Fire at Preston Sunday Night.

Fire broke out shortly after 9 o'clock Sunday night in the dwelling owned by Mrs. Joanna McShane of Denton, and occupied by R. P. Vickers, at the eastern end of town and destroyed that house and the adjoining dwelling of William T. Tuff. At the time a large proportion of the townspeople were attending revival services at the M. E. Church.

The alarm was given by ringing the church bell. The fire originated in a defective flue. A strong wind was sweeping directly down the street, and only the fortunate circumstance of a vacant lot on the eastern side of the Tuff property prevented further destruction. The house of Mrs. M. E. Nichols, adjoining the Vickers' place on the west was saved by the strenuous efforts of the local fire fighters. A large part of Mr. Vickers' personal property was destroyed. The loss is between $3,500 and $4,000, mostly covered by insurance.

Last October the house that Mr. Vickers then occupied, on the Nichols Wright farm, was burned and Mr. Vickers lost all his household goods. At midnight a second fire alarm rang out, Norman Lednum's chimney being on fire. The blaze was put out without damage.

A Sudden Death.

Mrs. Mary H. Irwin, daughter of the late Mr. and Mrs. Andrew Towers, of this county, and wife of Mr. William H. Irwin, of Denton, died of heart failure at the home of Mr. Alfred Carter, near Denton, about 2 o'clock Sunday afternoon aged 44 years. Mrs. Irwin had started with two of her children, Stewart and Roland, for a walk to the home of her husband's uncle, Richard Alburger, near Denton, and grew ill while on her way thither. She stopped at Mr. Carter's where she passed away in about an hour. Dr. Fisher was summoned, but life was extinct when the physician arrived.

Mrs. Irwin grew up in the Methodist Protestant Church, having begun attendance at Union Grove when she was a little girl. On account of a large number of little children she had but little opportunity to demonstrate her faith. But she was a good woman for "She hath done what she could."

Funeral was at the late home at 2 o'clock Tuesday afternoon, Rev. F. T. Benson, of the M. P. Church, officiating, and interment was in Denton Cemetery. Surviving relatives are the husband, Mr. Wm. H. Irwin, eight children, Wm. J., Ethel May, Harry, Robert Stewart, Roland T., Katharine, Hazel, and Towers; two sisters, Mrs. John Christopher, of Williston; Mrs. A. G. Fleetwood, of Denton, and two brothers, Wm. Towers, of near Choptank, and Samuel Towers, of near Ridgely.

John E. Wilson, Trustee for Sallie R. Cooper, tendered his resignation, which was accepted.

J. Walter Noble and Mahala Noble, adminitrsators of William A. Noble, presented releases from heirs at law, which were approved.

In the matter of the petition of John T. Carter Jr. for an order authorizing J. E. Ellwanger and B. B. Bailey, administrators of J. H. Bailey, to execute a Deed for certain real estate. Parties appeared by counsel. Argument was heard and the demurrer was over-ruled by the Court and the Case continued until the 22d inst. E. W. Deen, Attorney for Petitioner, J. E. Ellwanger, Attorney for the Respondent.

Court adjourned to February 15, 1910.

Good For Ridgely!

The representative of the Armour Company who has arranged for the opening of the fruit canning industry in that place reports that the company had many offers from oth- points in both Maryland and Delaware, in some respects more advantageous than that made by Ridgely, but that the company decided in favor of the latter place where they thought "they were pretty safe in assuming they could depent on an absolutly square deal."

Leaps To His Death.

William Hines, 35 years old, son of the late Rev. W. T. B. L. Hines, an Episcopal minister, committed suicide Monday morning by jumping from the bridge of the Southern Railway at Mount Jackson, Va., into Mill Creek, 72 feet below. He had long been a sufferer from rheumatism, and had made several attempts at self-destruction. A deep long gash in his forehead showed where he had struck upon the rocks. His neck was broken by the fall. The father of the young man was at one time Rector of Christ Church, Denton, and he is well remembered by many residents of the town. He is survived by his mother, who is 72 years old, and one brother, Edgar.

Saint Valentine's Day.

Superstition is nearly as old as man and that it exists now quite as strong though not as widespread as in the early ages of our world, is proved by the various rites and ceremonies practiced on certain days throughout the year. Even those who ridicule them, yet participate in them "just for fun" have a lingering half-suspicion in their minds that they might come true; especially is this the case when inclination points the way. St. Valentine is the acknowledged patron saint of lovers; and the peculiar customs connected with the day were referred to by writers nearly 500 years ago. The St. Valentine who suffered martyrdom on the 14th of February was one of fifty-two saints of that name but nothing has ever been found in his life or in the lives of any of them, that would give occasion for the singular observances of the day. It has been maintained that it was an ancient custom among the Romans during the Lupercalia, celebrated in the month of February, for the boys and men to draw the names of their future wives in honor of their goddess, Februate Juno and that the Christian clergy finding it absolutely impossible to abolish this heathen practice changed it to a religious ceremony by writing on the slips of paper instead of the names of women, those of particular saints whom they were to follow and imitate during the year.

