So THIS is where the money goes!!

Up the chimney and into the ash can—very fine for the coal man, but very expensive for you. There is a sure way to make fewer ashes, by burning less coal and burning it *completely*; and there is a sure way to *utilize* the heat, allowing very little to escape up the chimney. Stop wasting your money. Install a

MODEL
Heating System

Steam or hot water. Converts every pound of coal into *live heat delivered at the radiators*, saving one-third to one-half on coal. Leaves fine white ashes, with no clinkers or black coals. Look into it before cold weather sets in.

LEDOM Range Is the most business-like cooking outfit you ever saw. It does all that any range will do, and more; yet saves coal.

MOORE WINS HIS SUIT.

The Maryland Court of Appeals has dismissed the appeal of P., B. & W. Railroad Company vs. Ernest Moore, of Elkton. Moore was awarded $1,500 in the Circuit Court at Elkton, for false arrest and imprisonment at Havre de Grace, but the Court cut the amount down to $2,000. The Railroad Company then took an appeal. The appeal of the same Company vs. Earl Crawford, of Elkton, was continued. Crawford was awarded $1,500 damages in the Talbot county court. Henry Green was awarded $1,000 damages and Aaron Jones, $500 damages in the Kent county court. An effort is being made to settle all the cases without further litigation.

HIGH SCHOOL FOR MILLINGTON.

The County School Board of Kent county, Md., realizing that a High School is necessary at Millington, passed resolutions to that effect and placed the same upon a High School basis, looking towards an accredited High School in the near future, and at the same time appointed Miss Georgia I. Donaldson, of Baltimore county, vice-principal. This young lady is a graduate of Western Maryland College, and began work about September 20th, and we understand evinces much force. She teaches the English and history. The school is now in charge of Wm. J. Boyer as principal; while Miss Mattie Hazel and Miss Clara Bryan are in the primary department.

Millington School has a corps of experienced and competent teachers and we be-speak for it much success. The high school studies are taught in their entirety up to and including the tenth grade. There have been registered so far forty in the High School department, with a number of others to enter. The county School Board hopes to erect a new and up-to-date school building at Millington in the near future, as the present one is entirely inadequate to the needs.

BRYAN'S DAUGHTER FOR CONGRESS.

Bryan has decreed that a woman shall represent Colorado in Congress, that his daughter must have the place, and Ruth Bryan Leavitt has announced her candidacy for the nomination by the Democratic convention of the First district, Denver, Col.

Former Senator Patterson has promised his support and that of his papers, and Mrs. Leavitt expects the indorsement of the Jane Jefferson Club, of which she is president.

Mrs. Dewey C. Bailey, wife of the United States Marshal, has been indorsed by a respectable following as good Congressional timber on the Republican side.

Hog raisers in many sections of the United States have completely driven Hog Cholera from the community by the regular use of Fairfield's Blood Tonics for Hogs Only. Fairfield's Hog Tonic makes the blood pure and drives disease from the system. Sold under written guarantee by dealers named in advertisement on page 1.

INVITATIONS have been issued for the marriage of J. T. C. Hopkins, cashier of the Port Deposit National Bank, and Miss Florence Penney, of Newburgh, N. Y., a former teacher in Tome Institute, on October 16.

Plenty of Birds This Year.—Sportsmen all over the State and non-residents will be pleased to know that there is a greater abundance of partridge and quail this year than has been noticeable in a decade.

M. P. CHURCH GETS MONEY FROM ESTATE.

Money bequests aggregating $40,000 are made in the will of John A. J. Dixon, retired brick manufacturer who died at his residence, 1614 Harlem avenue, Baltimore, last Tuesday. The Superannuated Fund Society of the Methodist Protestant Church is bequeathed $2000 and the home for the Aged of the Methodist Protestant Church at Westminister $1000.

In the will Mr. Dixon stated that his estate, worth between $60,000 and $70,000 was accumulated through his own hard labor, and consequently he has a right to dispose of it as he pleases. In the event of any of beneficiaries contesting his will Mr. Dixon directs that there bequests become void. Ten thousand dollars is left in trust with the executor, Thomas A. Murray, for the use of Ida Dixon, granddaughter of the testator. The will was admitted to probate in the Orphans' Court Monday and was executed November 23, 1908.

