Over-Work Weakens Your Kidneys.

Unhealthy Kidneys Make Impure Blood.

All the blood in your body passes through your kidneys once every three minutes.

The kidneys are your blood purifiers, they filter out the waste or impurities in the blood.

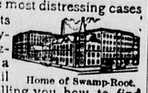
If they are sick or out of order, they fail to do their work.

Pains, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidney trouble.

Kidney trouble causes quick or unsteady heart beats, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries.

It used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's **Swamp-Root**, the great kidney remedy is soon realized. It stands the highest for its wonderful cures of the most distressing cases and is sold on its merits by all druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail free, also pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing Dr. Kilmer & Co., Binghamton, N. Y.



Home of Swamp-Root.

Don't make any mistake, but remember the name, Sawmp Root, Dr. Kilmer's Swamp Root, and the address, Binghampton, N. Y., on every bottle.

ARE WE IN IT?

Well, we guess, "yes!"

When it comes to selling the best quality of LUMBER and giving the biggest values you'll find us "Johnnie on the spot."

Why not get our estimate on Lumber or in fact anything in our line?

KENT COUNTIAN'S TRAVEL.

Trip to The Great West and to The Heart of The Mineral Wealth of The States.

Upon the invitation of Col. H. C. Magruder of the Red Mountian Mining Co., Colorado, R. D. Hynson, Wm. B. Usilton, Philip G. Wilmer and Charles L. Dodd left Philadelphia Wednesday, Aug. 8th, 3 o'clock p. m. on the Lehigh Valley road, through Pennsylvania and New York by way of Buffalo and Niagara. This is a most beautiful route of which one may see much of interest passing through the coal mining towns of Pennsylvania and its beautiful valley of fertile fields with abundant crops upon its hills, crops of the Lehigh Valley principal of which we note buckwheat, hay and tobacco.

The country through N. Y. State to Niagara, following for a long way one of its beautiful lakes, Seneca Lake, here all along the way we saw grape vinyards orchards of peach and apple. After passing the lake we came to land as level as the prairie lands; here the crops consisted of oats, corn, buckwheat, grapes and other fruits, we were disappointed in not being able to see Buffalo, one of the most attractive cities and said to be the richest city of the Union, night had set in and our trip across Niagara Falls could not be enjoyed; there we shifted to the Grand Trunk and thence through South Canada, (Niagara through Canada all by night.) At port Huron we went through the tunnel under the St. Clair river, a distance of three miles. Thursday we passed through Michigan, Indiana and reached Chicago, the great city of the West, for short stop, and left by way of Chicago, Burlington and Quincy at 5 p. m. for faraway Denver. For hundreds of miles we passed through the most fertile fields and beautiful homes with their large barns, everything suggestive of a well-to-do and prosperous agricultural section. At night we cross the great Mississippi at Burlington. On we went with our objective point still far beyond, but still passing through a country of interest, the great ranches of Nebraska over the hills and plains as far as the eye could reach; we saw herd after herd of fine short horn and herford cattle and droves of horses.

On approaching Denver within about 40 miles we had far in the distance the first sight of the mountain peaks of the great Rockies towering high into the heavens, resembling mighty rolling clouds. Here we saw the most beautiful sunset ever witnessed and with much interest did we watch this beautiful sun made more beautiful by the company of ladies that occupied the car and talked about the beauties of the sun set over the Rockies, so familiar to them.

Arrived at Denver about 9 p. m. and after a short stop pulled out for our objective point, the mines, passing through the Gunnison valley, the productive and fertile valley seen; here we see great ranches of cattle, immense tracts of hay and to tell of its productiveness seems like a fairy tale. Many of the farmers here cut their hay four times a year and reap six tons per acre.

The Gunnison Valley is about 500 miles in length and runs at an average width of 3 to 5 miles; here can be seen orchards of fruit, oats and alfalfa, the yield of which exceeds anything we ever heard of. This productiveness is due to irrigation of which we shall have something to say in the future. The Gunnison River is a beautiful stream here can be seen fishing parties camping, men standing in her waters to their waists so tempting are the fine trout that ran in size from 3 to 11 lbs. Tourists come here from many miles to engage in the sport.

The Gunnison Valley has a complete telephone system connecting each farm.

Following the Gunnison River we pass over a part of the most perilious part of our trip scaling the mountain sides, passing through immense gorges, first from one side to the other; the great iron horses puffing and tugging, ascending higher and higher until we reach Marshall Pass the highest point. Marshall Pass is the great continental divide of the waters, one side flowing to the Atlantic and the other to the Pacific, 10852 feet above the sea level at this point. Here on the top of the mountain immense snow sheds are erected to protect the trains. At this point we stopped for a short stay and miles and miles we could view the wonderful and matchless sceenery.

Pulling out from Marshall Pass down the mountain side we pass through the great gorges and the Black Canyon, immense rocks towering to the clouds, some places seemingly placed by man but the hand of the great builder who alone could have wrought such wonders—is stamped upon every rock—the great builder of the universe God!

