and information at so little cost.

Because our citizens want the best, need the best, deserve the best, and appreciate the best of all good things.

Because it gives us the means of keeping in touch with the progress of the age and the trend of human thought.

Because working hand in hand with church and school it is today one of the most helpful and inspiring educational movements of the age.

Because in no other way is it possible for most of us to see, hear and know the wits, poets, humorists, entertainers, interpreters, philosophers, statesmen and orators of the age.

Because is brings men to a greater and better manhood, woman to a sweeter and nobler womanhood and young people to more splendid effort.

Because it is better to bring the good things of the world to your own door, where your neighbor may also enjoy them, than to selfishly seek them for yourself elsewhere, simply because you can afford to go and most of your neighbors cannot.
