Free Scholarship.—At a recent meeting of the Board of Visitors and Governors of St. John's College, Annapolis, it was determined to offer a free tuition scholarship to each of 23 High Schools, among them being Chestertown, Denton, Centreville, Elkton and others.

These scholarships are to be awarded to the boy who stands highest in the graduating class, or, if he be not willing to accept it, to the next in order of standing. The appointment is to be made by the Principal of the school.

In granting these scholarships the Board of Visitors is actuated by the desire to bring the College into a closer relation with the system of Public Education in the State.

Sportsman's Hall Burned.—The homestead of Wm. J. Price, "Sportsman's Hall," on Wye River, Queen Annes county, was burned to the ground late Thursday afternoon. The fire was caused by a defective flue, and in less than a half hour from the time it was discovered the building and contents were in ashes. The house was a large frame building, and was considered one of the finest residences in that section of the county. It was tenated by W. H. Waters, who lost all of his furniture and wearing apparel. The building was insured for about half of its value, and the furniture was insured for about $500.

A Serious Joke.—Melvin Todd, a young clerk in O. M. Hignutt's store at Williston, was severely burned about the head and face a few nights ago as the result of a practical joke. Todd had gone to a dwelling near the store to get some water. Suddenly a door opened and a flame shot out that struck the man at the pump on the head, singeing his hair and eyebrows and painfully burning him. A young friend of Mr. Todd, thinking it would frighten him, had filled his mouth with coal oil or gasoline, a very dangerous expedient, and, blowing, had ignited the gas, never thinking, of course, that the flame would reach his friend. It did, however, with the result that Dr. George had to make a hurried call to relieve the victim's suffering.

Using Potatoes As Fertilizers—In the vicinity of Geneva, N. Y., some farmers have been using potatoes as a fertilizer, scattering them broadcast over their fields, there to rot and enrich the soil This, they figure out is more profitable than taking them to market to get but 12 and 15 cents a bushel, the current price there. Others are feeding them to their stock. It is said that thousands of bushels of potatoes in that vicinity have gone to waste. The glut is due to over production and general holding of potatoes for a high spring price, such as was secured in other years.

The Record also wisely counsels thus: This is anti-democratic and in direct opposition to the fundamental principle of the party. THE RECORD warns democrats against the support of the movement. Refuse point blank to sign any such pledge. If we have any party differences to settle let us settle them at the primaries and abide by the result. This is not only the regular and manly but the true democratic way. Some of the democrats in this movement are men, who have too much at stake, as good and true men and worthy citizens to be found in the ranks of disorganizers. The welfare of the taxpayers of this county rests with the success of the democratic party at the polls. Ninety per cent of the wealth and intelligence of the county is in the democratic party, and the people cannot afford to hand over the county government to the minority. Vote at the primaries and abide by the result.

The party will go via Pennsylvania Railroad on a special Pullman train, leaving Broad Street Station July 3, 10 25 A. M., and arrive Denver 12 30 P. M. July 5.