Finally at 7 o'clock Saturday p. m. we were at Ouray, the county seat of Ouray county, 500 miles below Denver, surrounded by mountains towering way above any thing yet seen, here we rested for the night before starting on our ride over the mountain road for Red Mountain by way of carriages. During all his long rip nothing was left undone by our genial friend, "Col. Magruder" for our pleasure and comfort. Meals served of the best and refreshments to tempt the most delicate taste, Col. Wilmer and the rest of us not missing a meal.

C. L. D.

MOFFETT.—Died at his home, Rock Hall, on July 28, Geo. W., son of the late George and Ella Moffett, of Kent county, Md., age 32 years, 7 months and 17days. [Philadelphia and Wilmington papers please copy.]

He has gone from his loved ones, his children, his wife,
Whom he willingly toiled for and loved as his life;
Oh God! how mysterious and how strange are Thy ways,
To take from us this loved one in the best of his days.

WIFE AND CHILDREN.

Thy gentle voice now is hushed,
Thy warm true heart is still,
And on thy young and innocent brow,
Is resting deaths cold chill.
Thy hands are clasped upon thy breast,
We have kissed thy lovely brow,
And in my aching heart we know
We have no brother now.

BROTHER EDDIE AND WIFE.

Dearest brother, thou hast left us,
And thy loss we deeply feel,
But 'tis God that has bereft us,
He can all our sorrow heal.
Yet again we hope to meet thee,
When the day of life is fled,
When in Heaven with joy to greet thee
Where no farewell tear is shed.

BROTHER SIMON.

ALL GOOD IN BALTIMORE.

Since Baltimore has recovered from her disastrous fire, she now has the record of having all up-to-date places of amusements. Her theatres are all new and those whose roofs have sheltered all that is famous in American theatrical history have been modernized and now it can be truthfully stated that Baltimore does not posses one playhouse that is not safe and beautiful. The last to fall in line was the Monumental. It is now known as the New Monumental and well may it be called "new" for the Empire circuit company, who recently acquired the house, have expended over Fifty Thousand Dollars on it during the past summer. Save for some of the lines of the exterior, few would recognize the theatre that has been a landmark in Baltimore for many years. Today it is one of Baltimore's most attractive playhouses and the new title bestowed upon it, "The Theatre Beautiful" is one that it deserves. It has every modern improvement and all conveniences for the comfort of patrons, Money has been lavishly spent on decorations and the tints used are such as to be restful to the eye and pleasing in their general effect. All of the seats have been torn out and new ones placed in position. Even the balcony seats are now of the folding kind. The boxes are doubled and are now one of the most attractive portions of a perfect theatre. The old patrons will be delighted with the new house and it is safe to say that many new patrons will be secured when the fame of the house spreads abroad. The site of the New Monumental has been in use as an amusement resort for nearly nfty years and it's location, "Over The Bridge," is known to many thousand. During the coming season it will play exclusively Empire Burlesque attractions and the beauty of the new home and the high grade of the attractions to be presented should make this a record-breaking season. The season opens Monday, August 27th.

During the last legislature the work at Annapolis was very encouraging, every liquor measure was defeated but one. There were forty seven measures effecting temperance introduced of which thirty two were won by the advocates of temperance. Liquor men admit never having had so hard a time to prevent temperance legislation. Rev. C. A. Grise, State Supt. of the Anti-Saloon League, of Maryland, was untiring in his efforts, working day and night for three months for the temperance cause of the State.

ITS MERIT IS PROVED

RECORD OF A GREAT MEDICINE

A Prominent Cincinnati Woman Tells How Lydia E. Pinkham's Vegetable Compound Completely Cured Her.

The great good Lydia E. Pinkham's Vegetable Compound is doing among the women of America is attracting the attention of many of our leading scientists, and thinking people generally.

Mrs. Sara Wilson

The following letter is only one of many thousands which are on file in the Pinkham office, and go to prove beyond question that Lydia E. Pinkham's Vegetable Compound must be a remedy of great merit, otherwise it could not produce such marvelous results among sick and ailing women.

Dear Mrs. Pinkham:—

"About nine months ago I was a great sufferer with female trouble, which caused me severe pain, extreme nervousness and frequent headaches, from which the doctor failed to relieve me. I tried Lydia E. Pinkham's Vegetable Compound, and within a short time felt better, and after taking five bottles of it I was entirely cured. I therefore heartily recommend your Compound as a splendid female tonic. It makes the monthly periods regular and without pain; and what a blessing it is to find such a remedy after so many doctors fail to help you. I am pleased to recommend it to all suffering women."—Mrs. Sara Wilson, 31 East 3d Street, Cincinnati, Ohio.

If you have suppressed or painful periods, weakness of the stomach, indigestion, bloating, pelvic catarrh, nervous prostration, dizziness, faintness, "don't-care" and "want-to-be-left-alone" feeling, excitability, backache or the blues, these are sure indications of female weakness, or some derangement of the organs. In such cases there is one tried and true remedy—Lydia E. Pinkham's Vegetable Compound.