Changes of season affect cattle because their digestive organs have to become accustomed to the change of diet. This causes milk production to decrease. Forced feeding makes matters worse. Fairfield's Milk Producer fed regularly will prevent all these troubles and keep up production. Sold under written guarantee by dealers named in advertisement on page 1.

Auditor's Notice

The Kent County Savings Bank
versus
Laura E. Glenn, et al.

In the Circuit Court for Kent County in Equity. No. 1719.

THE creditors of James H. Glenn, late of Kent county, deceased, are hereby notified to file their claims duly authenticated with the Clerk of the Circuit Court for Kent county, Md., on or before the 5th day of December, 1909, otherwise they will by law be excluded from participating in the fund to be audited in this case. By order of Court.

Foley's Honey and Tar clears the air passages, stops the irritation in the throat, soothes the inflamed membranes, and the most obstinate cought disappears. Sore and inflamed lungs are healed and strengthed, and the cold is expelled from the system. Refuse any but the genuine in the yellow package. Sold by all druggists. J. T. Power, Millington, Md.

Description Of Building.

The new building is centrally located on Cross street. It has a frontage of 38 feet and a depth of 49 feet. It is of semi-fireproof construction. The front is of white brick and cement stone trimmings. The side walls are of concrete and the floor girders of steel. The structure is two stories high with a bell tower on the Northeast corner. The first floor is devoted to the storage of the apparatus of the Fire Company, and has three offices for the Town officials. Large double doors the full width of the engine room give access to the apparatus and equipment.

The entire second floor is arranged for assembly room, with stage and anterooms. This room is beautifully decorated in colors. The ceiling is of pressed steel and the procenium arch is very attractive in design. The hall is provided with folding chairs seating 250 persons. It will be used for the social affairs of the company. The whole building is lighted throughout with electricity. The fixtures are of special design. The switches are so located that the lights are turned on by the opening of the doors. Handsome globe lights adorn the roof and four corner pedestals of the tower. Provision has been made for an electric alarm which will soon be installed. Plumbing fixtures have been installed and provision made for hot air heating.

A 600-pound alarm bell of fine tone is located in the tower. This bell is the gift of Miss Helen Bowen Denmead, of Earle Court, Preston and St. Paul Sts., Baltimore.

The building has been built in the most substantial manner and while no attempt has been made at ornamentation on the exterior, it presents a very substantial appearance and is well suited for the purpose for which it is intended. Special attention has been given the designing of the building and every requirement has been provided for.

The building committee have given the subject of the building, considerable thought and investigation, in their determination to give Chestertown one of the most modern and perfectly equipped fire houses in the state. Wm. C. Sutton did the plumbing work and the painting and decorating was done under the supervision of W. L. Fowler. The Chestertown Electric Light Co., F. H. Russel, Supr., installed the lighting. W. S. & A. M. Culp are the builders and A. M. Culp designed the building. All of these gentlemen gave their services free of charge and made it possible to complete the structure at a comparatively small cost.

The financial report read by the secretary showed that the sum of $3100.00 had been received from various sources public subscriptions, entertainments, etc. This amount has been disbursed wisely and economically and the committee estimates that $1,200 additional is needed to liquidate outstanding debts and to complete equipment of apparatus, and apparel for part of the company.

President France in his opening remarks said, in part: "We have erected a building that the town as well as ourselves should be proud of. We have expended the money given us to the best of our ability. We have been liberally encouraged by the Commissioners of Chestertown and the public generally, through which and with your support we have been able to erect this building. There are several things which we need and hope to have with your help. We must provide some means to heat our building and to pay for lighting and cleaning same. We hope to be able in the future to install an up-to-date chemical engine."

C. R. Kluger, the Jeweler, 1060 Virginia Ave. Indianapolis, Ind., writes, "I was so weak from kidney trouble that I could hardly walk a hundred feet. Four bottles of Foley's Kidney Remedy cleared my complexion, cured my backache and the irregularities disappeared, and I can now attend to business every day and recommend Foley's Kidney Remedy to all sufferers, as it cured me after the doctors and other remedies had failed." Sold by all druggists. J. T. Power, Millington.