In England, Scotland, France and some other parts of the continent it was formerly the custom of the young people to meet, write each other's or some of their acquaintances' names on a slip of paper, which were thrown into a box, from which they were drawn, the men taking the girls' names and vice vesa. The person thus drawn became one's valentine, and for a whole year was bound to devote himself to the one who drew him. Sometimes, of course, this led to real engagements between the parties, and often tricks were played in such a way that the slips of paper fell into the hands they were meant for. During the fifteenth century married people could not be chosen as well as those who were not married, and often very valuable presents were exchanged.

How To Cure Rheumatism.

The cause of Rheumatism and kindred diseases is an excess of uric acid in the blood. To cure this terrible disease this acid must be expelled and the system so regulated that no more acid will be formed in excessive quantities. Rheumatism is an internal disease and requires an internal remedy. Rubbing with Oils and Liniments will not cure, affords only temporary relief at best, causes you to delay the proper treatment, and allows the malady to get a firmer hold on you. Liniments may ease the pain, but they will no more cure Rheumatism than paint will change the fibre of rotten wood.

Science has at last discovered a perfect and complete cure, which is called "Rheumacide." Tested in hundreds of cases, it has effected the most marvelous cures; we believe it will cure you. Rheumacide "gets at the joints from the inside" sweeps the poisons out of the system, tones up the stomach, regulates the liver and kidneys, and makes you well all over. Rheumacide "strikes the roots of the disease and removes its cause." This splendid remedy is sold by druggists and dealers generally at 50c and $1.00 a bottle. In tablet form at 25c and 50c a package. Trial bottle of tablets sent by mail on receipt of price 25c. Booklet free. Write to Bobbitt Chemical Co., Baltimore, Md.

Impossible to be Well

It is impossible to be well, simply impossible, if the bowels are constipated. You must pay attention to the laws of nature, or suffer the consequences. Undigested material, waste products, poisonous substances, must be removed from the body at least once each day, or there will be trouble. A sluggish liver is responsible for an immense amount of suffering and serious disease. Ask your doctor about Ayer's Pills. He knows why they act directly on the liver. Trust him. *J. C. Better Not Get Dyspepsia

If you can help it. Kodol prevents Dyspepsia, by effectually helping Nature to Relieve Indigestion. But don't trifle with Indigestion.

A great many people who have trifled with indigestion, have been sorry for it—when nervous or chronic dyspepsia resulted, and they have not been able to cure it.

Use Kodol and prevent having Dyspepsia.

Everyone is subject to indigestion. Stomach derangement follows stomach abuse, just as naturally and just as surely as a sound and healthy stomach results upon the taking of Kodol.

When you experience sourness of stomach, belching of gas and nauseating fluid, bloated sensation, gnawing pain in the pit of the stomach, heart burn (so-called), diarrhoea, headaches, dullness or chronic tired feeling—you need Kodol. And then the quicker you take Kodol—the better. Eat what you want, let Kodol digest it.

Ordinary pepsin "dyspepsia tablets," physics, etc., are not likely to be of much benefit to you, in digestive ailments. Pepsin is only a partial digester—and physics are not digesters at all.

Kodol is a perfect digester. If you could see Kodol digesting every particle of food, of all kinds, in the glass test-tubes in our laboratories, you would know this just as well as we do.

Nature and Kodol will always cure a sick stomach—but in order to be cured, the stomach must rest. That is what Kodol does—rests the stomach, while the stomach gets well. Just as simple as A, B, C.

Our Guarantee

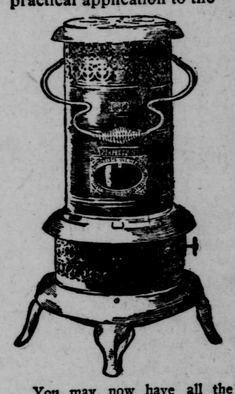
Go to your druggist today and get a dollar bottle. Then after you have used the entire contents of the bottle if you can honestly say, that it has not done you any good, return the bottle to the druggist and he will refund your money without question or delay. We will then pay the druggist for the bottle. Don't hesitate, all druggists know that our guarantee is good. This offer applies to the large bottle only and to but one in a family. The large bottle contains 2½ times as much as the fifty cent bottle.

Kodol is prepared at the laboratories of E. C. DeWitt & Co., Chicago.

Smokeless

Until science discovered a way to construct the Automatic Smokeless Device, and make it completely dependable, all oil heaters had one common great fault—smoke.

With the advent of the Automatic Smokeless Device, and its practical application to the



PERFECTION Oil Heater

(Equipped with Smokeless Device)

the smoke problem was successfully solved.

The Perfection Oil Heater is the only heater equipped with this

Automatic Smokeless Device

which insures a steady, full-glowing heat, with the wick turned up as high as it will go, without a shred of smoke. Reverse the motion, turn the wick down—there's no odor.

The smokeless device automatically locks and prevents the upward movement of the wick beyond the proper exposure. That is the secret. This splendid result gives leadership to the Perfection.

You may now have all the heat you want—when you want it—and where you want it—without the annoyance of smoke or odor.

Brass font holds 4 quarts of oil, which permits a glowing heat for 9 hours. Brass wick tube—damper top—cool handle. Cleaned in a minute.

The Perfection is beautifully finished in Nickel or Japan.
