CONCRETE HENHOUSES.

They Solve the Problem of Eggs in Winter and Sound, Infested Combs in the Spring.

A western poultry keeper, E. W. Geer, of St. Francois county, Mo., has solved the problem of eggs in winter, and sound, uninfested combs in the spring. At the tile eggs dinari accon crete from sons, est d In vatio above the s

hens are profitable winter layers. This depends somewhat on the variety, as the smaller varieties carry egg production much longer than the larger ones.

Perhaps we might here say that there will be found but little difference as to the number of eggs produced from any good standard variety of well bred and well kept hens of either the larger or the small breeds until they begin reaching two years old, after which the small varieties lead.

Laying hens, if the eggs are for market purposes and not for hatching, are much better without cockerels running with them. No flock of will produce near the number if a large number of cockerels running with them.

been an exhibitor of Toulouse in my full share of prizes. I d with a pair of the finest to tained, the gander a very long ture, the goose remarkable for color, very wide dape and not showing the least tinge of brown in plumage, but a beautiful silvery gray." Size and this beautiful silvery gray color free from any discoloration are most important features for the exhibition Toulouse. None can be more attractive than they when of high quality, large size and rich color. They more than any other goose have gained the admiration of visitors to the showroom.

The looser plumage of the Toulouse adds to their apparent size while, in fact, they are usually under the weight of the best Embden. Records show that at Birmingham Toulouse ganders have weighed 36 and 38 pounds each and ranged from 32 to 34½ pounds per pair, but the general average of the White Embden has been the best and most regular, and, while the show weights of the present do not equal the above because they have quit showing them in a fattened condition, the average is in favor of the Embden if of the same age.

THEDFORD'S BLACK-DRAUGHT FOR CONSTIPATION

Constipation is nothing more than a clogging of the bowels and nothing less than vital stagnation or death if not relieved. If every constipated sufferer could realize that he is allowing poisonous filth to remain in his system, he would soon get relief. Constipation invites all kind of contagion. Headaches, biliousness, colds and many other ailments disappear when constipated bowels are relieved. Thedford's Black-Draught thoroughly cleans out the bowels in an easy and natural manner without the purging of calomel or other violent cathartics.

Be sure that you get the original Thedford's Black-Draught, made by The Chattanooga Medicine Co. Sold by all druggists in 25 cent and $1.00 packages.

Morgan, Ark., May 25, 1901. I cannot recommend Thedford's Black-Draught too highly. I keep it in my house all the time and have used it for the last ten years. I never gave my children any other laxative. I think I could never be able to work without it on account of being troubled with constipation. Your medicine is all that keeps me up.

Things We Like Best

Often Disagree With Us

Because we overeat of them. Indigestion follows. But there's a way to escape such consequences. A dose of a good digestant like Kodol will relive you at once. Your stomach is simply too weak to digest what you eat. That's all indigestion is. Kodol digests the food without the stomach's aid. Thus the stomach rests while the body is strengthened by wholesome food. Dieting is unnecessary. Kodol digests any kind of good food. Strengthens and invigorates.

Schley and Santiago
BY GEORGE EDWARD GRAHAM.

The intrepid Associated Press war correspondent, who was aboard the U. S. S. Brooklyn during the entire five months of the campaign. Illustrated with photographs taken by the Author during the fight.

The Most Sensational Book of the Day.

The true story of the famous cruise of the Flying Squadron under Commodore Winfield Scott Schley, including the blockade and destruction of the Spanish fleet. TOLD FOR THE FIRST TIME.

Contains an autograph endorsement and personal account of the battle by Rear Admiral Schley.

"The facts of the story of the movements and operations of the Flying Squadron as the author tells them in this book are correct." —W. S. SCHLEY.

An interesting narrative of facts. Explains the so-called "Retrograde Movement," the "Loop," the "Coaling Problem," and settles conclusively every adverse ruling of the Court of Inquiry.

PRESIDENT ROOSEVELT, when Governor of New York, said: "Mr. Graham's story is the best account I have heard or read of the naval fighting during the war. It needed just as much courage to go about taking photographs as it did to work the guns."

THE NEW YORK HERALD says:—"Mr. Graham, in the telling of facts, leaves the reader free to make the deduction that several naval officers need a Court of Inquiry to re-establish their reputations, if they can be re-established."

No subject has ever been before the public that has interested everybody as the manner in which Admiral Schley has been treated, and the American people demand the *full recognition of the Hero of Santiago*. This book tells everything just as it occurred and as the eyewitnesses saw it. Book is selling like wildfire. Liberal commissions. Outfit and books now ready. Send seven 2-cent stamps for canvassing outfit. ACT QUICK. Now is the time to MAKE MONEY.

Price $1.50, $1.75, $2.25, $2.75, according to style of binding desired.
