Many of the farmers about here are losing their pigs by cholera. For many reasons this is a great damage. Is there not some means whereby this disease can be stamped out. From descriptions given by those who have lost hogs, in some cases at least, it is more than cholera. What part does the State take in reference to contagious diseases among stock.

—The town commissioners have greatly improved Washington avenue by clearing the grass and weeds out of the ditches. They are endeavoring to improve and beautify the entire town, and every one should aid them in their efforts to keep their premises as clean as possible. If every one would help, Chestertown could be made the most beautiful town in the State. Will you help, instead of throwing or sweeping your rubbish and paper in the streets?
