SATURDAY, AUGUST 17, 1918

**About twenty crabbers were fined by Justice Elwood Burgess, of Rock Hall, the other day for failure to procure a crabbing license.

**C. L. Gould, manager of the Ford Assembling plant, Omaha, Neb., received orders from Detroit to close the plant because of inability to get material. Gould said fifteen plants have been closed for the same reason and that only six are now in operation. Ford production has dropped from 3,100 cars a day to 750, 400 of which are trucks.

AUTOMOBILE WRECKS

Most people who drive an automobile do not realize the tremendous power of the mechanism, nor the damage that it can do if not correctly controlled. But the garages that handle automobile wrecks often see things that the general public might well know.

There is a tendency among many newspaper reporters, in cases where a bad accident results from carelessness, to gloss over the affair. They have some feeling for the relatives of a dead man and do not like always to reveal the whole story of his folly. While this attitude is creditable to a reporter's sympathies, yet it would be for the public advantage to know why these things happen.

A high speeding car is easily deflected by faults in the road so that it will leave the traveled way. A friend tells us of a case where a car thus sideswiped an obstruction several feet outside the traveled road on one side. The wheel was wrenched from the driver's hands, the car crossed the road obliquely, climbed a bank a yard high, turned turtle and pinned the driver underneath. When help arrived the victim was piteously calling for assistance and died within an hour.

The energy in a big car is enough to turn the wheels of a good-sized factory. The driver does not realize the havoc it can create, or the dangerous positions it can get into, if it strikes another car or leaves the traveled way. It would do many people good to be present at one of these wrecks and hear the piteous wails of a victim calling for help.

As automobile travel increases the sight of wrecks along the way become morecommon, and should be a warning against reckless driving to all who pass and observe their ghastly details.

TOO MANY FEUDS AND LAWSUITS IN RURAL DISTRICTS

It is this second great commandment, love for one's neighbors, love for all mankind, that I wish now especially to emphasize, and to urge our preachers and religious leaders to emphasize. We have too many church members professing a religion of love who do not speak to some neighbor; who instead of forgiving some ancient injury lie awake nights planning to get even; who instead of putting a charitable construction upon the words and deeds of neighbors, live in a perpetual state of suspicion and distrust; or who belong to some "set" or clique in the community which cherishes nothing but hate or bitterness for some other faction.

Especially, it seems to me, are such conditions likely to prevail in country communities. It is not that country people are worse at heart than city people, but simply because the farmer, living to himself, does not mingle with his fellows as much as the city man, and it is always easy to mistrust the man you don't know.

It was a wise saying of a great man, "Know one another and you will love one another." I remarked the other day that in proportion to property interests involved, I believe there are ten times as many lawsuits among farmers as among city business men.

No matter what our object may be—whether it is to develop individuals of noble, generous character; or bring about greater business cooperation among rural people; or bring about a more satisfying social and community life—in any case, there is nothing more important for us than to get our people to put life's emphasis on love rather than hate, on trust rather than on suspicion.—The Progressive Farmer.

ENTRANCE EXAMINATIONS

STATE SCHOLARSHIPS IN ENGINEERING COURSES

ENTRANCE EXAMINATIONS for the Department of Engineering, as well as for the College of Arts and Sciences, will be held in Gilman Hall, Homewood, Monday-Thursday, September 16-19, 1918, beginning at 9 a. m. each day.

APPLICATIONS FOR SCHOLARSHIPS IN THE DEPARTMENT OF ENGINEERING, established under the provisions of the Laws of Maryland, Chapter 90, 1912, will now be received. If there is more than one applicant for a particular scholarship, a competitive examination must be taken Friday, September 20, 1918, beginning at 9 a. m. Appointments will be made soon after.

Each Legislative District of Baltimore City and each County of the State, with the exception of Howard and Worcester Counties, will be entitled to one or more scholarships for the year 1918-1919, in addition to those which have already been assigned. In the two counties mentioned above, all the available scholarships have been awarded.

Under the provisions of the Act of Assembly, the County and City Scholarships in the department of Engineering are awarded only to deserving students whose financial circumstances are such that they are unable to obtain an education in Engineering unless free tuition be granted to them. The scholarships entitle the holder to free tuition, free use of text-books, and exemption from all regular fees. One of the scholarships in each County and each Legislative District of the City carries also the sum of $200. The expense of attendance for those who do not receive scholarships is not greater than at other Maryland institutions.

Scholarships may be awarded to graduates of Loyola College, St. John's College, Washington College, Western Maryland College, Maryland Agricultural College, Mt. St. Mary's College, Rock Hill College,

TWO SCHOLARSHIPS WILL BE AWARDED "AT LARGE."

Applicants should address The Registrar, The Johns Hopkins University, for blank forms of application and for further information as to examinations, award of scholarships, and courses of instruction. The session begins Tuesday, Oct. 1.

PUBLIC SALE
—OF—
Valuable Real Estate

The undersigned, as attorney and agent for the owner, and under and by virtue of competent authority, will offer at public sale in front of the Court House Door in Chestertown, Maryland, on

Saturday, August 17, 1918

Between 3 and 4 O'clock P. M.,

All that Valuable Farm

OR TRACT OF LAND known as the JAMES W. POTTS HOME FARM, situated in the Seventh Election District of Queen Anne's county, aforesaid, on the west side of the public road leading from Chestertown to McGinnis' Corner, and containing

85 Acres of Land
MORE OR LESS

This is the same property which the said Jas. W. Potts, by his last will and testament, devised to his widow for life and after her death to his three children and which is now owned by M. Grace Potts Connelly.

THE IMPROVEMENTS consist of a

Two and Half Story Eight-Room Frame Dwelling

in excellent condition. New Potato House, 1 Barn 40x20, 1 Barn 20x24, with implement shed; carriage house and shop combined, 3-room hen house, meat house, granary, 2 corn cribs. All of these buildings are in good condition.

The soil is of a light and productive character, especially adapted to the growth of corn, wheat, white and sweet potatoes, asparagus and small fruits.

There are about 160 Apple Trees, 15 Peach Trees, 200 Pear Trees, and Cherry Trees on place, as well as 1½ acres of Asparagus. All of the land is tillable except about 2½ acres, which is in oak and pine timber, and about 4 acres of marsh, affording fine pasture.

This sale offers a great opportunity to any one desiring to purchase an excellent farm and a comfortable home in the best trucking section of Queen Anne's county.

TERMS OF SALE:

One-third of purchase money cash on day of sale, balance in six or twelve months, or all cash, at option of purchaser; or other satisfactory arrangements may be made with purchaser. Deferred payments to bear interest. Title papers at cost of purchaser.

S. SCOTT BECK,
Attorney and Agent for Owner.

John T. Jester, Auct. a3-ts
