The Evening News of Thursday contained an excellent cut of W. Speer Brownley, formerly book-keeper in the Chestertown Bank and a brother to Mrs. W. R. Pippin. The article stated:

"With the consent of the Adjutant General of the State, Capt. W. Speer Brownley of Company L, Fifth Maryland Infantry, has been elected Lieutenant Colonel of the Fourth Regiment, Maryland Division, Boys' Brigade. Captain Brownley has been connected with the Fifth Regiment since 1889, having been in service with the regiment during the Spanish-American War. He is one of the most popular officers of his regiment, and by reason of his long military experience will be a valuable acquisition to the young Fourth Regiment."

At the public meeting of the Chestertown Water Department held Thursday evening the affairs of the department were found to be in excellent shape. The superintendent has been ordered to shut off all water where the owners are in arrears. This means that unless a number of our prominent citizens pay water rent they will be minus this necessity. Most of the patrons have complied but there are some who insist on imposing on the department.

Cantaloupe fields filled with growing cucumbers is the surprising state of affairs that farmers near Greenwood are contending with this year. Farmers bought large quantities of cantaloupe seeds from a company that quoted unusually low prices, and began to figure on the profits in cantaloupes until the vines came out of the ground, when they found they had been victimized and instead of cantaloupes the vines were bearing cucumbers. In some cases many acres are growing cucumbers.

While there are a number of cases of typhoid fever and other types of fever in this community there is no occasion for any undue alarm. All the sick people have not typhoid fever as has been reported by some. In another column the health officials publish an important card.

NEWSY KERNELS

Fire.—Two stacks of straw on Mr. William Hepbron's farm, Lynch, were burned this week. No other loss.

Mr. Benj. Crew lost a wagon body and a load of wheat by fire Tuesday while threshing.

Coal Awards.—The Kent School Board awarded coal contracts Tuesday to Chas. B. Davis for Rock Hall school, A. S. Turner for Betterton school and J. D. Bacchus for other schools, including the Chestertown school.

Bankrupt.—Frank A. McCauley, storekeeper at Galena, applied for the benefit of the bankruptcy law Tuesday through William W. Beck, attorney. His liabilities are $2,983 and assets $925.

Sale of Property.—Mr. and Mrs. John Sweitzer have sold to Capt. George E. Albee, of New Haven, Conn., their cottage and lots at Gratitude, Rock Hall, for $4,500 cash. This property is in good condition. Capt. Albee is of the United States Navy and will be welcome to Kent. Mr. and Mrs. Sweitzer will remove to Baltimore county.

Court News.—A thirty minute session of court was held in Chestertown Monday, Judge Pearce presiding, and not a single judgment was entered. W. W. and S. S. Beck, Esqs., attorneys for David Cannon, entered suit against Walter T. Morris for damages for false arrest and imprisonment, in the sum of $5000.

New Buildings.—Mr. A. M. Kendall is building a new residence on the Calder farm.

Mr. G. W. Copper is building a new farm house on the Stokes farm, near Tolchester.

Messrs. W. S. & A. M. Culp have been awarded the contract to remodel the home of Mrs. Martin, widow of the late Judge Martin, in Talbot county.

Messrs. Harry and Foster Cannon will begin a new home for Mr. and Mrs. W. H. Lambert, on Kent Circle, Monday.

Mrs. Sarah E. Hatcherson, of Chestertown, has contracted with Mr. A. M. Kendall, of Fairlee, for a modern dwelling on her farm near Fairlee tenanted by Mr. Harvey Morris. This building is to take the place of the one destroyed by fire last spring. The work is well advanced and the building will soon be ready for occupancy.

Peach Crop Short.—Now that the June "drop" which is nature's cutting off of the weak and emaciated peaches and leaving the good ones to absorb the vitality and growing elements from the trees, growers of this particular fruit are more convinced than ever that the crop will be the shortest one for a number of years. Fifteen per centum is now the prediction as to the crop of the Peninsula, while thirty per centum of the crop of the Western Maryland counties will be saved and delivered.

School Notes.—Prof. Thos. J. Kendall, on Tuesday, tendered to the School Board his resignation as principal of Rock Hall High School because of ill health. Prof. Kendall has had three schools, each of which he has served faithfully and well, and each change being a promotion. He was appointed to Rock Hall school in January and during the few months he was there won the respect and esteem of his pupils and the officials, all of whom regret his resignation. He will give his whole attention now to building up his health in which effort he has the heartfelt smypathy and best wishes of a large circle of friends.

Gas Buoy For Upper Bay.—An important notice to mariners was yesterday issued from the office of Commander Russell, inspector of the fifth lighthouse district, which will guard the navigator in the headwaters of the Chesapeake from North Point by Poole's Island to Worton Point. About July 22 a black conical buoy, surmounted by a pyramidal lattice-work frame supporting a lens lantern, showing a fixed red light during periods of 10 seconds, separated by eclipses of 10 seconds' duration, about 10 feet above the water, will be established, in 18 feet of water, in the place of Poole's Island flats buoy, 1, a spar, to mark the southern extremity of a shoal extending about three-quarters of a mile from the southern point of Poole's Island.

Wheat Yields.—Mrs. Lydia Lusby, near Lankford, had 12 acres which yielded 28 bushels per acre, and her whole crop was good.

James W. Chapman, who owns about 1000 acres of farm lands in Kent, averaged nearly 20 bushels. He got 2640 bushels off the Pearce farm.

The general opinion is that Shanghai wheat is turning out well and bearded wheat generally is doing best.

Hon. James H. Baker got 26½ bushels per acre and Rev. A. H. Covey averaged 23 bushels per acre.

Wm. A. Smith, who has traveled extensively on the Peninsula, says the crop is at least one-third short.

Mr. Israel F. Walbert, near Lankford, got an average of 22 bushels per acre from his wheat acreage.

One farmer in lower Kent is said to have gotten just *three* bushels per acre from one wheat field.

Mr. Frank Skirven got 2100 bushels of wheat from 90 acres. On a 45-acre field he got 27 bushels per acre. Its good wheat, too.

The "Miracle" wheat sowed in Kent is being reported to Mr. Joseph Guest. Mrs. Wm. Bryan from two pounds got 45 lbs. for one. C. W. Rinehart on Hulme farm got 2 bushels from 4 pounds seeding. Thos. Bryan on Urie farm got 50 pounds for one! It is said that this wheat will sell for $10 per bushel for seed!

Accidents.—Officer Samuel E. Cooper on Tuesday while inspecting the property at foot of High street known as the Custom House broke through the step and injured his leg. He now walks with a cane.

Mr. Carlton Leaverton, of near Lankford, is suffering with a sprained ankle caused by jumping from a loaded hay wagon.

Mr. Morris Barroll burned his fingers Tuesday evening while experimenting with a new light.

Miss Effie Watson, a guest of Miss Virginia Little, while stepping into a row boat at Chestertown fell into the water Monday. Besides a scare and getting wet no other harm was done. The water did not come above her waist.

James E. Simpler while driving a four mule wagon loaded with posts belonging to Barrett Smith fell off and a number of the posts fell on him spraining his arm and bruising his hand. He was driving down hill when the wagon broke throwing Mr. Simpler off.
